Reconstructing Eliade Bryan S. Rennie, 1996-01-01 Provides a coherent and defensible interpretation of Eliade's thought which allows less familiar readers to approach Eliade with a greater clarity and precision Foreword by Mac Linscott Ricketts a leading translator of Eliade's writings **Religion in Primitive Cultures** Wilhelm Dupré, 2011-10-10 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline *Myth and Religion in Mircea Eliade* Douglas Allen, 2002 This is an interesting study with

a great deal of information on Eliade's main themes and a detailed account of his understanding of myth *Religious Consciousness and Experience* Thomas N. Munson, 2012-12-06 It is one of the ironies of our times that as the practise of religion wanes a theoretical interest in it on the part of many anthropologists psychologists sociologists and philosophers waxes Among these only philosophers bring to their task a long history of theological and religious relations Hence their renewed interest has been hailed as a break down of isolationism heralding perhaps a new era of interdisciplinary peace To celebrate this new ecumenism a Chicago seminary consistently with its purpose sponsored a colloquium to explore the future of philosophical theology If some of its participating professional philosophers initially felt a twinge of embarrassment over their presence at an ostensibly theological meeting they soon were at ease No one was called upon to define the topic or even to suggest its relationship to a philosophy of religion Conveniently everyone could role up his sleeves and get to work on a job he personally felt needed doing Can we wonder that the lay observer appeared somewhat confused Was the purpose to analyze God talk or to find a place for God in a metaphysical scheme Or if not these something else It soon became evident that the participants in the colloquium ranged from the free swinger to the severely inhibited depending upon the role each assigned to dogma and creed **Patterns in Meaning** Wilhelm Dupré, 1994 Peeters 1994 **The Concept of Faith**

William Lad Sessions, 1994 Faith lies at the heart of human life and not just in religious contexts But just what is faith In this book William Lad Sessions ventures a new approach to this age old problem Viewing it in global terms he provides an effective and insightful set of analytical tools for deepening our understanding of the ideas of belief **Transforming Encounters and Critical Reflection: African Thought, Critical Theory, and Liberation Theology in Dialogue** Justin

Christianity there has been a fundamental tension between faith and theology The Reformation with its principle of sola fide on the one hand and its institutionalisation of a scripture based academic theology on the other hand drew particular attention to the tension and suggested new answers to that problem That effort contributed to a fundamental transformation of academic theology within the faculties of Protestant Theology which emerged as a result of the movement In the past decades however academic theology has come under considerable pressure In much of Europe and North America The process of secularization has led to a massive decline in religious education and partially as a reaction to this to a trivialization of academic theology At the same time one can observe a global proliferation of evangelical and Pentecostal groups These groups sometimes display a certain indifference towards academic theological training or even reject it altogether In view of this development the question arises to what extent the relationship between faith and theology as defined in the wake of the Reformation will in future continue to be religiously productive and may thus serve the churches and their congregations

The Chaplain-Researcher Niels den Toom, 2022-10-07 In March 2016 the Dutch Case Studies Project began in which about fifty chaplains participated as co researchers in collecting practice based evidence on what chaplains aim for how they pursue it and with what results The chaplain researchers produced case studies which were discussed collaboratively in research communities which were chaired by academic researchers The engagement of chaplains in research can be understood from the development in the profession of integrating research into chaplaincy While it is presumed that research benefits chaplains practices so far the impact of research on chaplains practice had not been studied Based on mixed methods observation interviews survey focus groups this dissertation describes analyzes and reflects on the perceived change of chaplains professionalism as a result of their participation in the Case Studies Project This practical theological research provides insight in the value of the double role of chaplain researcher for chaplains professionalism

Religious Pluralism and Pragmatist Theology Jan-Olav Henriksen, 2019-07-22 Inspired by pragmatism this book addresses religious plurality with the aim of bringing forth how it may be approached constructively by Christian theology Accordingly not doctrine but practices are focussed in its analyses of interreligious topics Henriksen argues that engagement with the diversity of religious traditions should be grounded in openness towards the other and resistance against making others similar to oneself Accordingly the book presents a theological approach where interaction between religious practitioners is considered a benefit and a necessity for the positive future of religious traditions It will be of interest to anyone who is interested in the understanding of religious pluralism from the point of view of Christian theology

Religion and Social Reconstruction in Africa Elias Kifon Bongmba, 2018-06-13 Religion has played a major role in both the division and unification of peoples and countries within Africa Its capacity to cause and to heal societal rifts has been well documented This book addresses this powerful societal force and explores the implications of a theology of reconstruction most notably articulated by Jesse Mugambi This way of thinking seeks to build on liberation theology aiming

to encourage the rebuilding of African society on its own terms An international panel of contributors bring an interdisciplinary perspective to the issues around reconstructing the religious elements of African society Looking at issues of reconciliation postcolonialism and indigenous spirituality among others they show that Mugambi s cultural and theological insight has the potential to revolutionise the way people in Africa address this issue This is a fascinating exploration of the religious facets of African life As such it will be of great interest to scholars of religious studies theology and African studies
