Reflections on Spanish American Poetry Jorge C. Andrade, 1973-06-30 In these five essays the Ecuadorian poet Jorge Carrera Andrade traces the evolution of Spanish American poetry from the sixteenth century to the present The author shows how Spanish American literature grew out of the special conditions produced when the New World environment totally transformed Old World culture and society Initially the brilliance of the land and its extraordinary peoples inspired European interest in exotic travel and utopianism later Old World literary currents came to have distinctive expression in Spanish American writing Poetry and Society in Spanish America follows the historic commitment of the New World poets to social issues particularly such unique ones as the endeavor to bring the Indians into national life while Trends in Spanish American Poetry dwells on the more purely aesthetic concerns that have stimulated the poets of the twentieth century Throughout Carrera Andrade ties his analysis to specific poems and poets In the last two essays the author presents a clear perspective of his poetic development from 1930 to 1960 A Decade of My Poetry and Poetry of Reality and Utopia will especially interest readers of Carrera Andrade s poetry for not only do they elucidate the personal history and philosophy informing his poems they also reveal how truly his inspiration springs from that unique Spanish American world he has so clearly delineated

Spanish American Poetry at the End of the Twentieth Century Jill Kuhnheim, 2010-07-05 Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American

poetry participates in the fundamental cultural debates of its time Using a variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s
