River Warfare in Vietnam Robin L. Rielly, 2024-02-19 America's entrance into the wars in Vietnam came as a result of several factors Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion This expansion was intensified by the outbreak of the Korean War making it necessary for the United States to revamp its Southeast Asian policy During the French era control of Vietnam's rivers streams and canals became necessary This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam The focal point of this study is a new assessment of the conduct of river warfare Drawing on little known French Vietnamese and American sources and materials it sheds light on an important aspect of the Vietnam

War Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject *China's Second Capital - Nanjing under the Ming, 1368-1644* Jun Fang, 2014-05-23 This book is a study of the dual capital system of Ming dynasty China 1368 1644 with a focus on the administrative functions of the auxiliary Southern Capital Nanjing It argues that the immense geographical expanse of the Chinese empire and the poor communication infrastructure of pre modern times necessitated the establishment of an additional capital administration for effective control of the Ming realm The existence of the Southern Capital which has been dismissed by scholars as redundant and insignificant was the author argues justified by its ability to assist the primary Northern Capital better control the southern part of the imperial land The practice of maintaining auxiliary capitals where the bureaucratic structures of the primary capital were replicated in varying degrees was a unique and valuable approach to effecting bureaucratic control over vast territory in pre modern conditions Nanjing translates into English as Southern Capital and Beijing as Northern Capital *Riverine Warfare* United States.
