Mahon, Patrick McConney, 2011 An approach that encompasses the human and natural dimensions of ecosystems is one that the Wider Caribbean Region knows it must adopt and implement in order to ensure the sustainable use of the region's shared marine resources. This volume contributes towards that vision bringing together the collective knowledge and experience of scholars and practitioners within the Wider Caribbean to begin the process of assembling a road map towards marine ecosystem based management EBM for the region. It also serves a broader purpose of providing stakeholders and policy actors in each of the world's sixty four Large Marine Ecosystems with a comparative example of the challenges and information needs required to implement principled ocean governance generally and marine EBM in particular at multiple levels. Additionally the volume serves to supplement the training of graduate level students in the marine sciences by enhancing interdisciplinary understanding of challenges in implementing marine EBM.
