urban animals as well The premise for this approach is that history has shown how certain species have persuasively coexisted with humans for so many millennia yet a conflict happens between animals and humans and within humans over animals It is thus logical to believe that the forces which create this conflict cannot solely be natural to the species in question and have to come from outside from the settlement patterns of both species and the net resultant force and dynamics The book looks at these dichotomies in four distinct but interrelated ways It delves deep inside four niches which form the dynamics of any settlement spatial cultural ecological and economic and explores all scales at which the succession and evolution of animals take place in highly urbanized settlements Emi and the Rhino Scientist Mary Kay Carson,2007 Terri Roth trudges through the thick dark Sumatran jungle She s looking for a rhinoceros that s been seen in the area It s a rare Sumatran rhino the world s smallest rhino and one of the most endangered mammals on the planet Suddenly she spots a young female rhino through the tangle of ferns and trees The stocky animal is covered in reddish hair and her snout sports two stubby horns The rhino walks right up to Terri The scientist slowly reaches out her hand and touches the rhino s big nose The wild rhino s curiosity and friendliness remind Terri of Emi the female Sumatran rhino that lives at the Cincinnati Zoo where Terri works Terri is working with Emi to help save Sumatran rhinos from extinction one calf at a time The United States Catalog ,1900 **Video Source Book** Gale Group,1999-10-28 A guide to programs currently available on video in the areas of movies entertainment general interest education sports recreation fine arts health science business industry children juvenile how to instruction **Lucky Litter, The** Jennifer Keats Curtis,2015-09-10 When a huge wildfire roared along the Funny River in the Kenai National Wildlife Refuge in Alaska firefighters rushed to the rescue Finding not one but five wolf pups in need they raced into action to save the whole litter With no wolf parents to help zookeepers and vets at the Alaska Zoo made sure the babies grew into a healthy happy pack Follow this true story as the helpless pups move from the charred refuge to the Alaska Zoo finally becoming big and strong enough to move into their forever home at the Minnesota Zoo
