## Regarding Beauty:

**A Broken Beauty** Theodore L. Prescott, 2005 A Broken Beauty examines recent ideas about beauty and the human image in light of the Western Classical and Christian traditions of the human figure The book's five essays trace the historical fusion of Classical and Christian ideas about beauty as well as their rejection by much modern art provocatively suggesting that the difficulties encountered by the beautiful in modernity may be related to a loss of faith This volume culminates in a look at fifteen postmodern North American artists whose haunting pieces unite brokenness and beauty in a way that is uncommon within contemporary art These artists like the book's essayists find significance in beauty that is cultivated amidst the perennial human struggle for goodness meaning and dignity BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

*Being for Beauty* Dominic McIver Lopes, 2018-09-19 No values figure as pervasively and intimately in our lives as beauty and other aesthetic values They animate the arts as well as design fashion food and entertainment They orient us upon the natural world And we even find them in the deepest insights of science and mathematics For centuries however philosophers and other thinkers have identified beauty with what brings pleasure Concerned that aesthetic hedonism has led us to question beauty's significance Dominic McIver Lopes offers an entirely new theory of beauty in this volume Beauty engages us in action in concert with others in the context of social networks Lopes's network theory explains the social dimension of aesthetic agency the tie between beauty and pleasure the importance of disagreement in matters of taste and the reality of aesthetic values as denizens of the natural world The two closing chapters shed light on why aesthetic engagement is so important to quality of life and why it deserves and gets lavish public support Being for Beauty offers a fresh contribution to aesthetics but also to thinking about metanormativity the metaphysics of value and virtue theory

Hegel on Beauty Julia Peters, 2014-11-20 While the current philosophical debate surrounding Hegel's aesthetics focuses heavily on the philosopher's controversial end

of art thesis its participants rarely give attention to Hegel's ideas on the nature of beauty and its relation to art. This study seeks to remedy this oversight by placing Hegel's views on beauty front and center. Peters asks us to rethink the common assumption that Hegelian beauty is exclusive to art and argues that for Hegel beauty like art is subject to historical development. Her careful analysis of Hegel's notion of beauty not only has crucial implications for our understanding of the end of art and Hegel's aesthetics in general but also sheds light on other fields of Hegel's philosophy in particular his anthropology and aspects of his ethical thought.

**Aquinas on Beauty** Christopher Scott Sevier, 2015-02-12 *Aquinas on Beauty* explores the nature and role of beauty in the thought of Thomas Aquinas. Beginning with a standard definition of beauty provided by Aquinas, it explores each of the components of that definition. The result is a comprehensive account of Aquinas's formal view on the subject, supplemented by an exploration into Aquinas's commentary on Dionysius's *Divine Names*, including a comparison of his views with those of both Dionysius and those of Aquinas's mentor, Albert the Great. The book also highlights the tight connection in Aquinas's thought between aesthetics and ethics and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him and anticipates what is best about aesthetic traditions that would follow, marrying objective and subjective aesthetic intuitions and charting a kind of *via media* between the common extremes.

**Aesthetics and Material Beauty** Jennifer A. McMahon, 2013-01-11 In *Aesthetics and Material Beauty*, Jennifer A. McMahon develops a

new aesthetic theory she terms Critical Aesthetic Realism taking Kantian aesthetics as a starting point and drawing upon contemporary theories of mind from philosophy psychology and cognitive science The creative process does not proceed by a set of rules Yet the fact that its objects can be understood or appreciated by others suggests that the creative process is constrained by principles to which others have access According to her update of Kantian aesthetics beauty is grounded in indeterminate yet systematic principles of perception and cognition However Kant's aesthetic theory rested on a notion of indeterminacy whose consequences for understanding the nature of art were implausible McMahon conceptualizes indeterminacy in terms of contemporary philosophical psychological and computational theories of mind In doing so she develops an aesthetic theory that reconciles the apparent dichotomies which stem from the tension between the determinacy of communication and the indeterminacy of creativity Dichotomies such as universality and subjectivity objectivity and autonomy cognitivism and non cognitivism and truth and beauty are revealed as complementary features of an aesthetic judgment

Disinterested Pleasure and Beauty Larissa Berger,2023-07-24 The conception of disinterested pleasure is not only central to Kant s theory of beauty but also highly influential in contemporary philosophical discourse about beauty However it remains unclear what exactly disinterested pleasure is and what role it plays in experiences of beauty This volume sheds new light on the conception of disinterested pleasure from the perspectives of both Kant scholarship and contemporary aesthetics In the first part the focus is on Kant s theory of beauty as grounded on the conception of disinterested pleasure In the second part disinterested pleasure is investigated in the light of contemporary debates on beauty The volume clarifies the meaning role and implications of one of the most influential conceptions in traditional as well as contemporary approaches to beauty

Plotinus on Beauty Ota Gál,2022-03-21 The open access publication of this book has been published with the support of the Swiss National Science Foundation In this book Ota G l presents a new analysis of Plotinus conception of beauty beginning from a close reading of treatises I 6 and V 8 which link beauty with the unified multiplicity of Intellect This account is subsequently placed in a hierarchical and structural context in VI 2 and VI 6 and connected to illumination in VI 7 enabling us to determine the meaning of the predicate beauty at different ontological levels For Plotinus beauty is ultimately the illuminated unity in multiplicity of Intellect which as the manifestation of the Good simultaneously enables the soul s ascent and threatens to bind the soul to itself
