Amos, Daniel Miles Amos, 2018-07-15 This new volume *Children's Literature from Asia in Today's Classrooms Towards Culturally Authentic Interpretations* aims to provide readers with interpretation guides and practical ideas when they endeavor to make use of Asian international children's literature in the classroom. It attempts to help readers interpret stories from Asia more authentically and focuses both on international children's literature and also on international literature read by young adults. In an increasingly interconnected world, understanding Asian international children's literature and effectively using it are worthy goals for PK-16 classrooms and teacher education programs. The book is divided into two parts. Part I discusses how to authentically read children's literature from four countries: India, Thailand, China, and Japan. These chapters provide guides for meaningful interpretations of cultural aspects of children's stories from these countries. Part II consists of annotated bibliographies of international children's literature from selected Asian societies: China, Taiwan, Indonesia, Japan, Philippines, South Korea, and Thailand. The editors believe that readers will find each author's cultural insights fascinating and useful as they attempt to read with cultural authenticity.

*Children's Games in the New Media Age* Chris Richards, Andrew Burn, 2016-05-23 The result of a unique research project exploring the relationship between children's vernacular play cultures and their media-based play, this collection challenges two popular misconceptions about children's play: that it is depleted or even dying out and that it is threatened by contemporary media such as television and computer games. A key element in the research was the digitization and analysis of Iona and Peter Opie's sound recordings of children's playground and street games from the 1970s and 1980s. This framed and enabled the research team's studies both of the Opies' documents of mid-twentieth-century play culture and through a two-year ethnographic study of play and games in two primary school playgrounds, contemporary children's play cultures. In addition, the research included the use of a prototype computer game to capture playground games and the making of a documentary film. Drawing on this extraordinary data set, the volume poses three questions: What do these hitherto unseen sources reveal about the games, songs, and rhymes the Opies and others collected in the mid-twentieth century? What has happened to these vernacular forms? How are the forms of vernacular play that are transmitted in playgrounds, homes, and streets transfigured in the new media age? In addressing these questions, the contributors reflect on the changing face of childhood in the twenty-first century in relation to questions of gender and power and with attention to the children's own participation in producing the ethnographic record of their lives.
