Select Bibliography 2004 Law Of The Sea Law Of The Sea

Andrew T. H. Tan

Select Bibliography 2004 Law Of The Sea Law Of The Sea:

Shipping Interdiction and the Law of the Sea Douglas Guilfoyle, 2009-08-13 In this comparative study of shipping interdiction Douglas Guilfoyle considers the State action of stopping searching and arresting foreign flag vessels and crew on the high seas in cases such as piracy slavery drug smuggling fisheries management migrant smuggling the proliferation of weapons of mass destruction and maritime terrorism Interdiction raises important questions of jurisdiction including how permission to board a foreign vessel is obtained whether boarding State or flag State law applies during the interdiction or whether both apply and which State has jurisdiction to prosecute any crimes discovered Rules on the use of force and protection of human rights compensation for wrongful interdiction and the status of boarding State officers under flag State law are also examined A unified and practical view is taken of the law applicable across existing interdiction regimes based on an extensive survey of state practice *Worldmark Encyclopedia of the Nations: United Nations*, 2007 [The Oceans in the Nuclear Age](#) David D. Caron, Harry N. Scheiber, 2014-07-17 The advent of the nuclear age in 1945 fundamentally altered the course of human events The oceans are not the focus of the nuclear age but the affairs of the oceans are deeply woven into the history of that age Knowledge of what the nuclear age has meant for the oceans however is highly fragmented and there exists a surprising gap in research on the impact of the nuclear age on the oceans and on ocean law and policy Ranging from dumped wastes to transportation to security this study frames the complex multidimensional set of relationships between the oceans and the nuclear age and illuminates patterns of impact and response in ocean law This timely expanded edition includes a new chapter by Lt Todd Hutchins USN on Nuclear Risks in Coastal Areas Legal and Regulatory Responses It provides a full discussion of the 2011 coastal Fukushima Nuclear Power Plant disaster together with analysis more generally of the challenges to the environment and to the legal order globally that are posed by coastal siting of nuclear power plants [The Law of Armed Conflict and the Use of Force](#) Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law [The Poseidon Project](#) David Bosco, 2022 In The Poseidon Project David Bosco tells the story of how rulers merchants navies environmentalists and activists have struggled to craft rules for the oceans From the Dutch challenge to the Portuguese in the 17th century to the current turmoil in the South China Sea it tracks the tension between efforts to control maritime space and the idea that the oceans should be unowned and open to all [The Law of the Sea](#) United Nations. Office for Ocean Affairs and the Law of the Sea, 1988 This Bibliography is divided into 22 subject categories based mainly on the major topics of the United Nations Convention on the Law of the Sea The books articles within each category are listed alphabetically by author a complete author index is also included [The Quest for Sustainable International Fisheries](#) Evelyn Meltzer, Susanna Fuller, 2009 A publication of the National Research Council of Canada Monograph Publishing Program *The Politics of Maritime Power*

Andrew T. H. Tan,2010-10-18 This reference book looks at the modern day use of maritime power for achieving a range of political objectives **Marine Protected Areas Network in the South China Sea** Vu Hai Dang,2014-01-09 The once pristine and rich marine environment of the South China Sea is degrading at an alarming rate due to the rapid socioeconomic development of the region Despite this and due mainly to complicated sovereignty and maritime disputes coastal States have not been able to develop effective regional cooperation to safeguard the shared marine environment Marine Protected Areas Network in the South China Sea discusses legal and political measures to support the development of a network of marine protected areas in the South China Sea Such a network if properly developed would not only help to protect the marine environment and resources of the region but also contribute to decreasing the tension among its coastal States These measures are suggested in accordance with international law based on the specific geopolitical context of the South China Sea region and take into consideration experiences in developing regional networks of marine protected areas from other marine regions **Climate Change and Human Rights** Stephen Humphreys,2008
