were produced and assesses their legacies. In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders. The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico, Cuba, and Nicaragua with a tradition of the fine arts made newly accessible through social transformation. Craven considers how each revolution dealt with the pressing problem of creating a dialogical art, one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were. In addition, the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire. The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art, ideology, and class within a revolutionary process.

**Shaolin Kung Fu** Marta Nešković, 2025-03-21. This book investigates contemporary Shaolin Kung Fu situated between tradition and modernity. Deeply rooted in the philosophical and religious traditions of Chan Buddhism and concurrently evolving under the influence of globalization, this martial art serves as a Chan Buddhist practice within the Shaolin monastic community. Illuminating the rich cultural heritage of Shaolin Kung Fu and its ongoing relevance in the contemporary world, the analysis is grounded in long-term ethnographic fieldwork conducted at the Shaolin Monastery in Henan Province, China. The author argues that the spiritual essence of Shaolin Kung Fu is derived not from its constituent elements such as body movements and techniques but rather from the Chan Buddhist structures of meaning the practitioners embody. By highlighting the relationship between habitus, lived body, and dynamic embodiment, the book offers a novel perspective on the intersection of spirituality and martial arts. Providing a deeper understanding of the cultural, religious, and philosophical foundations that underpin Shaolin Kung Fu, this is a valuable reading for scholars of anthropology, sociology, religious studies, cultural heritage, and China studies, as well as for academics and practitioners with an interest in martial arts.
