An Environmental History of the UK Defence Estate, 1945 to the Present Marianna Dudley, 2012-05-03 This book brings to attention the history of places that have traditionally remained under the radar in discussions of war and the environment through site based studies of five training areas in southwest England and Wales Salisbury Plain Lulworth Dartmoor Sennybridge and Castlemartin At these sites the big events of the twentieth century are written into landscapes that absorb their impact and reflect change in intriguing ways Here however environment is more than a canvas on which historical forces play out it has an agency of its own as the depiction of the surprising nature and robust habitats of the training areas recognises An Environmental History of the UK Defence Estate 1945 to the Present critically examines the gradual greening of the MoD as it developed policies of military environmentalism It includes the histories of the ghost villages created by forced evictions and charts the rise and fall of anti military protest movements It depicts heated confrontations mass trespasses and demands for public access alongside conservation work and training activities situating the human histories of these sites within their environmental history and taking the reader behind the barbed wire in the first study of its kind

Fleiner, Dene October, 2017-07-25 When Sydney Newman conceived the idea for Doctor Who in 1963 he envisioned a show in which the Doctor and his companions would visit and observe but not interfere with events in history That plan was dropped early on and the Doctor has happily meddled with historical events for decades This collection of new essays examines how the Doctor's engagement with history relates to Britain's colonial past nostalgia for village life Norse myths alternate history and the impact of historical decisions on the present

Cullen, 2012-09-10 This book pioneered the concept of townscape Townscape is the art of giving visual coherence and organization to the jumble of buildings streets and space that make up the urban environment It has been a major influence

on architects planners and others concerned with what cities should look like *Local History in England* William George Hoskins,1984 Lady Anne Clifford, Countess of Dorset, Pembroke & Montgomery, 1590-1676: Her Life, Letters and Work George Charles Williamson,1922 Littell's Living Age ,1903 Dangerous Cargo Pauline Rowson,2016-09-01 In his second mission for the National Intelligence Marine Squad former marine commando Art Marvik finds himself on the trail of a 50 year old mystery For his second mission Marvik is detailed to attend the funeral of Bradley Pulford whose body was washed up on an Isle of Wight beach in January only he d officially been declared dead 55 years earlier So who is the imposter and why did he assume the name of a dead man What s more why did he suddenly show up in the Dorset coastal town of Swanage in 1989 hook up with a local fishing family the Killbecks and after fathering a child with Stacey Killbeck disappear in 1990 When an innocent woman is killed during the course of the investigation Marvik realizes that the stakes are much higher than he d previously thought As he begins to uncover a trail of deceit corruption and murder that spans over half a century Marvik must confront a ruthless killer who will stop at nothing to make sure that the sins of the past stay in the past *The Wits and Beaux of Society. With Illustrations from Drawings by H. K. Browne and J. Godwin. Engraved by the Brothers Dalziel* Grace WHARTON (pseud. [i.e. Mrs. Katharine Thomson], and WHARTON (Philip) pseud. [i.e. J. C. Thomson.]),1860 The Bird of Time N. W. Moore,1987-02-27 This book is a plea to everyone but especially to politicians administrators farmers and businessmen to take conservation seriously and as a result to integrate conservation with other activities Through research work and land management the author shows how he came to realise that conservation matters much more fundamentally than is accepted by conventional wisdom He maintains that the significance of conservation will not be recognised until it is seen within its proper contents of time and this provides the theme of the book The newness of conservation as an idea and its complexities still provide obstacles to understanding its real significance In the past too much emphasis has been put on the negative and esoteric aspects of conservation This book is important because it emphasises its positive and common sense aspects and in so doing demonstrates that conservation should now be accepted as a major national and international objective of vital concern to everybody now and in the future *England as it is* William Johnston,1851
