Redefining The State Privatization And Welfare Reform In Industrial And Transitional Economies:

Redefining the State Nicolas Spulber, 1997-10-13 Professor Spulber traces the role of the state in the West and East for more than two centuries along parallel lines first from the creation of the Welfare State in the West and the Party State in the East to reform of the Western Welfare State by means of privatization and entitlement changes to transmutations in the East through large scale privatizations and the creation of the nomenklatura capitalism He establishes an original connection between dismantling state enterprises and limitation of government functions at all levels in the West and the collapse and then restructuring of the state on new foundations in the East

The Welfare State in Post-Industrial Society Jason L. Powell, Jon Hendricks, 2009-06-10 In recent years major social forces such as ageing populations social trends migration patterns and the globalization of economies have reshaped social welfare policies and practices across the globe Multinational corporations NGOs and other international organizations have begun to influence social policy at a national and local level Among the many ramifications of these changes is that globalizing influences may hinder the ability of individual nation states to effect policies that are beneficial to them on a local level With contributions from thirteen countries worldwide this collected work represents the first major comparative analysis on the effect of globalization on the international welfare state The Welfare State in Post Industrial Society is divided into two major sections the first draws from a number of leading social welfare researchers from diverse countries who point to the nation state as case studies highlighting how it goes about establishing and revising social welfare provisions The second portion of the volume then moves to a more global perspective in its analysis and questioning of the impact of globalization on citizenship ageing and marketization The Welfare State in Post Industrial Society seeks to encourage debate about the implications of the most pressing social welfare issues in nation states and integrate analyses of policy and practice in particular countries struggling to provide social welfare support for their needy populations

Neo-liberal Educational Reforms David Turner, Hüseyin Yolcu, 2013-12-17 This volume gathers a cast of eminent scholars for a critical and comparative analysis of how neoliberal education policies have functioned in a range of countries in different stages of economic development Treating case studies from Europe Asia the Americas and the Middle East the volume shows how globalization operates differently in different societal contexts

Russia's Economic Transitions Nicolas Spulber, 2003-04-10 Russia's Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy's development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy's

ownership pattern in the hopes of providing a better basis for subsequent development The treatment's originality, impartiality and historical breadth have cogent economic, social and political relevance **Privatizing the State** Béatrice Hibou, 2004 In the new global political economy, privatization names a transformation of the roles of public and private actors with the goal of reforming government policies and economic aid programs It is an objective, a slogan, a fetish But what does it signify On the one hand it refers to the process of changing industries, businesses and services from governmental or public ownership to private agencies But privatization now also extends to what are normally the prerogatives of national states: taxation, customs, internal security, national defense and peace negotiations In much of the literature, privatization is associated with the retreat, decline or even demise of the state Using Max Weber's concept of delegation or discharge as a point of departure, Hibou and the contributors of this volume propose an alternative view interpreting the contemporary restructuring of economic and political relations in much of the world as the privatization of the state This book challenges received ideas about the process of globalization and its presumed homogenization by suggesting that rather than weakening the powers of the state, privatization actually strengthens it With examples from Russia, Poland, China, Taiwan, Indonesia, North Africa and sub-Saharan Africa, the book questions the supposed inefficiency of states in regulating capitalism and the role economic and financial knowledge plays as substitutes for political and social analysis

National Higher Education Reforms in a European Context Kwiek Marek, Maassen Peter, 2012-11-08 This book addresses the following research questions: What are the main transformations in European higher education? How do these transformations affect the national higher education systems of Norway and Poland? How do European level higher education policy processes affect national higher education policies in Norway and Poland, especially in the areas of funding and governance? Europe and the two countries are the units of analysis with different authors choosing different research foci and different disciplinary approaches

The Road to Privatization of Higher Education in China Li Wang, 2013-11-29 This book makes both empirical and conceptual contributions to the debate on privatization of higher education in China Empirically it aims to fill a gap in our knowledge of privatization of higher education in North China To this end Beijing was chosen as a case for analysis and nine local higher educational institutions were visited The case study strategy is also complemented by an extensive review of national policies to reveal problems beyond the specific case of Beijing and of national concern The effects of the cultural and socioeconomic background and the unique state-party controlling system on higher education management are stressed Conceptually most existing studies on privatization of higher education in China adopt a policy analysis approach while research on privatization of other public sectors or in other countries is frequently guided by economic theories This book thus seeks to combine both social policy and econometric approaches to provide a systematic and detailed investigation of the privatization process in the context of higher education It also improves/examines the applicability of western theories in the Chinese context

China's Domestic Private Firms: Anne S. Tsui, Yanjie Bian, 2014-12-18 One of the most important

outcomes of market reforms in China over the past 20 years has been the emergence of a significant domestic private sector which now accounts for almost a third of China's GDP and is by far the country's most important source of employment growth. This book is the first in-depth analysis of the management and operation of these domestic private firms which are defined as companies or organizations created by PRC citizens including township enterprises and collectives. The book provides a comprehensive and multidisciplinary perspective on the factors important to the successful operation and growth of these firms. It begins with a review of the literature on the topic in three different disciplines: economics, sociology, and management, each followed by several chapters covering recent developments in these areas. Featuring contributions by distinguished scholars and China experts, the work concludes with an insightful chapter on the future of China's public sector in the global economy.

Welfare Beyond the Welfare State Felix Behling, 2018-01-12. This book examines employee welfare in British and German companies from the 19th century through to the present day. Tracing the history of employee welfare, this comparative study reveals new issues beyond the dominant focus on the welfare state, showing that companies are an integral part of welfare systems with surprisingly few differences between the UK and Germany. Maintaining that employee welfare is a key feature of the modern employment relationship, Behling shows how the welfare programme supported industrialisation in the 19th century by cementing the standard employment model of the Fifties and Sixties, as well as how it revolves around corporate social responsibility today. The result is an innovative exploration into the changing nature of employment relationships, contemporary welfare systems, and the co-evolutionary rather than categorical development of economic and political institutions. An engaging and well-researched text, this book will hold special appeal to scholars of social policy, welfare politics, as well as anyone interested in the role of the state in people's working lives.

Achieving Inclusionary Governance: Advancing Peace and Development in First and Third World Nations Terrence Paupp, 2021-10-01. This work shows that not only is inclusionary governance possible, but that the essential legal foundation is already in place; all that is required is the compliance of nations with their obligations under international human rights law, and the centuries-old nation-state dominated war-oriented balance of power will be gone forever. Achieving Inclusionary Governance is an essential starting point for any study or project that aims to pursue in today's globalized environment the democratic tradition on its historically mandated way to realizing the political, civil, and socioeconomic rights of all people. Published under the Transnational Publishers imprint.

This volume comprises a general introduction and twenty-nine chapters divided into six thematic sessions, each with chapters ranging across a variety of crucial topics in the field of

New Public Management reforms and beyond The principal themes to be addressed are **New Public Management** Jan-Erik Lane,2002-09-11 Drawing on economics organisational theory and politics Jan Erik Lane presents new public management from an analytical perspective **Preying on the State** Venelin I. Ganey,2013-07-02 Immediately after 1989 newly emerging polities in Eastern Europe had to contend with an overbearing and dominant legacy the Soviet model of the state At that time the strength of the state looked like a massive obstacle to change less than a decade later the state s dominant characteristic was no longer its overweening powerfulness but rather its utter decrepitude Consequently the role of the central state in managing economies providing social services and maintaining infrastructure came into question Focusing on his native Bulgaria Venelin I Ganey explores in fine grained detail the weakening of the central state in post Soviet Eastern Europe Ganey starts with the structural characteristics of the Soviet satellites and in particular the forms of elite agency favored in the socialist party state As state socialism collapsed Ganey demonstrates its institutional legacy presented functionaries who had become accustomed to power with a matrix of opportunities and constraints In order to maximize their advantage under such conditions these elites did not need a robust state apparatus in fact all of the incentives under postsocialism pushed them to subvert the infrastructure of governance Throughout Preying on the State Ganey argues that the causes of state malfunctioning go much deeper than the policy preferences of free marketeers who deliberately dismantled the state He systematically analyzes the multiple dimensions implications and significance of the institutional and social processes that transformed the organizational basis of effective governance Privatizing: A Social Milestone or Millstone? Herbert Siegel,2003-11-01 When politicians redistribute public wealth by privatizing State Owned Enterprises SOE they divest themselves of public accountability and profoundly affect laws economics and social behavior Data gathered from respondents in twenty eight countries including lawyers investment bankers bureaucrats and educators identify beneficiaries and victims of privatizing processes Results are then explained by statistical analysis concluding with compensatory arrangements that can humanize privatizing Monthly Labor Review United States. Bureau of Labor Statistics,2006 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **Post-Communist Ukraine** Bohdan Harasymiw,2002-02-20 Analysis of successes of Ukraine and its more frequent failures during its transition from authoritarianism to democracy **Knowledge Production in European Universities** Kwiek Marek,2012-11-23 The book studies transformations of European universities in the context of globalization and Europeanization the questioning of the foundations of the Golden Age of the Keynesian welfare state public sector reforms demographic changes the massification and diversification of higher education and the emergence of knowledge economies Such phenomena as academic entrepreneurialism and diversified channels of knowledge exchange in European universities are linked to transformations of the state and changes in public sector services The first contextual part of the book studies the changing state university relationships and the second empirically informed part draws from

several recent large scale comparative European research projects **Urban Poverty, Housing and Social Change in China** Ya Ping Wang, 2004-10-21 There is a close association between urban poverty and housing transitional societies Along with job security housing was the most important element of the socialist welfare system Housing privatisation has far reaching economic implications *Who is Afraid of the State?* Gordon S. Smith, Gordon Scott Smith, Daniel Wolfish, 2001-01-01 The essays in this collection argue that contrary to some private sector populists the state is in the best position to lead in making policy in a rapidly changing world and should retain and refine this responsibility *Transformation of Pension Systems in Central and Eastern Europe* Winfried Schmohl, Sabine Horstmann, 2002-06-26 Given the highly specialised subject matter which so easily degenerates into rather tedious calculations this book is really amazingly interesting and competently executed The late Mark Blaug formerly of the University of London and University of Buckingham UK
