Robert and James Adam, Architects of the Age of Enlightenment Ariyuki Kondo, 2015-10-06 During the second half of the eighteenth century British architecture moved away from the dominant school of classicism in favour of a more creative freedom of expression At the forefront of this change were architect brothers Robert and James Adam Kondo's work places them within the context of eighteenth century intellectual thought *Architecture of Scotland, 1660-1750* Humm Louisa Humm, 2020-06-18 This architectural survey covers one of Scotland's most important periods of political and architectural change when mainstream European classicism became embedded as the cultural norm Interposed between the decline of the Scottish castle and its revival as Scotch Baronial architecture the contributors consider both private and public civic architecture They showcase the architectural reflections of a Scotland finding its new elites by providing new research analysing paradigms such as Holyrood and Hamilton Palace as well as external reference points such as Paris tenements Roman precedents and English parallels Typologically the book is broad in scope covering the architecture and design of country estate and also the urban scene in the era before Edinburgh New Town Steps decisively away from the Scottish castle genre of architecture Contextualises the work of Scotland's first well documented grouping of major architects including Sir William Bruce Mr James Smith James Gibbs and the Adam dynasty Documents the architectural developments of a transformational period in Scottish history Beautifully illustrated throughout with 300 colour illustrations a *Complete Works of Robert and James Adam and Unbuilt Adam* David King, 2013-09-13 This volume is a unique compendium of the works of Robert and James Adam both built and unbuilt It includes 900 illustrations The Complete Works of Robert and James Adam is reprinted here in its entirety updated and corrected This title covers every one of the 230 or so built works including 12 that have been recently discovered It is complemented by a completely new title Unbuilt Adam This mentions all the brothers important unbuilt projects and it discusses and illustrates 130 of them This volume gives an exceptionally thorough review of the brothers designs From public buildings to country houses and monuments to ceilings it is well informed and erudite It provides a mine of information for both the expert and the general reader and it uses the works covered to give an understanding of the Adam manner **A City's Architecture** William Alvis Brogden, 2016-12-05 When considering the successful design of cities the focus tends to be on famous examples such as Paris or Rome with equally successful but smaller and more remote examples being ignored In addition the more diffuse patterns of settlement of the north and western parts of Europe are hardly considered at all in comparison to the tightly formed urban centres of the Mediterranean However the diffuse town region is typical of our time whatever the location By analysing the development of a successful small city of ancient foundation which grew from a diffuse long settled and dense landscape then demonstrated a slow growth as a tight urban form before an early adoption of the designed landscape as town lessons can be learned These lessons may be useful in addressing the nature and growth of any city or city region The story of Aberdeen is just such an

example Not only are the materials for its long history present its relations and concerns with the wider world are also well attested and many of the ideas which directed or significantly impinged on the design of cities were tested there or had their origin there As its form accumulated and developed over such a long time Aberdeen also suggests the idea of an architecture of the city This book examines the development and design of a city from three inescapable aspects its location and character of the landscape its own particular history of development and its cultural responses to various waves of thought History of Scottish Architecture Miles Glendinning,2019-07-30 At last here is a single volume authoritative history of Scottish architecture This compact yet comprehensive account combines factual description of the vast and fertile range of visual forms and key architects in each period with a wide ranging analysis of their social ideological and historical context As Scotland has often been closely involved with new trends in western architecture this book highlights the interaction of Scottish developments with broader European and international movements From the beginnings of the Renaissance in the 15th century right up to the 1990s this much needed survey covers the entire post medieval story in one volume

Bailey,1996 The Architecture of Scottish Cities Deborah Mays,1997 Published to honour David Walker this series of themed specific and chronological articles covers the architecture of Scottish towns and cities **Northwold Manor Reborn** Warwick Rodwell,2024-08-15 Presents a fascinating superbly illustrated account by one of the UK s leading architectural historians of the history dereliction and restoration of a complex originally Tudor manor house Northwold Manor is a multi period listed building grade II about which almost nothing

was known Uninhabited since 1955 it had fallen into a state of extreme dereliction and was beyond economic repair when the author purchased the property in 2014 He and his wife Diane Gibbs embarked on a major restoration that ran for nine years The restoration was carried out as a quasi archaeological operation revealing that the building complex had Tudor origins followed by the construction of a Stuart house with Georgian improvements and a new entertaining suite added in 1814 The Manor with its fine drawing room ballroom and orangery was the grandest house in Northwold and research into the families that occupied it revealed unexpected connections to the French Bourbon Court From the 17th to the 20th century the Carters were the principal owners and a local branch of the family included Howard Carter discoverer of Tutankhamen s tomb This account begins with a topographical study of Northwold and its three medieval manors followed by an exploration of the decline of the Carter family in the late 19th century That triggered the break up of the Northwold Estate in 1919 Passing through several ownerships the Manor was earmarked for demolition in 1961 reprieved it became a furniture store in the 1970s and every room was solidly packed As the roofs failed and water poured in ceilings and floors collapsed carrying with them the stacks of rotting furniture By the late 1990s walls and gables were collapsing too and the local authority attempted to intervene A long struggle to save the Manor ensued finally ending with compulsory purchase in 2013 Although manor houses occur in most English parishes they have received surprisingly little archaeological study Every year hundreds are restored or altered but rarely accompanied by detailed recording or scholarly research and popular television programs reveal the shameful level of destruction that takes place in the name of restoration This is a book like no other the holistic approach to the rehabilitation of Northwold s derelict manor house involving history archaeology architecture and genealogy demonstrates how much can be learned about a building that had never before been studied The project has received several awards
