Diachrony of Personal Pronouns in Japanese Osamu Ishiyama, 2019-01-15 Personal pronouns in Japanese form a heterogeneous category This book investigates their historical development from a functional perspective It shows that while nouns give rise to personal pronouns through semanticization of pragmatic inferences the use of non nominal forms such as demonstratives and reflexives for person referents can be resolved within their original functions offering little reason to treat them as personal pronouns The cross linguistic investigation into the common sources of personal pronouns reveals that the development of personal pronouns from nouns is largely consistent with grammaticalization but that of forms of non nominal origins requires separate mechanisms such as spatial empathetic perspectives and displacement of semantic features for politeness showing that a one size fits all approach to diachrony of personal pronouns is not sufficient This book will be of special interest to researchers and students in historical linguistics pragmatics and Japanese linguistics who take a functional view of language

Shared Grammaticalization Martine Irma

Robbeets, Hubert Cuyckens, 2013 This book offers fresh perspectives on shared grammaticalization a state whereby two or more languages have the source and the target of a grammaticalization process in common While contact induced grammaticalization has generated great interest in recent years far less attention has been paid to other factors that may give rise to shared grammaticalization This book intends to put this situation right by approaching shared grammaticalization from an integrated perspective including areal as well as genealogical and universal motivations and by searching for ways to distinguish between these factors The volume offers a wealth of empirical facts presented by internationally renowned specialists on the Transeurasian languages i e Japonic Koreanic Tungusic Mongolic and Turkic the languages in focus as well as on various other languages Shared Grammaticalization will appeal to scholars and advanced students concerned with linguistic reconstruction language contact and linguistic typology and to anyone interested in grammaticalization theory
