Lost Berlin:

The Lost Termini of Berlin Ilja Nieuwland, 2024-11-04 From the birth of Berlin's railway network to the time when the bombs of the Second World War and the concrete slabs of the Wall changed the city forever the Prussian and later German capital counted eight major railway stations These were beacons in the city impressive monuments magnificently built for the bygone rituals of arrival and departure yet tightly woven into a distinct part of town Railway stations are magical meaningful places allowing for escape as well as promise nostalgia as well as novelty They process all sorts of people from well to do business types to unfortunates forced to live on the fringes of society There is a nervous energy around them created by those looking forward to their journey others trying to get oriented in a place that is new to them and some facing the drudgery of yet another commute And if pre World War 2 Berlin was anything it was energetic Building an adequate transport infrastructure for Europe's fastest growing city proved to be a continuous challenge that required flexibility and adaptation and touched the city in ways that can still be seen today This is the history of Berlin's railway stations the people that used them and the way the city was shaped by them

Lost Berlin Susanne Keegan, 1979 *The lost German U-boat* Herman Mertens, 2023-03-08 A secret Second World War mission with two German submarines bound for South America falls into disarray when one of the subs runs aground on a deserted island in the Atlantic Ocean The crew hide the boat under foliage but also leave the top secret cargo on board The other sub heads back towards Europe but soon runs into trouble Many years later thirteen young men recent school graduates decide to buy a boat and after long preparation and practice set off on the adventure of a lifetime After night spent partying with some young women on a desert island they come across the hidden sub and decide to investigate From that moment on their lives change and their carefree adventure leads them into real danger

Among The Dead Cities A. C. Grayling, 2009-05-26 In *Among the Dead Cities* the acclaimed philosopher A C Grayling asks the provocative question how would the Allies have fared if judged by the standards of the Nuremberg Trials Arguing persuasively that the victor nations have never had to consider the morality of their policies during World War II he offers a powerful moral re examination of the Allied bombing campaigns against civilians in Germany and Japan in the light of principles enshrined in the post war conventions on human rights and the laws of war Grayling begins by narrating the Royal Air Force's and U S Army Air Force's dramatic and dangerous missions over Germany and Japan between 1942 and 1945 Through the eyes of survivors he describes the terrifying experience on the ground as bombs created inferno and devastation among often unprepared men women and children He examines the mindset and thought process of those who planned the campaigns in the heat and pressure of war and faced with a ruthless enemy Grayling chronicles the voices that though in the minority loudly opposed attacks on civilians exploring in detail whether the bombings ever achieved their goal of denting the will to wage war Based on the facts and evidence he makes a meticulous case for and one against civilian bombing and only then offers his own judgment Acknowledging that they in no way equated to the death

and destruction for which Nazi and Japanese aggression was responsible he nonetheless concludes that the bombing campaigns were morally indefensible and more that accepting responsibility even six decades later is both a historical necessity and a moral imperative *Berlin on the Brink* Daniel F. Harrington,2012-06-24 The Berlin blockade brought former allies to the brink of war Britain France the United States and the Soviet Union defeated and began their occupation of Germany in 1945 and within a few years the Soviets and their Western partners were jockeying for control of their former foe Attempting to thwart the Allied powers plans to create a unified West German government the Soviets blocked rail and road access to the western sectors of Berlin in June 1948 With no other means of delivering food and supplies to the German people under their protection the Allies organized the Berlin airlift In *Berlin on the Brink The Blockade the Airlift and the Cold War* Daniel F Harrington examines the Berlin question from its origin in wartime plans for the occupation of Germany through the Paris Council of Foreign Ministers meeting in 1949 Harrington draws on previously untapped archival sources to challenge standard accounts of the postwar division of Germany the origins of the blockade the original purpose of the airlift and the leadership of President Harry S Truman While thoroughly examining four power diplomacy Harrington demonstrates how the ingenuity and hard work of the people at the bottom pilots mechanics and Berliners were more vital to the airlift s success than decisions from the top Harrington also explores the effects of the crisis on the 1948 presidential election and on debates about the custody and use of atomic weapons *Berlin on the Brink* is a fresh comprehensive analysis that reshapes our understanding of a critical event of cold war history **Views of Berlin** KIRCHHOFF,2013-11-11 *The Lost One* Stephen D. Youngkin,2005-09-30 The first full biography of this major actor draws upon more than 300 interviews including conversations with directors Fritz Lang Alfred Hitchcock Billy Wilder John Huston Frank Capra and Rouben Mamoulian who speak candidly about Lorre both the man and the actor **Berlin** Charles Werner Haxthausen,Heidrun Suhr,1990 Essays discuss how Berlin and its culture have been portrayed in literature poetry film cabaret and the visual arts *Lost Voices* Sophia M. Connell,Frederique Janssen-Lauret,2023-09-12 This book aims to redress the balance in the field of Contemporary Philosophy considered predominantly male by highlighting the philosophical achievements of various female figures during the period 1870 1970 Contemporary Philosophy is generally presented by its historians as a field founded entirely by men with no prominent female contributors Historical investigation of the development of contemporary analytic philosophy for example usually centres around Frege Russell and Wittgenstein with occasional ventures into Moore or the Vienna Circle Such accounts leave out vast swathes of the historical record from early 19th century to 20th century in particular the women including Christine Ladd Franklin Sophie Bryant E E C Jones Susan Stebbing Dorothy Wrinch Alice Ambrose Margaret MacDonald Martha Kneale Ruth Barcan Marcus and Ayda Ignez Arruda publishing on themes central to analytic philosophy logic language realism and relations It is noteworthy that this pattern in historiography is not unique to one strand of philosophy or one part of the world but re appears again and again In the continental tradition the development of

Schopenhauer's philosophy leaves out significant contributions of women such as Olga Placher. The chapters in this book examine central themes from the perspective of female philosophers to provide a fuller picture of Philosophy of this period. This volume will be a great resource for academics, researchers and advanced students of Philosophy and Women's Studies and for everyone interested in the contribution of women philosophers. It was originally published in the British Journal for the History of Philosophy.

An International History of the Cuban Missile Crisis David Gioe, Len Scott, Christopher Andrew, 2014-06-05. This edited volume addresses the main lessons and legacies of the 1962 Cuban Missile Crisis from a global perspective. Despite the discoveries of recent research, there is still much more to be revealed about the handling of nuclear weapons before and during the Cuban Missile Crisis (CMC). Featuring contributions from a number of eminent international scholars of nuclear history, intelligence, espionage, political science and Cold War studies, *An International History of the Cuban Missile Crisis* reviews and reflects on one of the critical moments of the Cold War, focussing on three key areas. First, the volume highlights the importance of memory as an essential foundation of historical understanding and demonstrates how events that rely only on historical records can provide misleading accounts. This focus on memory extends the scope of the existing literature by exploring hitherto neglected aspects of the CMC, including an analysis of the operational aspects of Bomber Command activity explored through recollections of the aircrews that challenge accounts based on official records. The editors then go on to explore aspects of intelligence whose achievements and failings have increasingly been recognised to be of central importance to the origins, dynamics and outcomes of the missile crisis. Studies of hitherto neglected organisations such as the US Defense Intelligence Agency (DIA) and the British Joint Intelligence Committee (JIC) both extend our understanding of British and American intelligence machinery in this period and enrich our understanding of key episodes and assessments in the missile crisis. Finally, the book explores the risk of nuclear war and looks at how close we came to nuclear conflict. The risk of inadvertent use of nuclear weapons is evaluated and a new proposed framework for the analysis of nuclear risk put forward. This volume will be of much interest to students of intelligence studies, international history, foreign policy, security studies and IR in general.

lost in space Eckhard Feddersen, Insa Lüdtkke, 2014-09-05. Dementia presents immense challenges both for individuals as well as for society as a whole. More than 35 million people all over the world currently live with dementia, a number that is expected to double by 2050. This also has implications for architecture and urban planning because dementia often affects people's sense of orientation and their ability to perceive space. How can homes, apartments, public buildings, outdoor spaces, neighbourhoods and cities as well as environments and infrastructure be designed to meet the needs of people with dementia as well as those of their caregivers? And can a consideration of the problems of dementia lead to a better understanding of space that can improve architecture and the built environment for us all? This book addresses these and other questions in a series of professional essays that examine the specific requirements for different disciplines. In addition, international case study

projects illustrate the breadth of current actual solutions The book is intended as a guide for all those involved in the design and planning process architects interior designers engineers town planners local authorities and clients and as a reader for the users themselves for people with dementia their family and friends and all those in their social environment *Fierce Ambition* Jennet Conant,2023-10-31 Mesmerizing Conant's book has brought Maggie Higgins back to life Andrew Nagorski Wall Street Journal A spirited portrait of twentieth century war correspondent Maggie Higgins and her tenacious fight to the top in a male dominated profession Marguerite Higgins was both the scourge and envy of the journalistic world A longtime reporter for the New York Herald Tribune she first catapulted to fame with her dramatic account of the liberation of Dachau at the end of World War II Brash beautiful ruthlessly competitive and sexually adventurous she forced her way to the front despite being told the combat zone was no place for a woman Her headline making exploits earned her a reputation for bravery bordering on recklessness and accusations of advancing on her back trading sexual favors for scoops While the Herald Tribune exploited her feminine appeal regularly featuring the photogenic girl reporter on its front pages it was Maggie's dogged determination talent for breaking news and unwavering ambition that brought her success from one war zone to another Her notoriety soared during the Cold War and her daring dispatches from Korea garnered a Pulitzer Prize for foreign correspondence the first granted to a woman for frontline reporting with the citation noting the unusual dangers and difficulties she faced because of her sex A star reporter she became part of the Kennedy brothers Washington circle though her personal alliances and politics provoked bitter feuds with male rivals who vilified her until her untimely death Drawing on new and extensive research including never before published correspondence and interviews with Maggie's colleagues lovers and soldiers and generals who knew her in the field journalist and historian Jennet Conant restores Maggie's rightful place in history as a woman who paved the way for the next generation of journalists and one of the greatest war correspondents of her time Berlin Barney White-Spunner,2021-05-04 The intoxicating history of an extraordinary city and her people from the medieval kings surrounding Berlin's founding to the world wars tumult and reunification of the twentieth century There has always been a particular fervor about Berlin a combination of excitement anticipation nervousness and a feeling of the unexpected Throughout history it has been a city of tensions geographical political religious and artistic In the nineteenth century political tension became acute between a city that was increasingly democratic home to Marx and Hegel and one of the most autocratic regimes in Europe Artistic tension between free thinking and liberal movements started to find themselves in direct contention with the formal official culture Underlying all of this was the ethnic tension between multi racial Berliners and the Prussians Berlin may have been the capital of Prussia but it was never a Prussian city Then there is war Few European cities have suffered from war as Berlin has over the centuries It was sacked by the Hapsburg armies in the Thirty Years War by the Austrians and the Russians in the eighteenth century by the French with great violence in the early nineteenth century by the Russians again in 1945 and subsequently occupied more benignly by the Allied Powers from

1945 until 1994 Nor can many cities boast such a diverse and controversial number of international figures Frederick the Great and Bismarck Hegel and Marx Mahler Dietrich and Bowie Authors Christopher Isherwood Bertolt Brecht and Thomas Mann gave Berlin a cultural history that is as varied as it was groundbreaking The story vividly told in Berlin also attempts to answer to one of the greatest enigmas of the twentieth century How could a people as civilized ordered and religious as the Germans support first a Kaiser and then the Nazis in inflicting such misery on Europe Berlin was never as supportive of the Kaiser in 1914 as the rest of Germany it was the revolution in Berlin in 1918 that lead to the Kaiser s abdication Nor was Berlin initially supportive of Hitler being home to much of the opposition to the Nazis although paradoxically Berlin suffered more than any other German city from Hitler s travesties In revealing the often untold history of Berlin Barney White Spunner addresses this quixotic question that lies at the heart of Germany s uniquely fascinating capital city **A**

Traveler's Education William Guy,2001-07-12 A Travelers Education is a collection of essays which in the manner of 19th century writers like James and Ruskin reflect the authors intense hunger of the eye his relish of the unpredictability of travel and of the unexpected ways in which it changes ones store of life experience The education which this book describes has taken place in the jungle villages of Honduras around the banquet table of a Palladian villa in the Veneto in Italy among the ghosts of Berlin within the opera houses of Europe amid the stony rubbish of Israel and elsewhere *"Write Nothing about Politics"* Barbara von Haeften,2018-05-01 Barbara von Haeften s memoir provides us with a moving account of the life of her husband Hans Bernd von Haeften a lawyer diplomat and member of the Kreisau Circle resistance group in Nazi Germany The Kreisau Circle participated in the assassination attempt of Hitler on July 20 1944 carried out by Claus von Stauffenberg and Werner von Haeften Hans s brother The Circle had also developed extensive plans for a new government to be put into place after the removal of Hitler Drawing on personal letters and clear memories this biography describes the life and political activity of an extraordinary man who was executed in the struggle to save Germany from the disastrous consequences of Hitler s regime and it sheds light on Barbara von Haeften s knowledge of and participation in the resistance movement

Selected Letters of Katherine Anne Porter Katherine Anne Porter,2012-08-11 Katherine Anne Porter 1890 1980 produced a relatively small body of fiction but she wrote thousands and thousands of letters The present selection of 135 unexpurgated letters written to seventy four different persons begins with a 1916 letter written from a tuberculosis sanatorium in Texas and ends with a 1979 letter dictated to an unnamed nursing home attendant in Maryland Different from any previous selection this body of letters does not omit Porter s frank criticism of fellow writers and spans her entire life Within that circumscription is the chronicle of Porter a twentieth century woman searching for love while she struggles to become the writer she is sure she can be Porter s letters vividly showcase the twentieth century as the writer observes it from her historical vantage points tuberculosis sanatoria and the influenza pandemic of 1918 the leftist community in Greenwich Village in the 1920s the Mexican cultural revolution of the 1920s and early 1930s the expatriate community in
