Neelima Rajawat, *A Beauty By Its Blue Reflection* is the 27 years journey of an Indian girl including different phases of life with different perceptions but a single thought Neelima grew up in a lower middle class family where people didn't even want to accept her as their daughter Her journey has gone through tiny tales of ups and downs in life Everyone has an influential story Sometimes one's learning phase can be a solution to tackle a similar problem in someone else's life All chapters here can make you flow with emotions like happy sad inspired adorable and independent because Neelima's life is little logical more magical as framed by a Software engineer As a software engineer I tried to write this book in a pattern as we develop a software which we use to call a waterfall model which goes through several phases like analysis design coding testing maintenance So here I considered life as software and have written the book as making different phases of life one after the other Last but not the least why does the index of chapters start with 0 and numbers are written inside the square brackets because in basic computer programming languages array indexes start with zero Although Zero is one of the turning points of Neelima's life **Spooky Technology: A reflection on the invisible and otherworldly qualities in**
