## Reflections Of Men And Ideas:

*Reflections on men and ideas* George de Santillana, **Reflections on men and ideas** George Santayana, 1968  
**Reflection on Men and Ideas** George de Santillana, **An essay concerning human understanding ... A new edition corrected** John Locke, 1765 **The London Magazine, Or, Gentleman's Monthly Intelligencer**, 1759 *An Essay Concerning Human Understanding* John Locke, 1765 Methodological Reflections on Women's Contribution and Influence in the History of Philosophy Sigridur Thorgeirsdottir, Ruth Edith Hagengruber, 2020-07-11 This book introduces methodological concepts aimed at including women in the canon of the history of philosophy The history of women philosophers is as long and strong as the history of philosophy and this holds true not only for the European tradition as the research of women philosophers of the past shows The phenomenon of ignoring and excluding women in 19th and 20th century views on the history of philosophy was a result of the patriarchal tradition that ostracized women in general In this book leading feminist philosophers discuss methodologies for including women thinkers in the canon and curricula of philosophy How does the recovery of women thinkers and their philosophies change our view of the past and how does a different view of the past affect us in the present Studying a richer and more pluralistic history of philosophy presents us with worlds we have never entered and have never been able to approach This book will appeal to philosophers and intellectual historians wanting to view the history of philosophy in a new light and who are in favor of an inclusive perspective on that history *Reflections on Life and Religion* Sir Walter Moberly, Oliver de Selincourt, 2024-09-30 First published in 1952 *Reflections on Life and Religion* is a collection of selected entries made by Sir James Baillie from 1893 to his death These entries preserved as MS Volumes labeled Privatissima are a record of the inner mind of a thinker of wide culture who enjoyed extensive contacts with public affairs as well as with worlds of philosophy and education The book is divided into three main sections dealing with religion ethical and social philosophy and metaphysics and theory of knowledge Each of these sections is further divided into several shorter subsections in accordance with the requirements of the subject area The appendix contains a number of short entries which could not find a suitable place in the main body of the text This volume will be a fascinating read for anyone interested in religion philosophy and particularly metaphysics **Works** John Locke, 1885 **"The" Works of John Locke** John Locke, 1872 Reflection-in-Motion Jaclyn Fiscus-Cannaday, 2025-05-23 *Reflection in Motion* considers how reflective practice is embedded in daily course happenings centering the experiences of students and teachers in Minority Serving Institutions to amplify underrepresented viewpoints about how reflection works in the writing classroom Jaclyn Fiscus Cannaday examines how its availability is subject to teacher student power dynamics the literacies welcomed or not in the class the past and present pedagogies that students are engaging with and attending to and the interactions among humans materials and emotions within the rhetorical context She adopts an intersectional feminist perspective for an inclusive view of how practitioners name identify and practice reflection in the everyday moments of

writing classrooms Fiskus Cannaday invokes a Black feminist qualitative research method that Venus Evans Winters calls a mosaic When researchers collect both traditional and nontraditional texts to create a full view of students and teachers interviews at three institutions a Hispanic Serving Institution a Historically Black College and University and an Asian American Native American Pacific Islander Serving Institution she finds that practitioners often build definitions from past experiences with reflection and then use those definitions as terministic screens to decide if an activity can be named identified and practiced as reflection These definitions hold different rhetorical effects reflection for introspection reflection for learning reflection for mindfulness and reflection for awareness Reflection is used for these different rhetorical effects but because classrooms so often focus on the Westernized view and its emphasis on growth reflection has the underused and undertheorized potential rhetorical effect of helping students investigate their identities and positionalities acknowledge deep rooted ideologies and consider new perspectives so they can better work across difference Reflection in Motion will inspire teachers and writing program administrators to listen to how students define and practice reflection and why thus making room for more capacious definitions of reflection and student centered practices of what reflection can do and be

**understanding** John Locke,1812      *Revolution and Reflection* A. Lees,2012-12-06 THE PROBLEM AND THE APPROACH

The abortive revolutions of 1848 have been widely regarded by historians as a watershed not only in the political but also in the intellectual development of modern Europe Before 1848 according to the traditional view the prevalent climate of opinion was idealistic hopeful humane and progressive Afterwards it was empirical pessimistic cynical and obsessed with power As Hans Kohn put it in his essay *Mid century The Turning Point* In 1848 the foundations of Western civilization intellectual belief in the objectivity of truth and justice ethical faith in mercy and tolerance were still unshaken In the spring of 1848 mankind was full of glowing hope but the end of 1848 dashed the hopes and the century which 1848 inaugurated appears to have led slowly but surely to decay and disaster 1 Germany a prime culprit in the debacle which marked the last third of that century has been seen as the country in which the events of 1848-49 had the most profound impact Although few historians have gone as far as Kohn in linking the failures experienced by mid nineteenth century Germans to the horrors perpetrated by some of their twentieth century descendants it has long been common to think of Germany's response to her defeated revolution as a process of attitudinal preparation for Otto von Bismarck's authoritarian solution to the national question in the period between 1864 and 1871 which in turn was fraught with ominous long range significance      *An essay concerning human understanding. To which are now added, i. analysis of mr. Locke's doctrine of ideas [&c.].* John Locke,1824
