Lost Lunar Baedeker:

The Lost Lunar Baedeker Mina Loy, 1996 There was a time when it was common to couple Mina Loy's name with that of W C Williams or Marianne Moore her advanced contemporaries considered her a literary and artistic genius a descendant of Sappho by way of Emily Dickinson But the public was scandalized by her work and some critics openly scorned it Not only were her Futurist inspired techniques unlike anything most readers had encountered before but her subjects procreation parturition prostitution suicide addiction retardation were considered shocking even by some modernists Mina Loy vanished from the literary scene just as dramatically as she arrived on it and for most of the century her bold experiments have remained a well kept secret But in recent years Loy's work has been discovered by a new generation of poets and critics and has begun to surface in revisionist anthologies What has been needed is a reliable text of the essential Loy poems To assemble *The Lost Lunar Baedeker* Roger Conover has rescued Loy's poems and prose works from the Dada magazines and other ephemeral publications where they first appeared All of Loy's notorious Futurist and feminist satires are included as are many poems from her Paris and New York periods the complete cycle of Love Songs and several previously unknown texts Detailed notes accompany the text BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Feminist Avant-Garde in American Poetry Elisabeth A. Frost, 2005-04 The Feminist Avant Garde in American Poetry offers a historical and theoretical account of avant garde women poets in America from the 1910s through the 1990s and asserts an alternative tradition to the predominantly male dominated avant garde movements Elisabeth Frost argues that this alternative lineage distinguishes itself by its feminism and its ambivalence toward existing avant garde projects she also thoroughly explores feminist avant garde poets debts and contributions to their male counterparts

Modernism, Technology, and the Body Tim Armstrong, 1998-02-28 This book is a study of the relations between the body and its technologies in modernism Tim Armstrong traces the links between modernist literary texts and medical psychological and social theory across a range of writers including Yeats Henry James Eliot Stein and Pound Armstrong shows how modernist texts enact experimental procedures which have their origins in nineteenth century psychophysics biology and bodily reform techniques but within a context in which the body is reconceived and subjected to new modes of production representation and commodification Drawing on a wide range of disciplines Armstrong challenges the received oppositions between technology and literature the instrumental and the aesthetic by demonstrating the leaky boundaries and complex interconnections between these domains This book offers a cultural history of modernism as it negotiated the enduring fact of the human body in a period of rapid technological change

Modernism and Mourning Patricia Rae, 2007 The essays in *Modernism and Mourning* examine the work of mourning in modernist literature or more precisely its propensity for resisting this work Drawing from recent developments in the theory and cultural history of mourning its contributors explore the various ways in which modernist writers repudiate Freud's famous injunction to mourners to work through their grief endorsing instead a resistant or melancholic mourning that shapes both their themes and their radical experiments with form The emerging picture of the pervasive influence of melancholic mourning in modernist literature casts new light on longstanding critical arguments especially those about the politics of modernism It also makes clear the pertinence of this literature to the present day in which the catastrophic losses of 9/11 of retaliatory war of racially motivated genocide of the AIDS epidemic have made the work of mourning a subject of widespread interest and debate Patricia Rae is Head of the Department of English at Queen's University

Dynamic Form Cara L. Lewis, 2020-07-15 *Dynamic Form* traces how intermedial experiments shape modernist texts from 1900 to 1950 Considering literature alongside painting sculpture photography and film Cara Lewis examines how these arts inflect narrative movement contribute to plot events and configure poetry and memoir As forms and formal theories cross from one artistic realm to another and back again modernism shows its obsession with form and even at times becomes a formalism itself but as Lewis writes that form is far more dynamic than we have given it credit for Form fulfills such various functions that we cannot characterize it as a mere container for content or matter nor can we consign it to ignominy opposite historicism or political commitment As a structure or scheme that enables action form in modernism

can be plastic protean or even fragile and works by Henry James Virginia Woolf Mina Loy Evelyn Waugh and Gertrude Stein demonstrate the range of form's operations Revising three major formal paradigms spatial form pure form and formlessness and recasting the history of modernist form this book proposes an understanding of form as a verbal category as a kind of doing Dynamic Form thus opens new possibilities for conversation between modernist studies and formalist studies and simultaneously promotes a capacious rethinking of the convergence between literary modernism and creative work in other media

Transformations of Trauma in Women's Writing Laura Alexander, 2023-01-10 This volume examines the ways in which trauma alters women's identities While some of the chapters look deeply at individual experiences many of the contributions look to national traumas and the consequences of political abuses including colonial subjugation and genocide for women The book shows that language has a transformative power to change us to give us a great capacity for inner and outer dialogues and for healing and self love As shown here women have historically employed autobiography and memoir to free themselves and others rather than seeing the limit of form they reinvent the parameters to offer a new relationship with language

The Science Fiction of Poetics and the Avant-Garde Imagination Michael Golston,2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston s project is a throwaway line in Robert Smithson s Entropy and the New Monuments about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism

which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston s critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn s long poem Gunslinger the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston s restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form **Cold Modernism** Jessica Burstein,2012 Explores a significant but overlooked aspect of early twentieth century modernism one that focuses on surface appearance rather than interiority or psychological depth Looks at the writers Wyndham Lewis and Mina Loy the artists Balthus and Hans Bellmer and the fashion designer Coco Chanel Provided by publisher
