History and Identity in Early Medieval Wales Rebecca Thomas, 2022 Crucial texts from ninth and tenth century Wales analysed to show their key role in identify formation WINNER OF THE FRANCIS JONES PRIZE 2022 Early medieval writers viewed the world as divided into gentes peoples These were groups that could be differentiated from each other according to certain characteristics by the language they spoke or the territory they inhabited for example The same writers played a key role in deciding which characteristics were important and using these to construct ethnic identities This book explores this process of identity construction in texts from early medieval Wales focusing primarily on the early ninth century Latin history of the

Britons Historia Brittonum the biography of Alfred the Great composed by the Welsh scholar Asser in 893 and the tenth century vernacular poem Armes Prydein Vawr The Great Prophecy of Britain It examines how these writers set about distinguishing between the Welsh and the other gentes inhabiting the island of Britain through the use of names attention to linguistic difference and the writing of history and origin legends Crucially important was the identity of the Welsh as Britons the rightful inhabitants of the entirety of Britain its significance and durability are investigated alongside its interaction with the emergence of an identity focused on the geographical unit of Wales *Chapter 29 - Wales Act 2014* Great Britain, 2014-12-22 Royal assent 17 December 2014 An Act to make provision about elections to and membership of the National Assembly for Wales to make provision about the Welsh Assembly Government to make provision about the setting by the Assembly of rates of income tax to be paid by Welsh taxpayers and about the devolution of taxation powers to the Assembly to make related amendments to Part 4A of the Scotland Act 1998 to make provision about borrowing by the Welsh Ministers to make miscellaneous amendments in the law relating to Wales Explanatory notes to assist in the understanding of the Act are available separately ISBN 9780105629146 Charles Darwin in Australia F. Devolution, Law Making and the Constitution Robert Hazell, Richard Rawlings, 2015-12-01 Law making is a primary function of government and how well the three devolved UK legislatures exercise this function will be a crucial test of the whole devolution project This book provides the first systematic study and authoritative data to start that assessment It represents the fruits of a four year collaboration between top constitutional lawyers from Scotland Wales and Northern Ireland and leading researchers in UCL's Constitution Unit The book opens with detailed studies of law making in the period 1999-2004 in the Scottish Parliament and the Assemblies in Wales and Northern Ireland and how they interact with Westminster Later contributions look at aspects of legislative partnership in the light of the UK's strongly asymmetric devolutionary development and also explain the unexpected impact of devolution on the courts Individual chapters focus on various constitutional aspects of law making examining the interplay of continuity and change in political legal and administrative practice and the competing pressures for convergence and divergence between the different parliaments and assemblies This book is essential reading for academics and students in law and in politics and for anyone interested in the constitutional and legal aspects of UK devolution not least the practitioners and policymakers in London Edinburgh Cardiff and Belfast

'Blerwytirhwng?' The Place of Welsh Pop Music Sarah Hill, 2017-07-05 In the 1960s Welsh language popular music emerged as a vehicle for mobilizing a geographically dispersed community into political action As the decades progressed Welsh popular music developed beyond its acoustic folk roots adopting the various styles of contemporary popular music and ultimately gaining the cultural self confidence to compete in the Anglo American mainstream market The resulting tensions between Welsh and English amateur and professional rural and urban the local and the international

necessitate the understanding of Welsh pop as part of a much larger cultural process Not merely a Celtic issue the cultural struggles faced by Welsh speakers in a predominantly Anglophone environment are similar to those faced by innumerable other minority communities enduring political social or linguistic domination The aim of Blerwytirhwng The Place of Welsh Pop Music is to explore the popular music which accompanied those struggles to connect Wales to the larger Anglo American popular culture and to consider the shift in power from the dominant to the minority the centre to the periphery By surveying the development of Welsh language popular music from 1945 2000 Blerwytirhwng The Place of Welsh Pop examines those moments of crisis in Welsh cultural life which signalled a burgeoning sense of national identity which challenged paradigms of linguistic belonging and out of which emerged new expressions of Welshness

Wales and Whitehall Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2010-03-26 The effective operation of devolution stands the best chance of success if both the UK and Welsh governments share knowledge and understanding concludes the Welsh Affairs Committee in this report The Committee makes a number of recommendations to improve the relationship between Wales and Whitehall A broad review of how intergovernmental relationships are coordinated is required The Joint Ministerial Committee should meet on a regular basis and ministers at all levels should be alert to the consequences of policy and legislation on devolved areas The Cabinet Office should take lead responsibility for devolution strategy in Whitehall Whitehall has lost a focus on the devolution settlement and too often has displayed poor knowledge and understanding of the specificities of the Welsh settlement The Civil Service needs more consistent training and clear department by department focus on retaining devolution knowledge and understanding The Welsh Assembly Government should have the confidence to interact with Whitehall and to promote areas of good practice The Cabinet Secretary and the Permanent Secretary to the Welsh Assembly Government should give evidence annually to the Welsh Affairs Committee Finally reform of the Barnett Formula is required The current financial settlement does not appear sustainable and a new arrangement needs to be built on an agreed and enduring basis which is demonstrably fair and sensitive to the particular circumstances of Wales

The Work of the British Law Commissions Shona Wilson Stark, 2017-07-13 The Law Commission of England and Wales and the Scottish Law Commission were both established in 1965 to promote the reform of the laws of their respective jurisdictions Since then they have each produced hundreds of reports across many areas of law They are independent of government yet rely on governmental funding and governmental approval of their proposed projects They also rely on both government and Parliament and occasionally the courts or other bodies to implement their proposals This book examines the tension between independence and implementation and recommends how a balance can best be struck It proposes how the Commissions should choose their projects given that their duties outweigh their resources and how we should assess the success or otherwise of their output Countries around the world have created law reform bodies in the Commissions image They may wish to reflect on the GB Commissions responses to the changes and challenges they have faced to reappraise their

own law reform machinery Equally the GB Commissions may seek inspiration from other commissions experiences The world the GB Commissions inhabit now is very different from when they were established They have evolved to remain relevant in the face of devolution the UK s changing relationship with the European Union increasing pressure for accountability and decreasing funding Further changes to secure the future of independent law reform are advanced in this book

Constitutional Review in Western Europe Kálmán Póczy, 2024-04-16 Recent confrontations between constitutional courts and parliamentary majorities in several European countries have attracted international interest in the relationship between the judiciary and the legislature Some political actors have argued that courts have assumed too much power and politics has been extremely judicialized Yet the extent to which this aggregation of power may have constrained the dominant political actors room for manoeuvre has never been examined accurately and systematically This volume fills this gap in the literature To explore the diversity and measure the strength of judicial decisions the authors have elaborated a new methodology that is intended to give a more nuanced picture of the practice of constitutional adjudication in Europe The work opens with an assessment of the existing literature on empirical analysis of judicial decisions with a special focus on Western Europe and a short summary of the methodology of the project This is followed by 11 country studies and a concluding chapter providing a comprehensive comparative analysis of the results A further ten countries are explored in the counterpart volume to this book Constitutional Review in Central and Eastern Europe Judicial Legislative Relations in Comparative Perspective The collection will be an invaluable resource for those working in the areas of empirical legal research and comparative constitutional law as well as political scientists interested in judicial politics

The Oxford Handbook of British Romantic Prose Robert Morrison, 2024 The Oxford Handbook of British Romantic Prose is a full length essay collection devoted entirely to British Romantic nonfiction prose Organized into eight parts each containing between five and nine chapters arranged alphabetically the Handbook weaves together familiar and unfamiliar texts events and authors and invites readers to draw comparisons reimagine connections and disconnections and confront frequently stark contradictions within British Romantic nonfiction prose but also in its relationship to British Romanticism more generally and to the literary practices and cultural contexts of other periods and

countries The Handbook builds on previous scholarship in the field considers emerging trends and evolving methodologies and suggests future areas of study Throughout the emphasis is on lucid expression rather than gnomic declaration and on chapters that offer not a dutiful survey but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples Taken as a whole the volume demonstrates the energy originality and diversity at the crux of British Romantic nonfiction prose It vigorously challenges the traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets and it reveals the many ways in which scholars of the period are steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers
