

A portrait of Francis Howard, Baron Howard of Effingham, a 17th-century English statesman and soldier. He is depicted from the waist up, wearing a dark, high-collared garment with a wide, light-colored (possibly gold or silver) ermine-trimmed cape draped over his shoulders. He has dark hair and a serious expression. The background is dark and indistinct.

Papers Of Francis Howard Baron Howard Of Effingham 1663-1695:

"Esteemed Bookes of Lawe" and the Legal Culture of Early Virginia Warren M. Billings, Brent Tarter, 2017-02-24
Virginia men of law constituted one of the first learned professions in colonial America and Virginia legal culture had an important and lasting impact on American political institutions and jurisprudence Exploring the book collections of these Virginians therefore offers insight into the history of the book and the intellectual history of early America It also addresses essential questions of how English culture migrated to the American colonies and was transformed into a distinctive American culture Focusing on the law books that colonial Virginians acquired how they used them and how they eventually produced a native grown legal literature this collection explores the law and intellectual culture of the Commonwealth and reveals the origins of a distinctively Virginian legal literature The contributors argue that understanding the development of early Virginia legal history as shown through these book collections not only illuminates important aspects of Virginia's history and culture it also underlies a thorough understanding of colonial and revolutionary American history and culture

The William Blathwayt Papers at Colonial Williamsburg, 1631-1722 William Blathwayt, 1989 *Agents of Empire*
Sean Gilmard, 2024-05-02 To understand the foundations of American political institutions it is necessary to understand the rationale for British colonial institutions that survived the empire Political institutions in England's American colonies were neither direct imports from England nor home grown creations of autonomous colonists Instead they emerged from efforts of the English Crown to assert control over their colonies amid limited English state and military capacity *Agents of Empire* explores the strategic dilemmas facing a constrained crown in its attempts to assert control The study argues that colonial institutions emerged from the crown's management of authority delegated to agents first companies and proprietors establishing colonies then imperial officials governing the polities they created The institutions remaining from these strategic dynamics form the building blocks of federalism legislative power separation of powers judicial review and other institutions that comprise the American polity today The New England Historical and Genealogical Register, 1990
