Braceros Deborah Cohen,2011-02-15 At the beginning of World War II the United States and Mexico launched the bracero program a series of labor agreements that brought Mexican men to work temporarily in U S agricultural fields In Braceros Deborah Cohen asks why these migrants provoked so much concern and anxiety in the United States and what the Mexican government expected to gain in participating in the program Cohen creatively links the often unconnected themes of exploitation development the rise of consumer cultures and gendered class and race formation to show why those with connections beyond the nation have historically provoked suspicion anxiety and retaliatory political policies Term Paper Resource Guide to Latino History Michael P. **Disability Studies and the Environmental Humanities** Sarah Jaquette Ray, Jay Sibara, 2017-06 Although scholars in the environmental humanities have been exploring the dichotomy between wild and built environments for several years few have focused on the field of disability studies a discipline that enlists the contingency between environments and bodies as a foundation of its scholarship On the other hand scholars in disability studies have demonstrated the ways in which the built environment privileges some bodies and minds over others yet they have rarely examined the ways in which toxic environments engender chronic illness and disability or how environmental illnesses disrupt dominant paradigms for scrutinizing disability Designed as a reader for undergraduate and graduate courses Disability Studies and the Environmental Humanities employs interdisciplinary perspectives to examine such issues as slow violence imperialism race toxicity eco sickness the body in environmental justice ableism and other topics With a historical scope spanning the seventeenth century to the present this collection not only presents the foundational documents informing this intersection of fields but also showcases the most current work making it an indispensable reference

**They Saved the Crops** Don Mitchell, 2012 At the outset of World War II California agriculture seemed to be on the cusp of change Many Californians reacting to the ravages of the Great Depression called for a radical reorientation of the highly exploitative labor relations that had allowed the state to become such a productive farming frontier But with the importation of the first braceros guest workers from Mexico hired on an emergency basis after the United States entered the war an even more intense struggle ensued over how agriculture would be conducted in the state Esteemed geographer Don Mitchell argues that by delineating the need for cheap flexible farm labor as a problem and solving it via the importation of relatively disempowered migrant workers an alliance of growers and government actors committed the United States to an agricultural system that is in important respects still with us They Saved the Crops is a theoretically rich and stylistically innovative account of grower rapaciousness worker militancy rampant corruption and bureaucratic bias Mitchell shows that growers

workers and officials confronted a series of problems that shaped and were shaped by the landscape itself For growers the problem was finding the right kind of labor at the right price at the right time Workers struggled for survival and attempted to win power in the face of economic exploitation and unrelenting violence Bureaucrats tried to harness political power to meet the demands of as one put it the people whom we serve Drawing on a deep well of empirical materials from archives up and down the state Mitchell s account promises to be the definitive book about California agriculture in the turbulent decades of the mid twentieth century

**Defiant Braceros** Mireya Loza, 2016-09-02 In this book Mireya Loza sheds new light on the private lives of migrant men who participated in the Bracero Program 1942 1964 a binational agreement between the United States and Mexico that allowed hundreds of thousands of Mexican workers to enter this country on temporary work permits While this program and the issue of temporary workers has long been politicized on both sides of the border Loza argues that the prevailing romanticized image of braceros as a family oriented productive legal workforce has obscured the real diverse experiences of the workers themselves Focusing on underexplored aspects of workers lives such as their transnational union organizing efforts the sexual economies of both hetero and queer workers and the ethno racial boundaries among Mexican indigenous braceros Loza reveals how these men defied perceived political sexual and racial norms Basing her work on an archive of more than 800 oral histories from the United States and Mexico Loza is the first scholar to carefully differentiate between the experiences of mestizo guest workers and the many Mixtec Zapotec Purhepecha and Mayan laborers In doing so she captures the myriad ways these defiant workers responded to the intense discrimination and exploitation of an unjust system that still persists today
