More writing about music Neil Pace,2017-01-03 Around a year ago I published *Writing about music* an anthology which is just a posh way of saying collection of writing previously published in varying forms in varying places curated which is just a posh way of saying cobbled together into one volume I ve been living high on the royalties ever since Or I would have been if anybody had been prepared to buy it Like most items of dubious quality it has however proved mildly popular when given away free This second volume with the imaginative title of *More writing about music* is similar to the first a collection of gig and album reviews interviews with pop stars and a mish mash of other oddities Includes interviews with Paul Carrack Tom Smith John Flansburgh They Might Be Giants Geoff Downes Yes Meilyr Jones Frank Allen The Searchers Scorpio Grandmaster s Furious Five featuring Mele Mel and Scorpio Glenn Gregory Heaven 17 and Norman Blake Teenage Fanclub

The Golden Age of Probation Roger Statham,2014-09-24 *The Golden Age of Probation* is the first book on probation by those practitioners who became its leaders A comprehensive account exploring culture values and tensions It looks at the dynamics of probation supervision and political dimensions including the shift to a market driven form of public service A lively and challenging collection of writings by those at the very heart of the Probation Service for 50 years Complete with descriptions of life at all levels of what has been described as the jewel in the crown of criminal justice Moral and other challenges are presented alongside those of standing up to government Ministers whose aspirations for political immortality have led to profound tensions The book describes how tough talk and market strategies have undermined 100 years of devoted public service and ideas about how best to help change the lives of some of the most marginalised people in society Equality race and social deprivation are amongst the issues explored as the ethos of probation

and its deeply rooted values are laid bare in a book that deals with highs and lows hazards innovation hopes aims and the international influence of an organization whose original mission not always popular was to advise assist and befriend those otherwise heading for prison and a life of crime Colourful and highly readable *The Golden Age of Probation* takes the reader on a journey through England and Wales exposing social disadvantage unrest and increasingly London centric policies It records first hand what life was like for those at the sharp end during an era of extensive progress development and change From the book The price of the semi privatised probation estate is that probation has lost its umbilical cord with the courts the police the prosecution service and our partners in local authorities It will be difficult for the courts in particular to understand the transforming rehabilitation agenda when services for low and medium risk offenders will be carried out by an origami of commissioned enterprises whose experience for the most part is in the private sector of running prisons mostly in the USA and whose staff may not necessarily have the qualifications to properly assess and supervise known offenders John Harding CBE Chapter 10 Although the restructure made the service vulnerable to later changes through the 2000 Act it did achieve better consistency reduced costs in due course more women at the top and a national programme of assessment and interventions that was internationally ground breaking The mistake in my view was to abandon this direction later that decade combine with the Prison Service under the banner of offender management and sacrifice the national probation influence that had been gained Because of the nature of the caseload with most offenders on community orders we have always had more joint work with police and local authorities than with the Prison Service Personalities and some bad judgements however got in the way Mary Anne McFarlane Chapter 14 For the last three decades probation just like health and education has been caught up in the dynamics and mechanisms of creating pseudo pseudo markets to deliver public services The underlying philosophy might appear to be simply to get the cost of these things off the government s balance sheet but the structures created to do this are not transparent enough for a real assessment to be made of the true financial costs At the same time organizational targets and protocols have helped stifle initiative and even the capacity to care Roger Statham Chapter 18 [The Railway Magazine](#) ,1996 **The Publishers' Circular and Booksellers' Record** ,1927
