imprint in history but few have had such a pervasive impact in so many respects as the Russo Japanese War of 1904 1905 Politically it fatally weakened the Russian Empire while allowing Japan to follow more dangerous paths Diplomatically it shook the power balance in Europe and reshaped it in the form of two coalitions leading to World War I With regard to the art of warfare it emphasized the use of trench warfare and machine guns on land and the deployment of battleships and the use of torpedoes at sea Yet despite its importance at the time it has become very much a forgotten war The A to Z of the Russo Japanese War provides considerable breadth and depth of coverage based on Japanese Russian and Western sources The breadth is accomplished through a wide ranging introduction a detailed chronology and an extensive bibliography The depth comes in the hundreds of entries on military and political leaders major battles and lesser encounters tactics and strategy as well as the weaponry and of course the causes and consequences The result is the first major reference work on the Russo Japanese War in English and the largest in any language     **Imperial Rivals** Sarah C.M. *Occidentalism* Zhand Shakibi, 2019-12-12 Zhand Shakibi presents a new interpretation of the political and social dynamics of the last decade of the Shah's rule that challenges the binary view of pro West Shah and anti West Ayatollah by drawing attention to the Pahlavi state's reaction to the intellectual and societal backlash against cultural and moral Occidentalism in its last decade. Revising the dominant historiography of the Pahlavi ideological and discursive approach to the West, this book draws attention to the changes in the attitude of the Shah, the Empress and state intellectuals towards the position and imagery of the West in state conceptions of the authenticity of Iranian national culture and identity. Drawing on a wide range of primary sources, Shakibi presents the multi-faceted relationship of the Pahlavi state to the West and the institutions that were created to manage this, such as the Rastakhiz Party. This study argues that the Pahlavi state, having recognized this backlash, attempted to limit the threat to its legitimacy by reformulating intellectual discourses of anti West Occidentalism and incorporating them into the ideology of the Rastakhiz Party. In so doing, it played a critical role in exacerbating societal sensitivities about the spread of Western influences.

**Navy and Army Illustrated**, 1900 **Historical Dictionary of the Russo-Japanese War** Rotem Kowner, 2017-04-06 The Russo Japanese War was fought for 19 months, 8 February 1904 – 5 September 1905, between the empires of Japan and the Russia over the southern part of Manchuria and the Korean Peninsula. While essentially a colonial conflict, the war became a major engagement both in scale and innovation unseen until then. In recent years, there has been a growing awareness that this event marks a historical juncture far more important than it was usually taken to be. This second edition of the *Historical Dictionary of the Russo Japanese War* offers a major revision of the highly praised first edition, which by all accounts has been the standard work on this conflict in any language during the last decade. The book contains a chronology, an introduction, appendixes and an extensive bibliography. Moreover, the dictionary section has some 800 new or fully revised, cross-referenced entries on the battles, weaponry and major personalities of the war, as well as various international events and conflicts, agreements, schemes and projects that led to the war. This book is an excellent resource for students, researchers and anyone wanting to know more about the Russo Japanese War.

**The Origins of World War I** Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I: Why did it happen? Several of the oft-cited causes are reviewed and discussed. The argument of the alliance systems is inadequate, lacking relevance or compelling force. The arguments of mass demands, those focusing on nationalism, militarism and social Darwinism, it is argued, are insufficient, lacking indications of frequency, intensity and process, how they influenced the various decisions. The work focuses on decision making on the choices made by small coteries in Austria-Hungary, Germany, Russia, France, Britain and elsewhere. The decisions made later by leaders in Japan, the Ottoman Empire, Italy, the Balkans and the United States are also explored. The final chapters review the basic causes once again. An alternative position is advanced: one focused on elites and coteries, their backgrounds and training and on their unique agendas.
