Redemption In Black Theology By Moyd Olin P:

Defining Salvation in the Context of Black Theology James T. Murphy, Jr., 2012-08 An initial introduction to the study of Christian theology is both exciting and invigorating for students of its discipline One can become enameled in the classic perspectives of theology without any consideration of a possible alternative Defining Salvation in the Context of Black Theology is an exit from the classic conviction that trumpets the doctrine of soteriology attributing its substance to the posture of eternity while ignoring the importance of salvation in the existential Careful not to reject the question of eternal life but examining the nuances of the term salvation empowers this work to present the like manner essential that having salvation is just as much about now than it is in the here after *Methodologies of Black Theology* Frederick L. housekeeping in order to call for state protection and regulation of the home Modernists followed suit turning the genre of domestic fiction inside out in order to represent new struggles on the border between home market and state Edmunds uses the work of Djuna Barnes Jean Toomer Tillie Olsen Edna Ferber Nathanael West and Flannery O Connor to trace the significance of modernists radical reconstitution of the genre of domestic fiction Using a grotesque aesthetic of revolutionary inversion these writers looped their depictions of the domestic sphere through revolutionary discourses associated with socialism consumerism and the avant garde These authors used their grotesque discourses to deal with issues of social conflict ranging from domestic abuse and racial violence to educational reform public health care eugenics and social security With the New Deal the U S welfare state realized maternalist ambitions to disseminate a modern sentimental version of the home to all white citizens successfully translating radical bids for collective social security into a racialized order of selective and detached domestic security The book argues that modernists engaged and contested this historical trajectory from the start In the process they forged an enduring set of terms for understanding and negotiating the systemic forms of ambivalence alienation and conflict that accompany Americans contemporary investments in family values

Pinn, 2014-07-01 Named an Honor Book for Nonfiction by the Black Caucus of the American Library Association African American theology has a long and important history With modern roots in the civil rights movements of the 1960s African American theology has gone beyond issues of justice and social transformation to participate in broader dialogues of theological inquiry The Oxford Handbook of African American Theology brings together leading scholars in the field to offer a critical and comprehensive analysis of this theological tradition in its many forms and contexts Using an interdisciplinary approach this Oxford Handbook examines the nature structures and functions of African American Theology The volume surveys the field by highlighting its sources doctrines internal debates current challenges and future prospects in order to present key topics related to the wider palette of Black Religion in a sustained scholarly format This formative collection presents current scholarship on African American Theology and scripture eschatology Christology womanist theology sexuality ontology the global economy and much more The contributors represent a diverse set of faith perspectives adding to the layered discourses within the volume These essays further important discussions on the pressing debates and challenges that shape black and womanist theologies

African American Religious Studies Gayraud S. Wilmore, 1989 This anthology provides a coherent interdisciplinary theoretical base for students of African American religious studies and will assist in the design of programs and courses for lay theological education and training To this end the editor has assembled material from Old and New Testament studies theology church history pastoral counseling worship and social action

The Divided Mind of the Black Church Raphael G. Warnock, 2013-12-06 An altar call to action from the U S senator and senior pastor at Atlanta's Ebenezer Baptist Church Publishers Weekly What is the true nature and mission of the church Is its proper Christian purpose to save souls or to

transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community's fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm's length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced This book traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church Calling for honest dialogue between Black and womanist theologians and Black pastors this fresh theological treatment demands a new look at the church's essential mission An informative work for historians theologians and humanities scholars interested in debating what the Black Church needs to be doing in the 21st century *Journal of African American History* As a person who is not Black reading this book provided a learning experience for me I could also see this book serving as a way to spark discussion involving all ethnic groups as to how we can all as fellow Christians blend the goals of saving lost people and moving the culture toward equality for everyone

Ministry Well written and meticulously researched

The Christian Century **Disciples of Liberty** Lawrence S. Little, 2000 Further it examines the attitudes of ordinary elders and laypersons showing that they closely followed current events and demonstrating that AME leadership also was exercised from the bottom up A century ago the AME Church recognized that prejudice at home was also a reflection of imperialism abroad By focusing on the theme of liberty Little's study offers new insights into that era and shows how African Americans developed a stand on universal human rights and self-determination

BOOK JACKET **American Prophecy** George M. Shulman, 2008 Prophecy is the fundamental idiom of American politics a biblical rhetoric about redeeming the crimes suffering and promise of a special people Yet American prophecy and its great practitioners from Frederick Douglass and Henry Thoreau to Martin Luther King James Baldwin and Toni Morrison are rarely addressed let alone analyzed by political theorists This paradox is at the heart of *American Prophecy* a work in which George Shulman unpacks and critiques the political meaning of American prophetic rhetoric In the face of religious fundamentalisms that associate prophecy and redemption with dogmatism and domination *American Prophecy* finds connections between prophetic language and democratic politics particularly racial politics Exploring how American critics of white supremacy have repeatedly reworked biblical prophecy Shulman demonstrates how these writers and thinkers have transformed prophecy into a political language and given redemption a political meaning To examine how antiracism is linked to prophecy as a vernacular idiom is to rethink political theology recast democratic theory and reassess the bearing of religion on American political culture Still prophetic language is not always liberatory and *American Prophecy* maintains a critical dispassion about a rhetoric that is both

prevalent and problematic

The Motif of Hope in African American Preaching during Slavery and the Post-Civil War Era

Wayne E. Croft Sr., 2017-10-16 *The Motif of Hope in African American Preaching during Slavery and the Post Civil War Era* There's a Bright Side Somewhere explores the use of the motif of hope within African American preaching during slavery 1803 1865 and the post Civil War era 1865 1896 It discusses the presentation of the motif of hope in African American preaching from an historical perspective and how this motif changed while in some instances remained the same with the changing of its historical context Furthermore this discussion illuminates a reality that hope has been a theme of importance throughout the history of African American preaching

Black Christology and the Quest for Authenticity

John H. McClendon III, 2019-05-03 *Black Christology and the Quest for Authenticity* A Philosophical Appraisal constitutes a philosophical inquiry on Black Theology and its attendant Black Christology Explicitly the philosophical examination of Black Theology conceptually maps its quest for establishing Black Christology as an authentic form within Christian theology This text critically expounds on the methodologies and arguments which guide how Black Theology specifically affirms Black Christology as the definitive paradigm for authentic Christianity Significantly the racialized character of Black Theology immediately sets this discourse within the context of philosophy of race Clearly the philosophy of race in terms of its substance and scope is continually expanding Notably the philosophy of religion in its conceptual association with the African American experience considerably enriches the content of the philosophy of race Therefore *Black Christology and the Quest for Authenticity* A Philosophical Appraisal stands as a unique contribution to philosophy of race Summarily while this book tackles the formidable problem of Christian theological subject matter nonetheless the reader must be aware that this is not a work executed methodologically in any theological manner inclusive of Christian theology Subsequently while the object of our investigation substantively remains theological in character the method of investigation is guided by philosophical inquiry which is based on secular principles Furthermore although most mainstream works in philosophy of religion along with theology neglect to exam African American theologians and philosophers the subject matter of Black Christology substantially facilitates in filling this intellectual void
