Analyses how crime and justice were represented in print during the London crime wave of 1747-1755. **Reflective Teaching** Kenneth M. Zeichner, Daniel Patrick Liston, 1996. This volume outlines the assumptions and beliefs that distinguish the concept of the reflective teacher from the view of the teacher as passive and a mere technician; a view that teacher education programs and schools have historically promoted. The authors demonstrate how various conceptions of reflective teaching differ from one another. They believe that it is only through teachers' reflections on their own teaching that they become more skilled, more capable and in general better teachers. This is the first volume in the Reflective Teaching and the Social Conditions of Schooling series. The major goal of both this book and of all of the volumes to follow in this series is to help teachers explore and define their own positions with regard to the topics and issues at hand within the context of the aims of education in a democratic society. [The Art of Reflective Teaching](#) Carol R. Rodgers, 2020. The Art of Reflective Teaching examines what it means to be present in one's teaching. The book begins with an in-depth definition of presence from several different angles. The text goes on to delineate what a teacher may be present to, providing a map for useful discussions among teachers and between teachers and students. The book then outlines the structure of reflection, its intentional practice and its importance to presence. Finally, it provides a detailed outline for teaching presence to new and preservice teachers. Rodgers's curriculum integrates mindfulness practice with reflection, using presence as a bridge between the two. Drawing on her own experiences and those of her students, the author demonstrates how reflective teaching is grounded in a living and evolving philosophy of practice. **Book Features** Shows educators how to mentally and emotionally connect themselves to their students; their

classroom and their teaching Provides a tested structure for reflective practice based on the work of both John Dewey and the author's own practice Includes a course outline for teaching presence that can be used by teacher educators professional developers and teacher inquiry groups
