## **Reflections Along A Political Journey:**

**Psychoanalytic Reflections on Politics** Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people's desires, fantasies and emotions shape political events and social phenomena. It highlights the mythical sources of today's political projects, the power of political imagination and the function of symbolism in political thought. Eszter Salgó argues that the driving force for the formation of political communities is fantasy, illusions in a Winnicottian sense, phantasies in a Lacanian sense, phantoms as described by Nicolas Abraham and Maria Torok, and dreams as interpreted by Sándor Ferenczi. She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people's deeply felt desire to find in public life the resolution, love and wholeness of early childhood and to unveil the political elite's readiness to don the mask of the ideal parent. The book is divided into two parts. The first part of the book explores the theories of Donald Winnicott and Jacques Lacan, the matrimony on the stage of politics between the good enough mother and the Symbolic Father, which inaugurates the story of democracy's fantastic family. The second part presents the fantastic families of selected countries such as Hungary, Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions. Psychoanalytic Reflections on Politics Fatherlands in mothers hands presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy. It will be of interest to psychoanalysts and academics from across the disciplines of politics, psychology, anthropology, sociology, philosophy, literature and art.

### **Reflections on Political Theory**

N. Wood, 2001-12-18 In this thought provoking study, Neal Wood challenges the conception of political theory as a lofty discipline remote from the world of real politics. Drawing on the examples of thinkers from Plato to those of the nineteenth century, he attempts to define political theory by examining the nature of the state and politics by identifying the major characteristics that their theories share and by analyzing the conditions that have favoured their creation. Wood critically explores the two principle approaches to studying the work of past theorists: the philosophical and historical, and evaluates the relevance of Marxism. The various theories are not treated as blueprints but collectively as a voice of reason from the past which can inspire and guide present and future theorizing.

Fred Halliday, 2012-08-14 One of the great contrarians of international relations scholarship, Fred Halliday was able to combine his understanding of the broad sweep of modern history with a profound knowledge of modern revolutions, the Middle East and national movements. This collection of Halliday's political essays, written for the online journal openDemocracy between 2004 and 2009, is proof of a subtle worldview that continues to generate questions: What is the relation between religion, nationalism and progress? Is a new international order possible? When is intervention a force for progress? From the big headline topics such as the Iraq War to the unexpected comparisons of Tibet and Palestine or Afghanistan and the Falklands, Halliday's writings provide a perennially
