5. **Conclusion**

Segregated Schools Educational Apartheid In Post Civil Rights America

Reiland Rabaka

Segregated Schools Educational Apartheid In Post Civil Rights America:

Segregated Schools Paul Street, 2013-04-15 Fifty years after the US Supreme Court ruled that separate but equal was inherently unequal Paul Street argues that little progress has been made to meaningfully reform America's schools. In fact, Street considers the racial make-up of today's schools as a state of de facto apartheid. With an eye to historical development of segregated education, Street examines the current state of school funding and investigates disparities in teacher quality, teacher stability, curriculum, classroom supplies, facilities, student-teacher ratios, teacher expectations for students, and students' expectations for themselves. Books in the series offer short, polemic takes on hot topics in education, providing a basic entry point into contemporary issues for courses and general readers. **Segregated Schools** Paul Louis Street, 2005

First Published in 2005, Routledge is an imprint of Taylor & Francis, an informal company. **Educational Leadership and Nancy Fraser** Jill Blackmore, 2016-06-10 Drawing on the work of Nancy Fraser, this book offers a critical view of contemporary educational leadership and reform discourses, exploring how her key concepts of redistribution, recognition, and representation may apply to social and therefore educational justice. Fraser offers a political and pragmatic reconciliation between feminist, neo-Marxist, critical, and post-structuralist theories. This book outlines how Fraser has worked on and worked over theories of social justice and how this can inform how we can understand educational theory, policy, and practice generally. In particular, the book focuses on the field of educational administration and leadership, ELMA, as it relates to equity issues such as school choice and inequality, gender, and inclusive leadership and alternative schooling. Fraser's argument about scaling up social justice theory is shown to be highly salient given the emergence of the field of transnational education policy and its role in the context of intensified nation-state and education business competition. Overall, through the lens of Nancy Fraser's unitary framework, this book considers epistemological questions about the nature of knowledge, examines the relationship between the state, the individual, education, and social movements, addresses the difficulties and dilemmas which arise due to the intersections of gender, class, race, sexuality, and culture in a globalized context, and illustrates how the principles of social justice can be mobilized by leaders in everyday practice. **Educational Leadership and Nancy Fraser** is an illuminating read for those policymakers, researchers, and practitioners engaged in the field of educational administration, leadership, and social justice. *Why Rural Schools Matter* Mara Casey Tieken, 2014 *Why Rural Schools Matter*

Shuttered Schools Ebony M. Duncan-Shippy, 2019-04-01 Since the late 1990s, mass school closures have reshaped urban education across the United States. Popular media coverage and research reports link this resurgence of school closures in major cities like Chicago and Philadelphia to charter school expansion, municipal budget deficits, and racial segregation. However, this phenomenon is largely overlooked in contemporary education scholarship. **Shuttered Schools: Race, Community, and School Closures in American Cities** Information Age Publishing is an interdisciplinary volume that integrates multiple perspectives to study the complex practice of school closure, an issue that transcends education. **Academics**

practitioners activists and policymakers will recognize the far reaching implications of these decisions for school communities *Shuttered Schools* features rigorous new studies of school closures in cities across the United States This research contextualizes contemporary school closures and accounts for their disproportionate impact on African American students With topics ranging from gentrification and redevelopment to student experiences with school loss research presented in this text incorporates various methods e g case studies interviews regression techniques and textual analysis to evaluate the intended and unintended consequences of closure for students families and communities This work demonstrates that shifts in the social economic and political contexts of education inform closure practice in meaningful ways The impacts of shuttering schools are neither colorblind nor class neutral but indeed interact with social contexts in ways that reify existing social inequalities in education

Against Epistemic Apartheid Reiland Rabaka, 2010-05-10 In this intellectual history making volume multiple award winning W E B Du Bois scholar Reiland Rabaka offers the first book length treatment of Du Bois s seminal sociological discourse from Du Bois as inventor of the sociology of race to Du Bois as the first sociologist of American religion from Du Bois as a pioneer of urban and rural sociology to Du Bois as innovator of the sociology of gender and inaugurator of intersectional sociology and finally from Du Bois as groundbreaking sociologist of education and critical criminologist to Du Bois as dialectical critic of the disciplinary decadence of sociology and the American academy *Against Epistemic Apartheid* brings new and intensive archival research into critical dialogue with the watershed work of classical and contemporary male and female black and white national and international sociologists and critical social theorists Du Bois studies *Against Epistemic Apartheid* offers an accessible introduction to Du Bois s major contributions to sociology and therefore will be of interest to scholars and students not only in sociology but also African American studies American studies cultural studies critical race studies gender studies and postcolonial studies as well as scholars and students in traditional disciplines such as history philosophy political science economics education and religion

The Prison School Lizbet Simmons, 2017 Police officers and metal detectors have become fixtures in American public schools In this tough on crime security oriented era the new gold standard for school discipline has become the criminal justice system While harsh school punishment has reshaped schools and communities across the socioeconomic divide nowhere is the overlap between classroom and prison more striking than at the Orleans Parish Prison the site of a New Orleans public school enrolling primarily poor African American boys expelled under zero tolerance policies for minor infractions such as tardiness but not actual criminal behavior *The Prison School* examines how and why public schools take a punitive approach to education and analyzes how this criminalizing mode influences a student s approach toward correctional custody How did schools and prisons two very different kinds of public institutions become so intertwined and what does this combination mean for students communities and ultimately a democratic society How do we begin to unravel the ties that bind the racialized realities of mass school failure and mass incarceration And what does this mean to segments

of the population in particular African American males who have been systematically removed from their schools and their society Provided by publisher *Jimmy Carter as Educational Policymaker* Deanna L. Michael, 2008-08-21 The United States is once again actively pursuing educational reform with the expressed goals of increasing efficiency and improving the quality of education while leaving no child behind Although these themes have been recast in contemporary terms this book demonstrates that they are a continuation of the educational efficiency movement that began in the early 1900s and reemerged during Jimmy Carter's administration Carter's involvement in educational policy on all governmental levels offers a unique opportunity to study the formation and implementation of educational policies on the local state and federal levels and to witness the centralization of educational policymaking in the latter half of the twentieth century Deanna L. Michael explores how Carter's commitments to efficiency and planning on the one hand and to equal educational opportunity on the other reflect the larger national movement in educational policy When these commitments came into conflict Michael suggests Carter's attempts to reconcile them reveal both his own shifting priorities and the complex social and political obstacles facing educational policymakers then and now **Closing the Opportunity Gap** Prudence L. Carter, Kevin G. Welner, 2013-04-26 While the achievement gap has dominated policy discussions over the past two decades relatively little attention has been paid to a gap even more at odds with American ideals the opportunity gap Opportunity and achievement while inextricably connected are very different goals Every American will not go to college but every American should be given a fair chance to be prepared for college In communities across the U.S. children lack the crucial resources and opportunities inside and outside of schools that they need if they are to reach their potential Closing the Opportunity Gap offers accessible research-based essays written by top experts who highlight the discrepancies that exist in our public schools focusing on how policy decisions and life circumstances conspire to create the opportunity gap that leads inexorably to stark achievement gaps They also describe sensible policies grounded in evidence that can restore and enhance opportunities Moving beyond conventional academic discourse Closing the Opportunity Gap will spark vital new conversations about what schools parents educators and policymakers can and should do to give all children a fair chance to thrive Power, Crisis, and Education for Liberation Noah De Lissovoy, 2008-06-23 Progressive educational approaches are currently in crisis in the face of globalization and conservative retrenchment This book proposes a new framework for critical pedagogy that develops strategies for responding to the proceduralization of schooling and public life in general
