Reflections On Native Newcomer Relations Selected Essays:

Reflections on Native-Newcomer Relations J.R. Miller, 2004-12-15 The twelve essays that make up *Reflections on Native Newcomer Relations* illustrate the development in thought by one of Canada's leading scholars in the field of Native history J R Miller The collection comprising pieces that were written over a period spanning nearly two decades deals with the evolution of historical writing on First Nations and Métis methodological issues in the writing of Native newcomer history policy matters including residential schools and linkages between the study of Native newcomer relations and academic governance and curricular matters Half of the essays appear here in print for the first time and all use archival published and oral history evidence to throw light on Native Newcomer relations Miller argues that the nature of the relationship between Native peoples and newcomers in Canada has varied over time based on the reasons the two parties have had for interacting The relationship deteriorates into attempts to control and coerce Natives during periods in which newcomers do not perceive them as directly useful and it improves when the two parties have positive reasons for cooperation *Reflections on Native Newcomer Relations* opens up for discussion a series of issues in Native newcomer history It addresses all the trends in the discipline of the past two decades and never shies from showing their contradictions as well as those in the author's own thinking as he matured as a scholar

Empire from the Margins Gordon L. Heath, 2017-11-29 At the beginning of the twentieth century there were a number of smaller religious bodies that sought to develop religious and national identity on the margins something especially difficult when the nation was at war in South Africa This book examines rich and varied extant sources that provide helpful windows into the wartime experience of Canada's religious minorities Those groups on the margins experienced internal struggles and external pressures related to issues of loyalty and identity How each faith tradition addressed those challenges was shaped by their own dominant personalities ethnic identity history tradition and theological convictions Responses were fluid divided and rarely unanimous Those seeking to address such issues not only had to deal with internal expectations and tensions but also construct a public

response that would satisfy often hostile and vocal external critics. Some positions evolved over time leading to new identities, loyalties and trajectories. In all cases being on the margins meant dealing with two dominant national and imperial narratives: English or French, both bolstered respectively by powerful Anglo-Saxon Protestantism or French-Quebec Catholicism. The chapters in this book examine how those on the margins sought to do just that. *Canada's Other Red Scare* Scott Rutherford, 2020-12-17. Indigenous activism put small town northern Ontario on the map in the 1960s and early 1970s. Kenora, Ontario was home to a four hundred person march popularly called Canada's First Civil Rights March and a two month long armed occupation of a small lakefront park. Canada's Other Red Scare shows how important it is to link the local and the global to broaden narratives of resistance. In the 1960s it is a history not of isolated events closed off from the present but of decolonization as a continuing process. Scott Rutherford explores with rigour and sensitivity the Indigenous political protest and social struggle that took place in Northwestern Ontario and Treaty 3 territory from 1965 to 1974. Drawing on archival documents, media coverage, published interviews, memoirs and social movement literature as well as his own lived experience as a settler growing up in Kenora, he reconstructs a period of turbulent protest and the responses it provoked, from support to disbelief to outright hostility. Indigenous organizers advocated for a wide range of issues: from better employment opportunities to the recognition of nationhood, by using such tactics as marches, cultural production, community organizing, journalism and armed occupation. They drew inspiration from global currents: from Black American freedom movements to Third World decolonization, to challenge the inequalities and racial logics that shaped settler colonialism and daily life in Kenora. Accessible and wide reaching, *Canada's Other Red Scare* makes the case that Indigenous political protest during this period should be thought of as both local and transnational, an urgent exercise in confronting the experience of settler colonialism in places and moments of protest when its logic and acts of dispossession are held up like a mirror. *First Nations, First Thoughts* Annis May Timpson, 2010-01-01. Countless books and articles have traced the impact of colonialism and public policy on Canada's First Nations, but few have explored the impact of Aboriginal thought on public discourse and policy development in Canada. *First Nations, First Thoughts* brings together Aboriginal and non-Aboriginal scholars who cut through the prevailing orthodoxy to reveal Indigenous thinkers and activists as a pervasive presence in diverse political, constitutional and cultural debates and arenas, including urban spaces, historical texts, public policy and cultural heritage preservation. This innovative thought provoking collection contributes to the decolonization process by encouraging us to imagine a stronger, fairer Canada in which Aboriginal self government and expression can be fully realized. *A Time Such as There Never Was Before* Alan Bowker, 2014-08-19. Ottawa Book Award 2015. Shortlisted. Between 1918 and 1921 a great storm blew through Canada and raised the expectations of a new world in which all things would be possible. The years after World War I were among the most tumultuous in Canadian history: a period of unremitting change, drama and conflict. They were, in the words of Stephen Leacock, a time such as there never was before. The war had been a great crusade promising a

world made new But it had cost Canada sixty thousand dead and many more wounded and it had widened the many fault lines in a young diverse country In a nation struggling to define itself and its place in the world labour farmers businessmen churches social reformers and minorities had extravagant hopes irrational fears and contradictory demands What had this sacrifice achieved Whose hopes would be realized and whose dreams would end in disillusionment Which changes would prove permanent and which would be transitory A Time Such As There Never Was Before describes how this exciting period laid the foundation of the Canada we know today **Alan Bowker's Canadian Heritage 2-Book Bundle** Alan

Bowker,2015-12-07 In this two book bundle Alan Bowker sheds new light on two subjects with a surprising connection the great Canadian writer Stephen Leacock and the rise of Canada on the world stage which Leacock profiled with keen wit and observational skill With Bowker as your guide explore what it was really like to live through the great upheaval that pushed Canada to come into its own on the world stage A Time Such as There Never Was Before Ottawa Book Award 2015

Mary Jane Logan McCallum,2014-05-02 When dealing with Indigenous women s history we are conditioned to think about women as private sphere figures circumscribed by the home the reserve and the community Moreover in many ways Indigenous men and women have been cast in static pre modern and one dimensional identities and their twentieth century experiences reduced to a singular story of decline and loss In Indigenous Women Work and History historian Mary Jane Logan McCallum rejects both of these long standing conventions by presenting case studies of Indigenous domestic servants hairdressers community health representatives and nurses working in modern Native ways between 1940 and 1980 Based on a range of sources including the records of the Departments of Indian Affairs and National Health and Welfare interviews

and print and audio visual media McCallum shows how state run education and placement programs were part of Canada's larger vision of assimilation and extinguishment of treaty obligations Conversely she also shows how Indigenous women link these same programs to their social and cultural responsibilities of community building and state resistance By placing the history of these modern workers within a broader historical context of Aboriginal education and health federal labour programs post war Aboriginal economic and political developments and Aboriginal professional organizations McCallum challenges us to think about Indigenous women's history in entirely new ways

Negotiating the Numbered Treaties Robert Talbot,2019-01-31 Alexander Morris Lieutenant Governor of Manitoba and the North West Territories in the 1870s was the main negotiator of many of the numbered treaties on the prairies and has often been portrayed as a parsimonious agent of the government bent on taking advantage of First Nations chiefs and councillors However author Robert J Talbot reveals Morris as a man deeply sympathetic to the challenges faced by Canada s Indigenous peoples as they sought to secure their future in the face of encroaching settlement and the disappearance of the buffalo Both Morris and the First Nations negotiators viewed the treaties as the basis of a new reciprocal arrangement but by the end of his appointment Morris was seriously at odds with a federal administration that preferred inaction over honouring its treaty promises

[Native Claims](#) Saliha Belmessous,2012 This groundbreaking collection of essays shows that from the moment European expansion commenced through to the twentieth century indigenous peoples from America Africa Australia and New Zealand drafted legal strategies to contest dispossession The story of indigenous resistance to European colonization is well known But legal

resistance has been wrongly understood to be a relatively recent phenomenon These essays demonstrate how indigenous peoples throughout the world opposed colonization not only with force but also with ideas They made claims to territory using legal arguments drawn from their own understanding of a law that applies between peoples a kind of law of nations comparable to that being developed by Europeans The contributors to this volume argue that in the face of indigenous legal arguments European justifications of colonization should be understood not as an original and originating legal discourse but at least in part as a form of counter claim Native Claims Indigenous Law against Empire 1500 1920 brings together the work of eminent social and legal historians literary scholars and philosophers including Rolena Adorno Lauren Benton Duncan Ivison and Kristin Mann Their combined expertise makes this volume uniquely expansive in its coverage of a crucial issue in global and colonial history The various essays treat sixteenth and seventeenth century Latin America seventeenth and eighteenth century North America including the British colonies and French Canada and nineteenth century Australasia and Africa There is no other book that examines the issue of European dispossession of native peoples in such a way

residential school system *Subjects, Citizens, and Others* Benno Gammerl, 2017-11-01 Bosnian Muslims East African Masai Czech speaking Austrians North American indigenous peoples and Jewish immigrants from across Europe the nineteenth century British and Habsburg Empires were characterized by incredible cultural and racial ethnic diversity Notwithstanding their many differences both empires faced similar administrative questions as a result Who was excluded or admitted What advantages were granted to which groups And how could diversity be reconciled with demands for national autonomy and democratic participation In this pioneering study Benno Gammerl compares Habsburg and British approaches to governing their diverse populations analyzing imperial formations to reveal the legal and political conditions that fostered heterogeneity
