Reflecting On Nana:

Reflecting on Nana Bernice Chitnis, 2016-07-22 First published in 1991 this book radically challenged the view of Nana as the story of an old fashioned femme fatale and reinterprets her as a feminist heroine who manages to overturn patriarchy. The author shows how Nana confronts the traditional social order and offers an alternative version. This work gives not just an original approach to the heroine herself but the story of Zola's struggle with his vision of her and the subversive values she represents. This book will be of interest to students of literature and feminism. *Narratives of Identity in Alban Berg's 'Lulu'* Silvio J. dos Santos, 2014 This book explores the crossroads between autobiographical narratives and musical composition in Alban Berg's *Lulu* unveiling aspects of encoded social customs, gender identity and personal experiences within musical structures. Exploring the crossroads between autobiographical narrative and musical composition, this book examines Berg's transformation of Frank Wedekind's *Erdgeist* and *Die B chse der Pandora*, the plays used in the formation of the libretto for *Lulu* according to notions of gender identity, social customs and the aesthetics of modernity in the Vienna of the 1920s and 1930s. While Berg modernized several aspects of the plays and incorporated serial techniques of composition from Arnold Schoenberg, he never let go of the idealistic Wagnerian perspectives of his youth. In fact, he went as far as reconfiguring aspects of Richard Wagner's life as an ideal identity to be played out in the compositional process. In composing the opera, Berg also reflected on the most important cultural figures in fin de siècle Vienna that affected his worldview, including Karl Kraus, Emil Lucka, Otto Weininger and others. Combining analysis of Berg's correspondence, numerous sketches for *Lulu* and the finished work with interpretive models drawn from cultural studies and philosophy, this book elucidates the ways in which Berg grappled at the end of his life with his self-image as an incorrigible romantic and explains aspects of his musical language that have been considered strange or anomalous in Berg scholarship. Silvio J. dos Santos is an assistant professor of musicology at the University of Florida. [Figures of the World](#) Christopher Laing Hill, 2020-07-15 *Figures of the World: The Naturalist Novel and Transnational Form* overturns Eurocentric genealogies and globalizing generalizations about world literature by examining the complex, contradictory history of naturalist fiction. Christopher Laing Hill follows naturalism's emergence in France and circulation around the world from North and South America to East Asia. His analysis shows that transnational literary studies must operate on multiple scales, combine distant reading with close analysis and investigate how literary forms develop on the move. The book begins by tracing the history of naturalist fiction from the 1860s into the twentieth century and the reasons it spread around the world. Hill explores the development of three naturalist figures: the degenerate body, the self-liberated woman and the social milieu through close readings of fiction from France, Japan and the United States. Rather than genealogies of European influence or the domination of cultural peripheries by the center, novels by Émile Zola, Tayama Katai, Frank Norris and other writers reveal conspicuous departures from metropolitan models as writers revised naturalist methods to address new social conditions. Hill offers a new approach to studying culture.
