of diesel embedded in its production and we have no way of producing steel cement or plastics at required scales without huge carbon emissions Ultimately Smil answers the most profound question of our age are we irrevocably doomed or is a brighter utopia ahead Compelling data rich and revisionist this wonderfully broad interdisciplinary guide finds faults with both extremes Looking at the world through this quantitative lens reveals hidden truths that change the way we see our past present and uncertain future **Plantation Crops, Plunder and Power** James F.
