The Histories of a Medieval German City, Worms c. 1000-c. 1300 David S. Bachrach,2016-03-03

Germany was the most powerful kingdom in the medieval West from the mid tenth to the mid thirteenth century However its history remains largely unknown outside of the German speaking regions of modern Europe Until recently almost all of the sources for medieval Germany were available only in the original Latin or in German translations while most scholarly investigation has been in German The limited English language scholarship has focused on royal politics and the aristocracy Even today English speaking students will find very little about the lower social orders or Germany s urban centers that came to play an increasingly important role in the social economic political religious and military life of the German kingdom after the turn of the millennium The translation of the four texts in this volume is intended to help fill these lacunae They focus on the city of Worms in the period c 1000 to c 1300 From them readers can follow developments in this city over a period of almost three centuries from the perspective of writers who lived there gaining insights about the lives of both rich and poor Christian and Jew No other city in Germany provides a similar opportunity for comparison of changes over time As important Worms was an early adopter of new political economic institutional and military traditions which would later become normative for cities throughout the German kingdom Worms was one of the first cities to develop as a center of episcopal power it was also one of the first to develop an independent urban government and was precocious in emerging as a de facto city state in the mid thirteenth century These political developments with their concomitant social economic and military consequences would define urban life throughout the German kingdom In sum the history of Worms as told in the narrative sources in this volume can be understood as illuminating the broader urban history of the German kingdom at the heigh

Fall of the Swords Collection Scott Michael Decker, 2022-07-04 All four books in Fall Of The Swords a series of fantasy novels by Scott Michael Decker now in one volume The Peasant Following a civil war an empire grapples with the devastating fallout His conscience heavy Peasant General Guarding Bear wants to usurp the tyrannical emperor's throne But

the general's rivals continue to play games seeking to avenge their name and reclaim the Northern Imperial Sword. With his reign threatened and no progeny to his name, the Emperor plots to conceive an heir by stealth. Soon Guarding Bear enters a world of deception, smoke, and mirrors and must decide where his loyalties lie. The Bandit, Tired of lying in wait, the exiled Noble Bandit seizes his chance at revenge. Meanwhile, as the birth of the Royal Twins nears, Peasant General Guarding Bear is repatriated by the Emperor. Fearing for the safety of his heirs, the emperor orders the general to lay siege to his enemy's fortress. In preparation, the general recruits the aid of a powerful wizard and a skilled young healer, but none of them suspects a traitor in their midst. As loyalties are tested and new alliances made, who will rise above and claim victory as their own? The Heir. The future of the Empire hangs in the balance. Separated from birth, the Royal Twins have been raised in opposite corners of the empire. Meanwhile, bandits continue to lay waste to the kingdom in their attempt to force the Emperor to relinquish the Northern Imperial Sword. Among them is the Noble Bandit, nemesis of Peasant General Guarding Bear. Tasked with rearing one of the twins, the Peasant General wastes no time in preparing the boy for his destiny of ridding the kingdom of the bandits once and for all. But long kept secrets are brought to life as the Heir is mistaken for his long lost brother and his new rival declares himself Emperor of the northern lands. Their path leads them towards a final confrontation that will forever change the fate of the realm. The Emperor Seeking Sword looks to the south for only one thing: The Northern Imperial Sword, which now lies dormant in the vaults of the Eastern Empire. Without it, Seeking Sword will always be a bandit. And to get it, he'll have to defeat the Heir. Abandoned to bandits as an infant, Seeking Sword has known adversity, but nothing has prepared him to lead a campaign against such an adversary. It isn't the Heir's formidable fighting skills nor his tactical acumen that so dismays the bandit Emperor. It's the beloved devotion of his people.
