Reframing Of Realism:

The Reframing of Realism Hazel Gold, 1993 In the writing of Benito Pérez Galdós Spain's most prolific and innovative nineteenth century novelist Hazel Gold finds the act of framing insistently at work By exploring Galdós's methods of structuring and evaluating literary and historical experience Gold illuminates the novelist's art and uncovers the far reaching narratological social and epistemological implications of his framing strategies A close look at Galdós's novels reveals the artist at pains to contain and interpret what he perceived to be the distinctive and often disheartening experience of bourgeois liberalism of his day Looking beyond text to context Gold examines the ways in which Galdós's work itself has been framed by readers and critics in accordance with changing allegiances to contemporary literary theory and the canon The highly ambiguous status of the frame in Galdós's fiction confirms the author's own signal position as a writer poised at the limits between realism and modernity

Galdós Beyond Realism Timothy Michael McGovern, 2004 **Realism for the Masses** Chris Vials, 2010-04-13 Realism for the Masses is an exploration of how the concept of realism entered mass culture and from there how it tried to remake America The literary and artistic creations of American realism are generally associated with the late nineteenth century But this book argues that the aesthetic actually saturated American culture in the 1930s and 1940s and that the Left social movements of the period were in no small part responsible The book examines the prose of Carlos Bulosan and H T Tsiang the photo essays of Margaret Bourke White in Life magazine the bestsellers of Erskine Caldwell and Margaret Mitchell the boxing narratives of Clifford Odets Richard Wright Nelson Algren and the Hollywood boxing film radio soap operas and the domestic dramas of Lillian Hellman and Shirley Graham and more These writers and artists infused realist aesthetics into American mass culture to an unprecedented degree and also built on a tradition of realism in order to inject influential definitions of the people into American popular entertainment Central to this book is the relationship between these mass cultural realisms and emergent notions of pluralism Significantly Vials identifies three nascent pluralisms of the 1930s and 1940s the New Deal pluralism of We re the People in The Grapes of Wrath the racially inclusive pluralism of Vice President Henry Wallace s The People s Century and the proto Cold War pluralism of Henry Luce s The American Century Realist Poetics in American Culture, 1866-1900 Elizabeth Renker, 2018-05-25 The terms poetry and realism have a complex and often oppositional relationship in American literary histories of the postbellum period The core narrative holds that realism the major literary movement of the era developed apace in prose fiction while poetry stuck in a hopelessly idealist late Romantic mode languished and stagnated Poetry is almost entirely absent from scholarship on American literary realism except as the emblem of realism s opposite a desiccated genteel twilight of the poets Realist Poetics in American Culture 1866 1900 refutes the familiar narrative of postbellum poetics as a scene of failure and it recovers the active and variegated practices of a diverse array of realist poets across print culture The triumph of the twilight tale in the twentieth century obscured minimized and flattened the many poetic discourses of the age including but not limited to a significant body of realist poems currently missing from US literary histories Excavating an extensive archive of realist poems the volume offers a significant revision to the genre exclusive story of realism and by extension to the very foundations of postbellum American literary history dating back to the earliest stages of the discipline Handbook of Historical Methods for Management Stephanie Decker, William M. Exploring alternative conceptions of the divine Jessica Eastwood considers the ways of believing in God that are authentic and sincere moving beyond traditional metaphysical structures that many find difficult to accept In this study she examines a unique branch of religious non realism known as religious fictionalism making the case for its ability to resonate on an intellectual and emotional level Considering the extent to which fictionalism allows us to make sense of the role of religion in our spiritual lives she presents its limitations on adhering to what might be an attractive contemporary model for philosophy of religion called the humane turn Articulating an alternative conception of God that we can relate to in an intellectual emotional and spiritual way Eastwood sheds light on a minimalist form of religious realism which preserves the reality of God without committing the theist to a host of additional religious beliefs **Postcolonial Naturalism** Eric D. Smith,2023-11-16

Postcolonial Naturalism proposes an innovative periodizing schema for historicizing contemporary Anglophone fiction Engaging and revising the materialist paradigm of the Warwick Research Collective s concept of world literature Fredric Jameson s mapping of modernity s cultural periods and Christopher L Hill s positing of a transnational naturalism Eric D Smith theorizes postcolonial naturalism as a structurally determined cultural logic rather than as a literary technique or style Supported by careful theoretically and critically sophisticated analyses of exemplary literary works this important intervention invites us to reconsider the living history of aesthetic naturalism as well as its social and political implications for the practice of world literature in the aftermath of anticolonial resistance
