Third World Political Ecology Sinead Bailey, Raymond Bryant, 2005-08-08 By drawing on examples from throughout the Third World Bryant and Bailey explain the development and characteristics of environmental problems that plague parts of Asia Africa and Latin America and their political and economic bases Non-governmental Organizations (NGOs) and Sustainable Development in Sub-Saharan Africa Robert A. Dible, 2008-01-01 Written to provide guidance for civil society organizations and their client groups this book examines the role of NGOs in the development processes on the African continent It raises questions about the influence of funding agencies over the NGOs they support and explores the challenges NGOs face The book argues that increased knowledge and cooperation on all parts is essential to achieve sustainable development This book also concludes that sustainable development activities are not beneficial to every community in Africa Taking into consideration globalization and studies of sub Saharan countries this book concludes that new models of leadership are necessary for the success of Africa and NGOs are a vital part of achieving that development

Eversole,2016-07-08 Over six billion dollars in developmental assistance is funneled annually through non governmental organizations NGOs yet little is understood about the nature of their relationship with communities and the real impact of their work This book examines what role NGOs really play in fighting poverty in Latin America Expert NGO professionals and scholars explore grass roots relationships between international religious and secular NGOs and poor communities They probe the power structures cultural assumptions dangers and possibilities that underlie NGOs work While fighting poverty is the mission of many NGOs most are aware that they often fail to make things better and in fact may make things worse By providing a forum for Northern and Southern NGOs donors scholars and poor people themselves this book explores the causes and cures of poverty and presses at the boundaries of our understanding of participatory development It identifies both internal and external factors that influence the success of NGO projects and moves beyond standard best practice theory to probe more deeply the relationships that underlie poverty and how these relationships can be shifted to achieve solutions

Nongovernmental Organizations in Environmental Struggles Raymond L. Bryant,2008-10-01 Why are nongovernmental organizations NGOs so successful in today s world How do they empower themselves This insightful book provides important new perspectives on the strategic thinking of NGOs the way they identify themselves and how they behave Raymond L Bryant develops a novel theoretical perspective around the concept of moral capital and assesses that concept through in depth case studies of NGOs in the Philippines The book s focus is on perceptions of NGOs as moral and altruistic and how such perceptions can translate into social power Bryant examines the ambiguous qualities of NGO strategizing the ways in which the quest for moral capital is bedeviled by the need to compromise with political and economic elites and the possibilities for NGOs to achieve political goals as moral leaders

Developing Country Perspectives on Public Service Delivery Anjula Gurtoo, Colin Williams,2015-05-26 The book examines the status of public service in developing countries in the sectors of health infrastructure labour and marginalized populations rural economy and public administration The last decade has witnessed significant government focus on service delivery in developing nations like South Africa Philippines India and Malaysia At the forefront of this movement has been the public sector reforms significantly driven by two broad factors public sector inefficiencies and liberal economic ideology This move towards efficient public service delivery in developing nations versus developed nations has required a significant shift in institutional thinking and institutional capacity

for the governments It is therefore no surprise that while economic liberalization has been relatively easy to implement governance reforms towards public service delivery has been significantly more challenging In this background the chapters of the book with sector themes examine the three basic foundations of public policy courses of action regulatory measures and issues and funding structures and priorities in public service delivery The book is a multi country multi sector perspective since it includes studies from Russian Federation India Ethiopia Pakistan Fiji South Africa Columbia Philippines Macedonia and India This perspective lends itself to the investigation for a comprehensive overall development model
