examination of the past and the present and provides a comprehensive overview of the many theories and problems concerning Hong Kong Including reflections on the theory of administrative absorption of politics a historical review of one country two systems and an analysis of the form and nature of the Basic Law it offers a valuable reference resource for studying the historical political and legal context of Hong Kong under the principle of one country two systems Instead of over simplifying the issue of Hong Kong or only seeing it as a Chinese regional issue the book regards it as a central Chinese issue and the key to understanding China

Interregional Recognition and Enforcement of Civil and Commercial Judgments Jie (Jeanne) Huang, 2014-11-01 Judgment recognition and enforcement JRE between the US states between EU Member States and between mainland China Hong Kong and Macao are all forms of interregional JRE This extensive comparative study of the three most important JRE regimes focuses on what lessons China can draw from the US and the EU in developing a multilateral JRE arrangement for mainland China Hong Kong and Macao Mainland China Hong Kong and Macao share economic geographical cultural and historical proximity to one another The policy of One Country Two Systems also provides a quasi constitutional regime for the three regions However there is no multilateral JRE scheme among them as there is in the US and the EU and it is harder to recognise and enforce sister region judgments in China than in the US and the EU The book analyses the status quo of JRE in China and explores its insufficiencies it proposes a multilateral JRE arrangement for Chinese regions to alleviate current JRE difficulties and it also provides solutions for the macro and micro challenges of establishing a multilateral arrangement drawing upon the rich literature on JRE regimes found in the US and the EU

ENDORSEMENTS Professor Huang has completed a highly readable and comprehensive study of the issues governing recognition and enforcement of judgments among the three distinct legal regimes of the People's Republic of China Her ideas will surely enrich the Chinese debate as well as provide interesting scholarly material for non Chinese seeking greater understanding of legal reform in the PRC Peter D Trooboff Senior Counsel Covington Burling LLP Washington DC USA The book shows meticulous analytical and comparative scholarship Dr Huang's proposal of a multilateral arrangement makes an original and valuable contribution to the study of interregional judgment recognition and enforcement among Mainland China Hong Kong and Macao Renshan Liu Professor and Dean Law School of Zhongnan University of Economics and Law China Dr Huang's timely work provides an insightful analysis of one of the more vexed aspects of the inter regional legal relations in Greater China Her careful investigation makes a valuable contribution to the academic and practical work on the recognition and enforcement of judgments between China and her two special administrative regions The comparative approach she adopts represents the true utility of comparativism for legal scholarship Bing Ling Professor of Chinese Law Sydney Law School Australia

Hong Kong's

Constitutional Debate Johannes M.M. Chan, H.L. Fu, Yash Ghai, 2000-02-01 This book explores legal and constitutional issues in Hong Kong's relationship with mainland China through an analysis of the litigation on the right of abode of the children of Hong Kong residents who are born and live in the mainland. The litigation in the Hong Kong courts and the subsequent interpretation by the Standing Committee of the National People's Congress were followed with keen interest both locally and internationally and had provoked great controversy. The differing approaches to and styles of interpretation of the Court and the Standing Committee provide a vivid demonstration of the clash of legal systems within which Hong Kong's constitutional system has to operate. These issues are discussed in this book by Hong Kong's leading legal scholars and practitioners. This book offers perspectives to solve these controversies and to develop an acceptable approach to the interpretation of the Basic Law. It captures the sustained public debate on constitutional issues and provides a historical record of this constitutional debate. It also contains the full texts of the decision of the Court and the Interpretation by the Standing Committee.

Hong Kong Law Reports, 1907 The History of the Laws and Courts of Hong-kong James William Norton-Kyshe, 1898 A New Documentary History of Hong Kong, 1945-1997 Florence Mok, Fung Chi Keung Charles, 2025-03-17 In A New Documentary History of Hong Kong 1945-1997 Florence Mok, Fung Chi Keung Charles and other contributors analyse newly released archival records from the National Archives in London, the Government Records Service in Hong Kong and other sources across the world. This documentary collection provides an updated and improved understanding of basic aspects of the city such as governance, economy, society and culture. It also aims at investigating topics that are underexploited in previous sourcebooks such as race and diasporas, gender and familial relations, medicine and healthcare and environment and natural disasters. Overall, this book offers an innovative and comprehensive long-term perspective of Hong Kong's colonial history. This book is far more than a collection of historical documents; it is a new history of Hong Kong from 1945 to 1997. As useful as these sources are for telling the history of Hong Kong during this period, just as valuable are the introductions and commentaries by the contributors. For while these sources tell us much about Hong Kong, this book is a powerful testament to the fact that it is historians who make historical documents speak and who give them meaning. John M. Carroll, University of Hong Kong. I find a commitment to academic sharing and altruism among the editors and contributors of this sourcebook. They shared with us the documents they covered in their own research. They identified those that were most relevant to capturing the essential features of Hong Kong society in their chosen areas of study. Tai Lok Lui, Education University of Hong Kong. A significant contribution from a new generation of Hong Kong historians, this collective effort provides clear and concise accounts of various aspects of Hong Kong's history. Their insights and meticulous work in uncovering archival materials and documentary sources will enable further inquiry and foster nuanced discussions among history enthusiasts and scholars. Ray Yep, University of Bristol.
