Regarding The Pain Of Others:

Regarding the Pain of Others Susan Sontag, 2004-02 Twenty five years after her classic *On Photography* Sontag returns to the subject of visual representations of war and violence in the culture today She once again changes the way readers think about the uses and meanings of images in the world and offers an important reflection about how war itself is waged and understood

Regarding the Pain of Others Susan Sontag, 2013-10-01 A brilliant clear eyed consideration of the visual representation of violence in our culture its ubiquity meanings and effects Considered one of the greatest critics of her generation Susan Sontag followed up her monumental *On Photography* with an extended study of human violence reflecting on a question first posed by Virginia Woolf in *Three Guineas* How in your opinion are we to prevent war For a long time some people believed that if the horror could be made vivid enough most people would finally take in the outrageousness the insanity of war One of the distinguishing features of modern life is that it supplies countless opportunities for regarding at a distance through the medium of photography horrors taking place throughout the world But are viewers inured or incited to violence by the depiction of cruelty Is the viewer's perception of reality eroded by the daily barrage of such images What does it mean to care about the sufferings of others far away First published more than twenty years after her now classic book *On Photography* which changed how we understand the very condition of being modern *Regarding the Pain of Others* challenges our thinking not only about the uses and means of images but about how war itself is waged and understood in our time the limits of sympathy and the obligations of conscience

Representations of Pain in Art and Visual Culture Maria Pia Di Bella, James Elkins, 2013-06-26 The presentation of bodies in pain has been a major concern in Western art since the time of the Greeks The Christian tradition is closely entwined with such themes from the central images of the Passion to the representations of bloody martyrdoms The remnants of this tradition are evident in contemporary images from Abu Ghraib In the last forty years the body in pain has also emerged as a recurring theme in performance art Recently authors such as Elaine Scarry Susan Sontag and Giorgio Agamben have written about these themes The scholars in this volume add to the discussion analyzing representations of pain in art and the media Their essays are firmly anchored on consideration of the images not on whatever actual pain the subjects suffered At issue is representation before and often apart from events in the world Part One concerns practices in which the appearance of pain is understood as expressive Topics discussed include the strange dynamics of faked pain and real pain contemporary performance art international photojournalism surrealism and Renaissance and Baroque art Part Two concerns representations that cannot be readily assigned to that genealogy the Chinese form of execution known as lingchi popularly

the death of a thousand cuts whippings in the Belgian Congo American lynching photographs Boer War concentration camp photographs and recent American capital punishment These examples do not comprise a single alternate genealogy but are united by the absence of an intention to represent pain The book concludes with a roundtable discussion where the authors discuss the ethical implications of viewing such images *Teresa Margolles and the Aesthetics of Death* Julia

Banwell,2015-06-15 An extensive in depth study that takes in works from throughout the artist s career The book will be useful for scholars of Margolles and of art history more generally Margolles work is situated within the contexts of the aesthetics and philosophy of death and their application to looking at art from inside and outside Mexico **Pleasure and**

Pain in US Public Culture Christopher J. Gilbert,John Louis Lucaites,2024-11-05 Unraveling the intricate dance of pleasure and pain in contemporary American culture Language Pangs Ilit Ferber,2019-07-03 We usually think about language and

pain as opposites the one being about expression and connection the other destructive beyond words so to speak and isolating Language Pangs challenges these familiar conceptions and offers a radical reconsideration of the relationship between pain and language in terms of an essential interconnectedness Ilit Ferber s premise is that we cannot probe the experience of pain without taking account its inherent relation to language and vice versa that our understanding of the nature of language essentially depends on how we take account of its correspondence with pain Language Pangs brings together discussions of philosophical as well as literary texts an intersection that is especially productive in considering the phenomenology of pain and its bearing on language Ferber explores a phenomenology of pain and its relation to language before providing a unique close reading of Johann Gottfried Herder s Treatise on the Origin of Language the first modern philosophical text to consider language and pain establishing the cry of pain as the origin of language Herder also raises important claims regarding the relationship between human and animal questions of sympathy and the role of hearing in the expression of pain Beyond Herder the book grapples with the work of other profound thinkers including Martin Heidegger Stanley Cavell and Andr Gide and finally Sophocles from them weaving new insights on the experience of pain expression sympathy and hearing **Saturn's Moons** Jo Catling,2017-07-05 The German novelist poet and critic W G Sebald 1944

Remembering the Cold War David Lowe, Tony Joel, 2014-01-21 Remembering the Cold War examines how more than two decades since the collapse of the Soviet Union Cold War legacies continue to play crucial roles in defining national identities and shaping international relations around the globe Given the Cold War's blurred definition it has neither a widely accepted commencement date nor unanimous conclusion what is to be remembered This book illustrates that there is in fact a huge body of remembrance and that it is more pertinent to ask what should be included and what can be overlooked Over five sections this richly illustrated volume considers case studies of Cold War remembering from different parts of the world and engages with growing theorisation in the field of memory studies specifically in relation to war David Lowe and Tony Joel afford careful consideration to agencies that identify with being victims of the Cold War In addition the concept of arenas of articulation which envelops the myriad spaces in which the remembering commemorating memorialising and even revising of Cold War history takes place is given prominence

The Ethics of Everyday Life Michael Banner, 2014-10-23 The moments in Christ's human life noted in the creeds his conception birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested In other words these are the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with IVF abortion euthanasia and the use of bodies or body parts post mortem plainly indicate Thus the following questions arise how do the instances in Christ's life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life How does the Christian imagination of human life which dwells on and draws from the life of Christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human Michael Banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology Drawing from social anthropology and Christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the UK's Human Tissue Authority Banner aims to develop the outlines of an everyday ethics stretching from before the cradle to after the

is considered the largest slaughter of Chinese people in the history of the Americas but more than a century later the facts continue to be elusive mistaken and repressed And what do you know about the Chinese people who were killed here Juli n Herbert asks anyone who will listen An exorcism of persistent and discomfiting ghosts The House of the Pain of Others attempts a reckoning with the 1911 massacre Looping digressive and cinematic Herbert blends reportage personal reflection essay and academic research to portray the historical context as well as the lives of the perpetrators and victims of the small genocide This brilliant historical excavation echoes profoundly in an age redolent with violence and xenophobia **In the Archive of Longing** Mitrano Mena Mitrano,2016-07-07 Reads modernism and theory through Susan Sontag s archive This adventurous critical inquiry into Sontag s archive illuminates the intimate link between modernism and theory while also providing a fascinating reintroduction to these two movements and concepts Mena Mitrano explores three core ideas in this study the confusion of terms between modernism and theory the concept of an unwritten theory suggested by Sontag s subterranean engagement with the foremost theorists of our time Derrida Foucault Deleuze Lacan Jameson and others in the rawness of her journals and notebooks and Sontag s identity as a non traditional philosopher through the extraordinary discipleship to Walter Benjamin The book is driven by new archival research and will have a multi layered impact changing our perception of Sontag as a post Cold War public intellectual as well as interrogating key concepts in the Humanities Key Features Original study of Susan Sontag s contribution to the development of critical thought Opens new avenues for research in the expanding field of new modernist studies and in the field of criticism Discusses Sontag s collaboration with Walter Benjamin which reopens the question of the author and encourages an understanding of this concept from a psychoanalytic perspective as a transgenerational phenomenon Includes a discussion of the role of the American avant garde in Sontag s abandonment of philosophy and in her turn to a pioneering more theoretical literary criticism Lost Loss in American Elegiac Poetry Toshiaki Komura,2020-10-07 Lost Loss in American Elegiac Poetry Tracing Inaccessible Grief from Stevens to Post 9 11 examines contemporary literary expressions of losses that are lost on us inquiring what it means to lose loss and what happens when dispossessionary experiences go unacknowledged or become inaccessible Toshiaki Komura analyzes a range of elegiac poetry that does not neatly align with conventional assumptions about the genre including Wallace Stevens s The Owl in the Sarcophagus Sylvia Plath s last poems Elizabeth Bishop s Geography III Sharon Olds s The Dead and the Living Louise Gl ck s Averno and poems written after 9 11 What these poems reveal at the intersection of personal and communal mourning are the mechanism of cognitive myth making involved in denied grief and its social and ethical implications Engaging with an assortment of philosophical psychoanalytic and psychological theories Lost Loss in American Elegiac Poetry elucidates how poetry gives shape to the vague despondency of unrecognized loss and what kind of phantomic effects these equivocal grieving experiences may create Biblical Theology C.
