Redundant Women Angela Coyle, 1984 Looks at the experiences of women in two clothing factories in Yorkshire after their closure in December 1980 *Redundant Women* Angela Coyle, 1984 Looks at the experiences of women in two clothing factories in Yorkshire after their closure in December 1980 M. de Tocqueville. Why are women redundant? Truth versus edification. The doom of the negro race. Time. Good people. What is culpable luxury? The special beauty conferred by imperfection and decay. Why skilled workmen don't go to church. Life at high pressure William Rathbone Greg, 1877 Why are Women Redundant? William Rathbone Greg, 1869 **The Odd Women** George Gissing, 1998-02-23 George Gissing's *The Odd Women* dramatizes key issues relating to class and gender in late Victorian culture the changing relationship between the sexes the social impact of odd or redundant women the cultural impact of the new woman and the opportunities for and conditions of employment in the expanding service sector of the economy At the heart of these issues as many late Victorians saw them was a problem of the imbalance in the ratio of men to women in the population There were more females than males which meant that more and more women would be left unmarried they would be odd or redundant and would be forced to be independent and to find work to support themselves In the Broadview edition Gissing's text is carefully annotated and accompanied by a range of documents from the period that help to lay out the context in which the book was written In Gissing's story Virginia Madden and her two sisters are confronted upon the death of their father with sudden impoverishment Without training for employment and desperate to maintain middle class respectability they face a daunting struggle In Rhoda Nunn a strong feminist Gissing also presents a strong character who draws attention overtly to the issues behind the novel *The Odd Women* is one of the most important social novels of the late nineteenth century Fallenness in Victorian Women's Writing Deborah Anna Logan, 1998 Logan's study is distinguished by its exclusive focus on women writers including Charlotte Bronte George Eliot Elizabeth Gaskell Harriet Martineau Elizabeth Barrett Browning Florence Nightingale Sarah Grand and Mary Prince Logan utilizes primary texts from these Victorian writers as well as contemporary critics such as Catherine Gallagher and Elaine Showalter to provide the background on social factors that contributed to the construction of fallen woman discourse *Odd women?* Emma Liggins, 2016-05-16 This genealogy of the odd woman compares representations of spinsters lesbians and widows in British women's fiction and auto biography from the 1850s to the 1930s Women outside heterosexual marriage in this period were seen as abnormal superfluous incomplete and threatening yet were also hailed as women of the future Before 1850 odd women were marginalised minor characters in British women's fiction yet by the 1930s spinsters lesbians and widows had become heroines This book examines how women writers including Charlotte Brontë Elizabeth Gaskell Ella Hepworth Dixon May Sinclair E H Young Radclyffe Hall Winifred Holtby and Virginia Woolf challenged dominant perceptions of singleness and lesbianism in their novels stories and autobiographies Drawing on advice literature medical texts and feminist polemic it demonstrates how these narratives

Thompson, 2004-11-21 During the nineteenth century European women of all countries and social classes experienced dramatic and enduring changes in their familial working and political lives However the history of women at this time is not one of unmitigated progress theirs was an uphill struggle fraught with hindrances hard work and economic downturns and the increasing intrusion of the public into their innermost private and personal lives Breaking away from traditional categories Rachel G Fuchs and Victoria E Thompson provide a sense of the variety and complexity of women's lives across national and regional boundaries juxtaposing the experiences of women with the perceptions of their lives Three themes unite this study The tension between tradition and modernity The changing relationship between the community and individual The shifting boundaries between public and private Dealing with individual women's lives within a large social and cultural context Fuchs and Thompson demonstrate how strong and courageous women refused to live within the prescribed domestic roles and how many became the modern women of the twentieth century Educating the Proper Woman Reader Jennifer Phegley, 2004 Her analysis of images of influential women readers in Harper's intellectual women readers in The Cornhill independent women readers in Belgravia and proto feminist women readers critics in Victoria indicates that women

China's Changing Welfare Mix Beatriz Carrillo, Jane Duckett, 2011-06-10 This book draws attention to two neglected areas in the growing body of research on welfare in China subnational variation and the changing mix of state and non state provision The contributors to this volume demonstrate the diversity of local welfare provision that lies behind broad national policies and programmes Their focus on local diversity is particularly relevant to understanding the welfare system in China because national state programmes are so often organized by local governments in line with the specifics of their economic and social development At the same time that social and economic development is itself independently creating an array of different conditions that shape non state family business and third sector welfare roles Through chapters that draw on original research in eight provinces the book adopts a local perspective to illustrate and explain some of the transformations that are under way and discuss not only local government initiatives and programmes but also the services and support provided by families informal social networks and community or third sector organizations as well as those delivered by private businesses on a commercial for profit basis This book will be of interest to students and scholars of Chinese society social policy and Chinese studies more widely Beatriz Carrillo is Lecturer in Asian Studies at the University of Technology Sydney Australia Jane Duckett is Professor of Chinese and Comparative Politics at the University of Glasgow UK

Dickens, Novel Reading, and the Victorian Popular Theatre Deborah Vlock, 1998-12-10 Dickens novels like those of his contemporaries are more explicitly indebted to the theatre than scholars have supposed his stories and characters were often already public property by the time they were published circulating as part of a current theatrical repertoire well known to many Victorian readers In this 1998 study Deborah Vlock argues that novels and novel readers were in effect created by the popular theatre in the nineteenth century and that the possibility of reading and writing narrative was conditioned by the culture of the stage Vlock resuscitates the long dead voices of Dickens theatrical sources which now only tentatively inhabit reviews scripts fiction and non fiction narratives but which were everywhere in Dickens time voices of noted actors and actresses and of popular theatrical characters She uncovers unexpected precursors for some popular Dickensian characters and reconstructs the conditions in which Dickens novels were initially received

Nature's Noblemen Monica Rico, 2013-07-16 DIV In this fascinating book Monica Rico explores the myth of the American West in the nineteenth century as a place for men to assert their masculinity by roughing it in the wilderness and reveals how this myth played out in a transatlantic context Rico uncovers the networks of elite men British and American who circulated between the West and the metropolises of London and New York Each chapter tells the story of an individual who by traveling these transatlantic paths sought to resolve anxieties about class gender and empire in an era of profound economic and social transformation All of the men Rico discusses from the well known including Theodore Roosevelt and Buffalo Bill Cody to the comparatively obscure such as English cattle rancher Moreton Frewen envisioned the American West as a global space into which redemptive narratives of heroic upper class masculinity could be written div

Gender and Work in

Urban China Jieyu Liu, 2007-03-06 Although it is generally believed in China that socialism raised women's status and paid work liberated them from the shackles of patriarchy the economic reforms of the last two decades of the twentieth century meant women workers were more vulnerable to losing their jobs than men Unlike previous studies which have focused on the macro structural features of this process this book makes the voices of ordinary women workers heard and applies feminist perspectives on women and work to the Chinese situation Drawing upon extensive life history interviews this book contests the view that mobilizing women into the workplace brought about their liberation Instead the gendered redundancy they experienced was the culmination of a lifetime's experiences of gender inequalities Setting their life stories against a backdrop of great social political upheaval in China the book suggests that the women of this unlucky generation have borne the brunt of sufferings caused by sacrifices they made for the development of socialist China
