Road To Martyrs Square:

The Road to Martyrs' Square Anne Marie Oliver, Paul F. Steinberg, 2006-04-27 Don't expect to find here the usual clichés about suicide bombers and what drives them. In this unique study Anne Marie Oliver and Paul Steinberg render the story of two intertwining often clashing journeys. The authors lived for six months with a Palestinian refugee family in Gaza at the beginning of the intifada and offer a gritty poetic portrait of the time. They also provide an unrivalled documentary of the underground media they collected during the course of six years in the area. Although they could not have surmised as much at the beginning they soon found themselves led through these media into the world of the suicide bomber. Their early study notably anticipated the spread of suicide missions years in advance. Dispensing with the platitudes and dogma that typify discourse on the Israeli-Palestinian conflict, the authors show that the suicide bomber is a complex contradictory construction and can be explained neither in terms of cold efficacy nor sheer evil. This is the only book on the subject to illustrate the ecstatic intoxicating aspects of suicide missions and provide extensive access to materials that have remained largely unseen in the West despite the fact that they have served as indispensable tools in the construction and propagation of the suicide bomber. The book contains 86 illustrations drawn from the authors' archive as well as numerous conversations with leaders and followers of Hamas including a rare interview with a suicide bomber whose bomb failed to explode on an Israeli bus in Jerusalem. Here is an important and timely work that will challenge the way we think about the intifada, suicide bombers and the Israeli-Palestinian conflict.

Kabbalah and Modernity Bo'az

Hus,Marco Pasi,Kocku Von Stuckrad,2010 This volume brings together leading representatives of the recent debate about the persistence of kabbalah in the modern world It breaks new ground for a better understanding of the role of kabbalah in modern religious intellectual and political discourse **The Road to Martyrs' Square** ,2005 This title delves into the world of the Palestinian group Hamas in an effort to understand what motivates the young men of the movement to lay down their lives in suicidal acts of murder Oliver and Steinberg have conducted hundreds of interviews in Gaza and the West Bank and gathered an immense archive of primary sources **Dead for Good** Hugh D. Barlow,2015-12-03 An easily accessible account of the development of martyrdom Barlow presents a masterful account of how religion death and sacrifice developed into the cult of martyrdom of today Mia Bloom University of Georgia and author of Dying to Kill The Allure of Suicide Terror Thoroughly researched yet full of novel like gripping narratives this book succeeds in giving the reader a glimpse of what might happen in the mind of candidates to martyrdom while never losing sight of the overall context that brings this phenomenon into being and fuels it Gilbert Achcar author of The Clash of Barbarisms Hugh Barlow is a gifted writer In this book he uses his skills as a renowned sociologist to bring the reader a refreshing and engaging analysis This is a must read for anyone who is interested in understanding martyrdom operations from a broad historical and cultural perspective Ami Pedahzur University of Texas at Austin Dead for Good vividly describes how history gave rise to the suicide bombers of today The passionate submission of ancient Jewish and Christian martyrs was largely supplanted by militant self sacrifice as Islam spread and holy war erupted in the Crusades In the Indian Punjab the Khalsa Sikhs made warrior martyrdom an instinct and policy in their defense of community and of justice In a last ditch effort to defeat the Allies in World War II the Japanese transformed warrior martyrs into martyr warriors trained to sacrifice themselves in attacks on enemy carriers The current suicide bomber is the latest phase Whether motivated by nationalism religious ideology or a combination of both the new predatory martyr dies for the cause while killing indiscriminately Exploring martyrdom across cultures and throughout history this book gives us new insights into today s suicide bombers and answers the common question Why do they do it

The Essence of Islamist Extremism Irm Haleem,2011-11-23 This book provides a critical and a conceptual analysis of radical Islamist rhetoric drawn from temporally and contextually varied Islamist extremist groups challenging the popular understanding of Islamist extremism as a product of a clash of civilizations Arguing that the essence of Islamist extremism can only be accurately understood by drawing a distinction between the radical Islamist explanations and justifications of violence the author posits that despite the radical Islamist contextualization of violence within Islamic religious tenets there is nothing conceptually or distinctly Islamic about Islamist extremism She engages in a critical analysis of the nature of reason in radical Islamist rhetoric asserting that the radical Islamist explanations of violence are conceptually reasoned in terms of existential Hegelian struggles for recognition as fundamentally struggles against oppression and the radical Islamist justifications of violence are conceptually reasoned in terms of moral consequentialism With a detailed analysis of Islamist

extremist discourse spanning a wide range of contexts this book has a broad relevance for scholars and students working in the field of Islamic studies religious violence philosophy and political theory Secularization and the World Religions Hans Joas, Klaus Wiegandt, 2022-04-01 The question of religion its contemporary and future significance and its role in society and state is currently perceived as an urgent one by many and is widely discussed within the public sphere But it has also long been one of the core topics of the historically oriented social sciences The immense stock of knowledge furnished by the history of religion and religious studies theology sociology and history has to be introduced into the public conscience today This can promote greater awareness of the contemporary global religious situation and its links with politics and economics and counter rash syntheses such as the clash of civilizations This volume is concerned with the connections between religions and the social world and with the extent limits and future of secularization The first part deals with major religious traditions and their explicit or implicit ideas about the individual social and political order The second part gives an overview of the religious situation in important geographical areas Additional contributions analyze the legal organization of the relationship between state and religion in a global perspective and the role of the natural sciences in the process of secularization The contributors are internationally renowned scholars like Winfried Bruggner Jos Casanova Friedrich Wilhelm Graf Hans Joas Hans G Kippenberg Gudrun Kr mer David Martin Eckart Otto and Rudolf Wagner *A Lethal Obsession* Robert S. Wistrich, 2010-01-05 In this unprecedented work two decades in the making leading historian Robert S Wistrich examines the long and ugly history of anti-Semitism from the first recorded pogrom in 38 BCE to its shocking and widespread resurgence in the present day As no other book has done before it *A Lethal Obsession* reveals the causes behind this shameful and persistent form of hatred and offers a sobering look at how it may shake and reshape the world in years to come Here are the fascinating and long forgotten roots of the Jewish difference the violence that greeted the Jewish Diaspora in first century Alexandria Wistrich suggests that the idea of a formless God who passed down a universal moral law to a chosen few deeply disconcerted the pagan world The early leaders of Christianity increased their strength by painting these superior Jews as a cosmic and satanic evil and by the time of the Crusades murdering a Christ killer had become an act of conscience Moving seamlessly through centuries of war and dissidence *A Lethal Obsession* powerfully portrays the creation of the Protocols of the Elders of Zion the fateful anti-Semitic tract commissioned by Russia's tsarist secret police at the end of the nineteenth century and the prediction by Theodor Herzl Austrian founder of political Zionism of eventual disaster for the Jews in Europe The twentieth century fulfilled this dark prophecy with the horrifying ascent of Hitler's Third Reich Yet as Wistrich disturbingly suggests the end of World War II failed to neutralize the Judeophobic virus Pogroms and prejudice continued in Soviet controlled territories and in the Arab Muslim world that would fan flames for new decades of distrust malice and violence Here in pointed and devastating detail is our own world one in which jihadi terrorists and the radical left blame Israel for all global ills In his concluding chapters Wistrich warns of a possible nuclear Final Solution at the hands of Iran a

land in which a formerly prosperous Jewish community has declined in both fortunes and freedoms Dazzling in scope and erudition A Lethal Obsession is a riveting masterwork of investigative nonfiction the definitive work on this unsettling yet essential subject It is destined to become an indispensable source for any student of world affairs Exploring Religion and the Sacred in a Media Age Christopher Deacy, Elisabeth Arweck, 2009 In recent years there has been growing awareness across a range of academic disciplines of the value of exploring issues of religion and the sacred in relation to cultures of everyday life Exploring Religion and the Sacred in a Media Age offers inter di **What Terrorists Want** Louise Richardson, 2007-11-13 This is at the top of my list for best books on terrorism Jessica Stern author of Terror in the Name of God Why Religious Militants Kill How can the most powerful country in the world feel so threatened by an enemy infinitely weaker than we are How can loving parents and otherwise responsible citizens join terrorist movements How can anyone possibly believe that the cause of Islam can be advanced by murdering passengers on a bus or an airplane In this important new book groundbreaking scholar Louise Richardson answers these questions and more providing an indispensable guide to the greatest challenge of our age After defining once and for all what terrorism is Richardson explores its origins its goals what s to come and what is to be done about it Having grown up in rural Ireland and watched her friends join the Irish Republican Army Richardson knows from firsthand experience how terrorism can both unite and destroy a community As a professor at Harvard she has devoted her career to explaining terrorist movements throughout history and around the globe From the biblical Zealots to the medieval Islamic Assassins to the anarchists who infiltrated the cities of Europe and North America at the turn of the last century terrorists have struck at enemies far more powerful than themselves with targeted acts of violence Yet Richardson understands that terrorists are neither insane nor immoral Rather they are rational political actors who often deploy carefully calibrated tactics in a measured and reasoned way What is more they invariably go to great lengths to justify their actions to themselves their followers and often the world Richardson shows that the nature of terrorism did not change after the attacks of September 11 2001 what changed was our response She argues that the Bush administration s global war on terror was doomed to fail because of an ignorance of history a refusal to learn from the experience of other governments and a fundamental misconception about how and why terrorists act As an alternative Richardson offers a feasible strategy for containing the terrorist threat and cutting off its grassroots support The most comprehensive and intellectually rigorous account of terrorism yet What Terrorists Want is a daring intellectual tour de force that allows us at last to reckon fully with this major threat to today s global order KIRKUS starred review The short answer Fame and payback perhaps even a thrill The long answer Read this essential important primer Terrorist groups have many motives and ideologies notes Richardson Executive Dean Radcliffe Institute for Advanced Study but they tend to similar paths They are founded by mature well educated men but staffed by less learned and certainly more pliable youths they are fueled by a sense of injustice and the conviction that only they are morally equipped to combat it they see themselves as defenders

and not aggressors they often define the terms of battle And of course this commonality Terrorists have elevated practices that are normally seen as the excesses of warfare to routine practice striking noncombatants not as an unintended side effect but as a deliberate strategy Thus massacres suicide bombings and assassinations are all in a day s work Richardson argues against Karl Rove who after 9 11 mocked those who tried to understand the enemy by noting that only when authorities make efforts to get inside the minds of their terrorist enemies do they succeed in defeating them as with the leadership of the Shining Path movement in Peru Still as Rove knows if terrorists share a pathology then so do at least some of their victims Once attacked people in democratic societies are more than willing to trade freedom for security Richardson closes by offering a set of guidelines for combating terrorism with such easily remembered rules as Live by your principles and Engage others in countering terrorists with you observing in passing that the Bush administration s attack on Iraq and subsequent occupation will likely be remembered as serving as a recruiting poster for still more terrorists How to win Develop communities settle grievances exercise patience and intelligence That said watch for more terrorism to come We are going to have to learn to live with it and to accept it as a price of living in a complex world

Louise Richardson has now produced the overdue and essential primer on terrorism and how to tackle it What Terrorists Want is the book many have been waiting for The New York Times Book Review Editor s Choice Lucid and powerful Richardson s book refutes the dangerous idea that there s no point in trying to understand terrorists rich readable Los Angeles Times Book Review The kind of brisk and accessible survey of terrorism as modus operandi that has been sorely missing for the past five years What Terrorists Want ought to be required reading as the rhetoric mounts this campaign season The American Prospect Richardson is one of the relative handful of experts who have been studying the history and practice of terrorism since the Cold War This book is a welcome source of information It s written by a true expert giving her measured thoughts Christian Science Monitor Richardson s clear language and deep humanity make What Terrorists Want the one book that must be read by everyone who cares about why people resort to the tactic of terrorism Desmond M Tutu Archbishop Emeritus This is a book of hope Terrorism like the poor will always be with us in one form or another But given sensible policies we can contain it without destroying what we hold dear Financial Times A passionate incisive and groundbreaking argument that provocatively overturns the myths surrounding terrorism Mary Robinson former president of Ireland and former UN High Commissioner for Human Rights In its lucid analysis and summary What Terrorists Want is simply the best thing of its kind available now in this highly crowded area The Evening Standard If a reader has the time to read only one book on terrorism What Terrorists Want is that book Extensive historical knowledge personal contacts enormous analytic skills common sense and a fine mix of lucidity and clarity make of this work a most satisfying dissection of terrorists motives and goals and of the effects of September 11 2001 Richardson also offers a sharp critique of American counterterrorism policies and a sensible plan for

better ones Stanley Hoffmann Battenwieser University Professor Harvard University An astonishingly insightful analysis by one of the world's leading authorities on terrorism this book is filled with wisdom based not only on the author's extensive and long term study of terrorism but also on her experience growing up in a divided Ireland Jessica Stern author of *Terror in the Name of God: Why Religious Militants Kill* A wide ranging clear headed crisply written cogently argued anatomy of terrorist groups around the world Peter Bergen senior fellow New America Foundation and author of *The Osama bin Laden I Know: An Oral History of al Qaeda's Leader* Among the numerous books published on terrorism after the 9/11 attacks Louise Richardson's stands out as an unusually wise sensible and humane treatise An engrossing and lucid book which hopefully will be read by many and spread its unique spirit of realistic optimism Ariel Merari Professor of Psychology Tel Aviv University Thoughtful and stimulating Controversially and indeed courageously Richardson argues that instead of regarding the terrorists even al Qaeda types as mindless and irrational creatures motivated by dark forces of evil it would be more constructive to examine and seek to moderate some of the grievances that drive previously normal and even nondescript characters to kill and maim innocent people they don't even know *The Irish Times* A textbook and a myth buster Richardson is calling for nothing less than a total re-evaluation of how we consider and react to terrorism *What Terrorists Want* ought to be on the bookshelf in every government office Certainly for any student of international affairs it is an essential reading *The Atlantic Affairs*
