Security in British Politics 1945-99 D. Keohane, 2000-08-21 Keohane examines the main British political parties attitude to Britain's policy on three key security issues namely the use of force nuclear weapons and security in Northern Ireland He analyses how each of the parties viewed conflicts at Suez the Falklands and the Gulf elucidates their perspective on nuclear weapons and concludes with a review of their attitude towards security in Northern Ireland The book finds the parties policies reflect their distinctive views on security while international conditions often severely affect the policy pursued The Royal Navy in the Falklands Conflict and the Gulf War Alastair Finlan, 2004 This book provides an insight into the relationship between the Royal Navy's institutional culture and modern warfare with specific reference to the Falklands Conflict and the Gulf War Blair's Britain, 1997-2007 Anthony Seldon, 2007-09-20 Tony Blair has dominated British political life for more than a decade Like Margaret Thatcher before him he has changed the terms of political debate and provoked as much condemnation as admiration At the end of his era in power this book presents a wide ranging overview of the achievements and failures of the Blair governments Bringing together Britain's most eminent academics and commentators on British politics and society it examines the effect of the Prime Minister and his administration on the machinery of government economic and social policy and foreign relations Combining serious scholarship with clarity and accessibility this book represents the authoritative verdict on the impact of the Blair years on British politics and society

and independent the new museums concentrated on local history war and transport This book asks who founded them how and why In order to find out more Fiona Candlin a professor in museology and Toby Butler an expert oral historian travelled around the UK to meet the individuals families community groups and special interest societies who established the museums The rich oral histories they collected provide a new account of recent museum history one that weaves together personal experience and social change while putting ordinary people at the heart of cultural production Combining academic rigour with a lively writing style Stories from small museums is essential reading for students and museum enthusiasts alike

Resnick, 2019-08-06 Since its founding the United States has allied with unsavory dictatorships to thwart even more urgent security threats How well has the United States managed such alliances and what have been their consequences for its national security In this book Evan N Resnick examines the negotiating tables between the United States and its allies of convenience since World War II and sets forth a novel theory of alliance bargaining Resnick's neoclassical realist theory explains why U S leaders negotiate less effectively with unfriendly autocratic states than with friendly liberal ones Since policy makers struggle to mobilize domestic support for controversial alliances they seek to cast those allies in the most benign possible light Yet this strategy has the perverse result of weakening leverage in intra alliance disputes Resnick tests his theory on America's Cold War era alliances with China Pakistan and Iraq In all three cases otherwise hardline presidents bargained anemically on such pivotal issues as China's sales of ballistic missiles Pakistan's development of nuclear weapons and Iraq's sponsorship of international terrorism In contrast U S leaders are more inclined to bargain aggressively with democratic allies who do not provoke domestic opposition as occurred with the United Kingdom during the Korean War An innovative work on a crucial and timely international relations topic Allies of Convenience explains why the United States has mismanaged these deals with the devil with deadly consequences
