For the first time in our national history they saw, through the miracle invention of television, their government at work in the hearings conducted by the Senate Crime Committee, of which I was privileged to be a member. They watched a parade of witnesses from the underworld appear in court before the committee. They studied the faces of these witnesses, watched their reactions to questions propounded by committee members, heard their refusals to answer questions, as they repeated parrotlike, time after time, those words, "I refuse to answer on the grounds that it might tend to incriminate me." Guilt was manifest, but the only recourse our committee had was to order them to answer and them, if they persisted in their refusal, to cite them for contempt on the Senate floor.

In our visits to various sections of the country we found sordid and corrupt conditions almost everywhere.

We found sheriffs who admitted taking bribes, and men who had failed to live up to their oaths of office as law enforcement officials. We uncovered proof of definite collusion between criminals and public officials.

In Las Vegas, Nevada, which is the only state in the Union where gambling is legal, we visited large gambling enterprises. It

Moral Injury among

Returning Veterans Joshua Morris, 2021-08-23 Josh Morris privileges the voices of veterans to argue that returning soldiers need families, friends, and religious communities to listen to their stories with compassion to avoid amplifying the effects of moral injury. When society greets returning soldiers in ways that reinforce cultural norms that frame military service as heroic rather than acknowledging its ambiguities and harmful effects, it exacerbates moral injury and keeps veterans from resolving inner conflicts and coping effectively with civilian life. Morris, a military chaplain and veteran who served in Afghanistan, knows these difficulties first hand. Using stories from other veterans, Morris helps us see how cultural assumptions about military service can complicate moral injury and a veteran's return home. Drawing from liberation theologies, ideology critique, and Antonio Gramsci's advocacy for the working class, the book suggests useful perspectives and spiritual care resources for military chaplains, religious leaders, caregivers, and concerned civilians. Morris argues that military chaplains are uniquely positioned to help returning soldiers resist the amplification of existing moral injury. Moving from "thank you for your service" to liberative solidarity can galvanize resistance and make change possible.

Reith, 2000 *The Moral Wager* Malcolm Murray, 2007-05-05 In the following chapters I offer an evolutionary account of morality and from that extrapolate a version of contractarianism I call consent theory Game theory helps to highlight the evolution of morality as a resolution of interpersonal conflicts under strategic negotiation It is this emphasis on strategic negotiation that underwrites the idea of consent Consent theory differs from other contractarian models by abandoning reliance on rational self interest in favour of evolutionary adaptation From this more emphasis will be placed on consent as natural convergence rather than consent as an idealization My picture of contractarianism then ends up looking more like the relativist model offered by Harman rather than the rational or pseudo rational model offered by Gauthier let alone the Kantian brands of Rawls or Scanlon So at least some of my discussion will dwell on why it is no loss to abandon hope for the universal categorical morality that rational models promise In the introduction I offer the betting analogy that underwrites the remaining picture There are some bets where the expected utility is positive though the odds of winning on this particular occasion are exceedingly low In such cases we cannot hope to give an argument that taking the bet is rational The only thing we can say is that those predisposed to take this kind of bet on these kinds of occasions will do better than those with other dispositions so long as such games occur often enough *Moral Relativism and Chinese Philosophy* Yang Xiao, Yong Huang, 2014-02-03 Original influential and often controversial ethicist David Wong defends forms of moral relativism His 1984 *Moral Relativity* was a study of this concept and his 2006 *Natural Moralities* presented a new and sophisticated account of it Wong's vision is of a pluralistic moral relativism he does not defend all forms of relativism but evaluates what moralities may be true His singular philosophy reflects his deep knowledge of Confucian and Daoist thought In this book moral philosophers and scholars of Chinese thought debate ideas central to Wong's work and Wong responds to them The discussion ranges widely including exploring Wong's thought on naturalism criteria for moralities the principle of charity moral authority and the concept of community and looking at his readings of Xunzi and Zhuangzi Wong's nuanced and forceful responses clarify and develop further arguments in his work These engaging and critical exchanges between Wong and his critics illuminate not only Wong's thought but also contemporary ethical theory and Chinese philosophy **The Moral Domain** Thomas E.
