Reforming Agriculture The World Bank Goes To Market:

Reforming Agriculture Jacob Meerman, 1997-01-01 Evaluates the World Bank's experience with the fifty agricultural adjustment operations approved since 1979 and reflects the impact on Bank programming of a worldwide shift in the development paradigm. *Reforming agricultural markets in Africa* Kherallah, Mylene, Delgado, Christopher L., Gabre-Madhin, Eleni Z., Minot, Nicholas, Johnson, Michael, 2002-01-01 The long term reduction of hunger and poverty in Sub Saharan Africa remains one of the great challenges for the international development community. Eliminating hunger and promoting widespread growth in the region inevitably involves agriculture given its central role in the region's economies. Over the past 20 years most African governments have carried out reforms to deregulate agricultural markets and reduce the role of state enterprises. How much has the state actually withdrawn from agricultural markets? Have well functioning private markets emerged? How successful were these reforms in boosting agricultural production, economic growth and the incomes of the rural poor? What lessons can we learn from the reform process? The authors of this book address these questions through an analysis based on an extensive review of experiences with reform focusing on three major agricultural markets: fertilizer, food crops and export crops. They examine the historical rationales for intervention, the factors contributing to reform, the process of implementation and the impact of the reforms on farmers and consumers in Sub Saharan Africa. The authors find that reforms have had many favorable results but that the impact has been muted by partial implementation and structural constraints. They propose a new agenda for promoting the development of agricultural markets in Sub Saharan Africa, identifying areas where governments can play a supportive role. They argue that appropriate agricultural marketing policies and investments can improve livelihoods and the economic health of the region.

Reforming Agriculture Jacob Meerman, Banco Mundial, 1997 *Assessing World Bank Support for Trade, 1987-2004* Yvonne Manu Tsikata, 2006-03-14 An independent evaluation of the World Bank's extensive support to developing countries on trade issues between 1987 and 2004. The study assesses the development effectiveness of World Bank trade related advocacy, capacity building, lending and research. It examines the extent to which the Bank's policies and assistance have met its stated objectives in the area of trade and makes recommendations to strengthen the effectiveness of future Bank trade assistance. *African Agricultural Reforms* M. Ataman Aksoy, 2012-07-10 This volume analyzes the political economy of the successes and failures of the agricultural reform programs in Sub Saharan Africa. It shows that in almost all cases reforms lead to a supply response but their sustainability in face of shocks depends on the consensus about the reform and the subsequent rent distribution. *Bridging Troubled Waters* George Keith Pitman, 2002-01-01 Today 166 million people in 18 countries lack access to adequate water resources and it is estimated that by 2025 the number of people affected will increase to approximately three billion or 40 per cent of the world's population. There is now an international consensus that the severity of the problem requires a strategic approach that emphasises the equitable and sustainable management of

water resources This report examines the implementation of the World Bank's 1993 Water Resources Management policy and evaluates the effectiveness of strategies adopted which seek to address identified problems It also makes recommendations for improving World Bank policy and strategy in the water sector *Promoting Environmental Sustainability in Development* Andrés Liebhenthal, 2002-01-01 OED's evaluation has been timed to inform the preparation of the new Environment Strategy Paper The evaluation is based on the synthesis of self evaluation assessments case studies of selected countries background reviews of selected areas surveys and interviews of Bank staff and consultations with stakeholders in four regions An Advisory Panel reviewed drafts and served as a sounding board for the recommendations A concluding Workshop on the Bank's Environment Strategy and OED's Environment Review provided an opportunity for participants to comment on the Review findings and on the draft Environment Strategy and to discuss next steps in implementation In addition to OED's Review we are pleased to share with you the report of OED's Advisory Panel and the Facilitator's Summary of the concluding workshop **Assisting Russia's Transition** Gianni Zanini, 2002-01-01 This evaluation assesses the development effectiveness of the World Bank's lending and non lending assistance to the Russian Federation since 1991 a 10 year period of tumultuous political economic and social change This report concludes that an assistance strategy concentrating on analytical and advisory services with limited financial support for Russia would have been more appropriate than one involving large volumes of adjustment lending **The Next Ascent** Ridley Nelson, 2002-01-01 The Aga Khan Rural Support Program AKRSP in northern Pakistan has become a model for rural development programmes throughout the country and worldwide This is the fourth independent evaluation of the AKRSP by the World Bank which seeks to assess how the programme can best meet present and future challenges and development needs The assessment covers the period since the programme's initiation in 1982 as well as the period since the last evaluation in 1995 It concentrates on four programme components community organisations infrastructure development natural resource management and microfinance **Social Funds**, 2002-01-01 This study reviews the development effectiveness of social fund projects and considers the implications for their future support by the World Bank It finds that the performance of such projects has improved over time in many respects However although they have been highly effective in delivering small scale infrastructure they have been less successful in achieving consistent improvements in outcomes and welfare impacts The report recommends greater transparency and selectivity in the use of this policy instrument **Power for Development** Fernando Reyes Manibog, Rafael Dominguez, Stephan Wegner, 2003-01-01 This publication evaluates the performance of the World Bank Group WBG during the 1990s in promoting private sector development in the electric power sector in 80 countries Main findings include that where countries showed a commitment to advancing reforms in promoting private sector development and where programmes were properly implemented the expected benefits were delivered However quality of outcomes depended on the objectives pursued and on types of assistance provided with most countries remaining in the early stages of

reform *Putting Social Development to Work for the Poor*, 2005 This publication examines the effectiveness of aid agency projects in relation to social development work which are based on four key concepts of social sectors safety nets inclusion equity and empowerment and social relations The report draws on recent and ongoing OED evaluations supplemented by other data including a portfolio review a literature review individual surveys and a review of country assistance strategies Four main recommendations are made to improve policy outcomes including the need to ensure that stated Bank or policy priorities receive adequate treatment across regions and countries with better strategic planning to address current skills and monitoring and evaluation gaps **Debt Relief for the Poorest** Madhur Gautam, 2003 The Heavily Indebted Poor

Countries HIPC Debt Initiative was designed to relieve the high external debt of some of the world's poorest nations The Initiative was put in place by the World Bank and the International Monetary Fund IMF in 1996 and enhanced in 1999 The HIPC Debt Initiative addresses a key obstacle to economic growth and poverty reduction but it also contains multiple and overly ambitious objectives This work is an independent evaluation which assesses the progress and prospects of the HIPC Debt Initiative achieving its objectives *Economic Developments In India : Monthly Update, Volume -49 Analysis, Reports, Policy Documents* Editors : Raj Kapila & Uma Kapila, 2002 Improving the Lives of the Poor by Investing in Cities Roy

Gilbert, 2003 Cities are home to 525 million poor people throughout the world This study assesses the performance of 99 World Bank urban development operations completed since 1993 focusing on how these interventions have improved the living conditions of the urban poor Findings include that the projects improved livability conditions significantly including access to better basic water sewerage and solid waste disposal However there is a need for more systematic monitoring and evaluation of the poverty alleviation results of such urban development assistance **IDA's Partnership for Poverty**

Reduction Catherine Gwin, 2002-01-01 During its 40 year history the International Development Association IDA has worked to improve global welfare by allocating resources to growth and poverty reduction programs In 1990 a new framework for IDA's poverty reduction efforts was created which resulted in significant structural change to its programs The focus of the programs became one of labor intensive growth and expanded access to social services and safety nets to improve incomes levels among the poor Additionally the IDA agenda was expanded to include gender the environment and governance as facets of the poverty reduction framework This report evaluates IDA's performance from 1994 through 2000 against the three specific replenishment commitments of the period While finding the performance level only partially satisfactory the review suggests ways to improve the effectiveness of IDA programs replenishment process and its ability to match corporate and country priorities *Information Infrastructure* Alain Barbu, Rafael Dominguez, William H. Melody, 2001-01-01 This publication follows up on the 1993 review of the Bank's experience in telecommunications it assesses how their assistance from has influenced the development of information infrastructure in developing countries It finds that the recommendations from 1993 have generally been heeded with the adoption of a new private sector led agenda and increasing the share of IFC

in total Bank Group funding commitments However the ability to play a global policy leadership role has been hampered by a benign neglect of the sector at both the strategic and country management level *Annual Review of Development Effectiveness* Soniya Carvalho,2003 This is the sixth annual review which assesses the effectiveness of World Bank programmes in helping to achieve the Millennium Development Goals MDGs and related targets designed to address global poverty This year s review finds that the organisation s programmes are consistent with MDG themes but can be greatly enhanced by defining quantified time bound targets for poverty reduction and other development outcomes Areas needing further attention include helping clients to monitor and evaluate development outcomes working to establish cross sectoral strategies and clarifying the role and objectives of itself and other partners Above all the World Bank needs to fully assess MDG implications at the corporate country sector and global levels and to address the implications in its use of lending and administrative resources The CGIAR at 31 ,2004 The Consultative Group on International Agricultural Research CGIAR was established in 1971 to support the Rockefeller and Ford Foundations in funding four international agricultural research centres in Colombia Mexico Nigeria and the Philippines As the first global programme to receive grants from the World Banks net income the CGIAR now consists of 16 autonomous international centres with a membership of 62 countries including 24 developing and transition economies This report evaluates the work of CGIAR and makes several recommendations to address the future challenges it faces in promoting agricultural research **Global Public Policies and Programs** Christopher D. Gerrard,Marco A. Ferroni,Ashoka Mody,2001-01-01 This book is based on a global public policies and programs workshop held in July 2000 The papers examine conceptual issues along with the practical implementation problems of global public policies and programs Some of the topics covered in this book are global financial instability the implications of intellectual property rights protection for developing countries and the promotion of international agricultural research
