Ecospatiality Lowell Wyse, 2021-07-15 John Steinbeck s Salinas Valley Richard Wright s Chicago Leslie Marmon Silko s New Mexico Readers often have strong connections with literary places like these And some works of literature can even change our understanding of the world we live in But can place also change our view of literature Site Reading advances a place based approach to literature reading classic texts through the twin lenses of geographical awareness and environmental thought This book highlights recent developments in ecocriticism and geocriticism to argue for a theory of ecospatiality with nature space and story as the three elements of place Site Reading reconsiders well known

works of twentieth century American prose and shows how social and environmental issues always overlap Travel writer William Least Heat Moon whose work embodies the ecospatial perspective portrays his experiences with place on the local regional and continental scales Classic novels by Silko Willa Cather and Ana Castillo usually discussed in isolation converge in a way that maps diverse cultural perspectives and environmental threats onto the shared geography of Central New Mexico A reading of Steinbeck s Salinas Valley Watershed texts investigates the impacts of literary tourism in Steinbeck Country before drilling down into Steinbeck s portrayals of spatial development and environmental history And an innovative analysis of Native Son shows how Richard Wright uses cartographic details to decry the spatial racial politics of South Side Chicago in the 1930s In this book Lowell Wyse shows how place provides the grounds for both human experience and critical practice By bringing together concepts like literary cartography deep mapping and bioregionalism in an ecospatial approach Site Reading not only maps new terrain between ecocriticism and geocriticism but also shows why place matters in the world and in the text

Le Guin, Joaquin Miller, Sandy Polishuk, Gary Snyder, Kim Stafford, Elizabeth Woody, and many more.

Writing BLUE HIGHWAYS William Least Heat-Moon, 2014-05-13. Winner, Distinguished Literary Achievement, Missouri Humanities Council, 2015. The story behind the writing of the best-selling *Blue Highways* is as fascinating as the epic trip itself. More than thirty years after his 14,000-mile, 38-state journey, William Least Heat-Moon reflects on the four years he spent capturing the lessons of the road trip on paper, the stops and starts in his composition process, the numerous drafts and painstaking revisions, the depressing string of rejections by publishers, the strains on his personal relationships, and many other aspects of the toil that went into writing his first book. Along the way, he traces the hard lessons learned and offers guidance to aspiring and experienced writers alike. Far from being a technical manual, *Writing Blue Highways: The Story of How a Book Happened* is an adventure story of its own, a journey of exploration into the myriad routes of heart and mind that led to the making of a book from the first, sorry, and now vanished paragraph to the last.

words that came not from a graphite pencil but from a letterpress in Tennessee Readers will not find a collection of abstract formulations and rules for writing rather this book gracefully incorporates examples from Heat Moon's own experience As he explains This story might be termed an inadvertent autobiography written not by the traveler who took Ghost Dancing in 1978 over the byroads of America but by a man only listening to him That blue roadman hasn't been seen in more than a third of a century and over the last many weeks as I sketched in these pages I've regretted his inevitable departure Filtered as the struggles of the blue roadman are through the awareness of someone more than thirty years older with a half dozen subsequent books to his credit the story of how his first book happened is all the more resonant for readers who may not themselves be writers but who are interested in the tricky balance of intuitive creation and self discipline required for any artistic endeavor

An Osage Journey to Europe, 1827-1830, 2013-11-18 In 1827 six Osage people four men and two women traveled to Europe escorted by three Americans Their visit was big news in France where three short publications about the travelers appeared almost immediately Virtually lost since the 1830s all three accounts are gathered translated and annotated here for the first time in English Among the earliest writings devoted to Osage history and culture these works provide unique insights into Osage life and especially into European perceptions of American Indians William Least Heat Moon's introduction poignantly tells of people leaving one alien nation the United States to visit an even more alien culture an ocean away In France the Osages found themselves lionized as noble savages They went to the theater rode in a hot air balloon and even had an audience with the king of France Many Europeans ogled them as if they were exhibits in a freak show As the entourage moved through Belgium Holland Germany Switzerland and Italy interest in the Osages declined Soon they were reduced to begging in the suburbs of Paris without the means to return home Translated by Heat Moon and James K Wallace the three featured texts are surprisingly accurate as basic descriptions of Osage history geography and lifeways The French authors influenced by racist and sexist expectations misinterpreted some of the behaviors they describe But they also dismiss rumors of cannibalism among the Osages and observe that the behavior of some whites was not conducive to giving the Indians a favorable opinion of white morality *An Osage Journey to Europe 1827 1839* offers scholars and general readers both a compelling story and a singular glimpse into nineteenth century cultural exchange
