The Reformation of the Twelfth Century Giles Constable, 1996 A study of the changes in religious thought and institutions c 1180 c 1280 Reform and Renewal in the Middle Ages and the Renaissance ,2022-04-19 Reform is one of the most significant themes spiritual and intellectual of the Middle Ages and it has both institutional and individual dimensions The Reformation crisis led to further variations on this crucial theme This volume examines the theme of Reform from a variety of viewpoints while covering more than four centuries Some contributions look at Apocalyptic dimensions in writings on reform Another focuses on the influence of Gerhart Ladner on the study of reforming themes and reform movements These articles will be useful for the study of intellectual history ecclesiastical history the history of spirituality and the study of Apocalypticism Contributors include Gregory S Beirich Christopher M Bellitto Gerald Christianson Thomas C Giangreco William V Hudon Lawrence F Hundersmarck Thomas M Izbicki Daniel Marcel La Corte Thomas E Morrissey Francis Oakley Joseph F O Callaghan Gilbert Ouy Robert Somerville Phillip H Stump and Morimichi Watanabe Publications by Louis B Pascoe S J Jean Gerson Principles of Church Reform ISBN 978 90 04 03645 1 Out of print Church and Reform Bishops Theologians and Canon Lawyers in the Thought of Pierre d Ailly 1351 1420 ISBN 978 90 04 14062 2 A Companion to the Great Western Schism (1378-1417) ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention Reassessing Reform Christopher M.  approach such men as St Bernard of Clairvaux and John Calvin we are approaching two men who were not only significant
 figures of their time but figures standing on opposite shorelines of the influence and impact of Scholasticism as well as a
 tumultuous decline in orthodoxy Despite this reality what is most compelling about these two men is the continuity of their
 developed thought even though they were worlds apart separated by time This continuity is most assuredly grounded in their
 historical sources and more importantly their faithful handling of God's word That continuity although not point for point was
 rather for the significant part of the structure and content sum and substance of the twofold knowledge of God and self For
 both of these men this doctrine was fundamental permeating the whole of their world and life philosophy Bernard and Calvin
 clearly saw the implications of this twofold knowledge These implications manifest in the realm of various doctrines and the
 network of their system of thought This book seeks to explore those various components of their twofold knowledge of God
 and self as well as the implications in the realm of experiential Christianity **Balaam's Ass: Vernacular Theology
 Before the English Reformation** Nicholas Watson, 2022-06-21 For over seven hundred years bodies of writing in
 vernacular languages served an indispensable role in the religious and intellectual culture of medieval Christian England yet
 the character and extent of their importance have been insufficiently recognized A longstanding identification of medieval
 western European Christianity with the Latin language and a lack of awareness about the sheer variety and quantity of
 vernacular religious writing from the English Middle Ages have hampered our understanding of the period exercising a
 tenacious hold on much scholarship Bringing together work across a range of disciplines including literary study Christian
 theology social history and the history of institutions Balaam's Ass attempts the first comprehensive overview of religious
 writing in early England's three most important vernacular languages Old English Insular French and Middle English
 between the ninth and sixteenth centuries Nicholas Watson argues not only that these texts comprise the oldest continuous
 tradition of European vernacular writing but that they are essential to our understanding of how Christianity shaped and
 informed the lives of individuals communities and polities in the Middle Ages This first of three volumes lays out the long post
 Reformation history of the false claim that the medieval Catholic Church was hostile to the vernacular It analyzes the
 complicated idea of the vernacular a medieval innovation instantiated in a huge body of surviving vernacular religious texts
 Finally it focuses on the first long generation of these writings in Old English and early Middle English *Reforming the*

Church before Modernity Christopher M. Bellitto, 2016-04-08 Reforming the Church before Modernity considers the question of ecclesial reform from late antiquity to the 17th century and tackles this complex question from primarily cultural perspectives rather than the more usual institutional approaches The common themes are social change centres and peripheries of change monasticism and intellectuals and their relationship to reform This innovative approach opens up the question of how religious reform took place and challenges existing ecclesiological models that remains too focussed on structures in a manner artificial for pre modern Europe Several chapters specifically take issue with the problem of what constitutes reform reformations and historians notions of the periodization of reform while in others the relationship between personal transformation and its broader social political or ecclesial context emerges as a significant dynamic Presenting essays from a distinguished international cast of scholars the book makes an important contribution to the debates over ecclesiology and religious reform stimulated by the anniversary of Vatican II
