**Reelpolitik II** Beverly Merrill Kelley, 2004-02-16 Reelpolitik II moves past typical left right political distinctions to examine political ideologies cycling through U S history during the 50s and 60s These eight Cold War movies especially equipped the moviegoer with a unique vantage point to scrutinize the arms race the Red Scare the Korean Conflict and the Vietnam War They also helped audiences to observe the way film functions as a purveyor of American mythology a megaphone to shout political messages a metaphorical route to the emotions a flattering mirror an unflattering microscope and a magic carpet ride back to the future *The Rhetoric of Redemption* David A. Bobbitt, 2007-02-16 The Rhetoric of Redemption applies Kenneth Burke's theory of guilt purification redemption in a close critical analysis of Martin Luther King Jr's I Have A Dream speech developing and examining the implications of Burke's redemption drama in contemporary public discourse **The 2008 Presidential Campaign** Robert E. **Making Sense of Political Ideology** Bernard L. Brock, 2005 Political positions in the United States today are ideologically chaotic and there are significant prices to pay for that chaos The nation has not reached a crisis yet in her modern political gridlock but predicting the time when the current generation will face the difficulties of earlier times of crisis such as the Civil War the Great Depression or World War II is a difficult task When that time comes leaders who can communicate effectively to foster understanding and political unity and who can respond to a crisis with skilled direction will be a vital concern Making Sense of Political Ideology explores the erosion of ties among ideology language and political action Analyzing political language strategies it shows how to dissect language so we can better understand a speaker's ideology The authors define four political positions radical liberal conservative reactionary and apply their techniques to contemporary issues such as the war on terrorism They emphasize the dangers of staying trapped in political gridlock with no consensus for governmental direction and propose that the ability to identify and bridge positions can help political communicators toward constructing coalitions and building support for political action

*Bush's War* Jim A. Kuypers, 2006-10-10 Immediately after the attacks of September 11 2001 Americans looked to President Bush for words of leadership In his most formal reply of the day he said Today our fellow citizens our way of life our very freedom came under attack in a series of deliberate and deadly terrorist acts The victims were in airplanes or in their offices secretaries businessmen and women military and federal workers moms and dads friends and neighbors Thousands of lives were suddenly ended by evil despicable acts of terror The stark tone of Bush's speech suggested the promise of more words to come from the president and it is these words that Bush's War addresses While many books have offered a take on the attacks of 9/11 and their impact upon American society one area has been comparatively ignored presidential justifications for war in the age of terrorism Specifically what did President Bush say to justify American military actions in the post-9/11 world And how did the public

hear what he said especially as it was filtered through the news media The eloquent and thoughtful Bush s War shows how public perception of what the president says is shaped by media bias Jim A Kuypers compares Bush s statements with press coverage arguing that the nature of American public knowledge concerning our role in the world has been changed\_not by 9 11 but by the subsequent argumentative back and forth between Bush and the press **Strategic Political**

Denton Jr.,2005-07-28 Political communication specialists break down the 2004 presidential campaign and go beyond the quantitative facts electoral counts and poll results of the election Factoring in everything from 527 groups to Fahrenheit 9 11 they look at the early campaign period the nomination process conventions social and political contexts the debates the role of candidate spouses candidate strategies political advertising and the use of the Internet This enlightening book shows why more technology doesn t always mean more effective communication and how we collect political bits of communication that comprise our voting choices worldviews and legislative desires The Talk of the Party

Mueller,2008-06-27 Tag Teaming the Press James Mueller s lively account of the evolution of the press relations of Bill and Hillary Clinton begins with the couple s earliest student political activism in the sixties and continues through Hillary s run for the White House in 2008 Based largely on interviews with the journalists who covered them the book explains how the most powerful political couple

in America learned to handle the media an indispensable skill for the twenty first century politician Mueller shows that the Clintons honed that skill through years of interacting with journalists as campaign workers as candidates and as candidates spouses He also makes clear that it is the latter category that makes the Clintons unique among American political couples At various times in their more than 30 years in politics Bill and Hillary have fulfilled a number of roles for each other in dealing with reporters including lightning rod bad cop good cop and schmoozer Mueller examines each of these roles and discusses how the Clintons played them sometimes winning sometimes losing but always well worth watching Written in an engaging style but based on thorough research Tag Teaming the Press is a valuable resource for students of media and politics and an informative read for anyone who cares about American democracy and the role the press plays in it **Campaign 2000**
