The Papers of Dwight David Eisenhower Dwight David Eisenhower, 1970 **Air & Space Power Journal** win 03 , **The Papers of Dwight David Eisenhower** Dwight David Eisenhower, 2001 *Patton's War* Kevin M. Hymel, 2021-11-01 George S Patton Jr lived an exciting life in war and peace but he is best remembered for his World War II battlefield exploits Patton's War An American General's Combat Leadership November 1942 July 1944 the first of three volumes follows the general from the beaches of Morocco to the fields of France right before the birth of Third Army on the continent In highly engaging fashion Kevin Hymel uncovers new facts and challenges long held beliefs about the mercurial Patton not only examining his relationships with his superiors and fellow generals and colonels but also with the soldiers of all ranks whom he led Using new sources unavailable to previous historians and through extensive research of soldiers memoirs and interviews Hymel adds a new dimension to the telling of Patton's WWII story

A Search for Strategy John F. Shortal, 2025-05-30 A hallmark of history surrounding Winston Churchill and World War II is that the British American alliance comprised a special relationship of military political social and cultural connections between the British Empire and the United States Stressing the intimate collaboration between the American and British military advisors on the Combined Chiefs of Staff Churchill emphasized policy consensus and downplayed any dissension or disagreements in allied war councils In *A Search for Strategy* British American Military Collaboration in 1942 John F Shortal argues that this special relationship did not exist in 1942 At the Arcadia Conference from December 1941 to January 1942 Prime Minister Churchill and President Franklin Roosevelt developed a strong personal relationship having more in common with one another than with their own military advisors The American and British chiefs likewise seemed to agree with each other more than they did with their respective civilian heads of state on the appropriate short term strategy However serious mistrust and prejudice existed among staff officers of both nations as they focused on national goals and objectives According to Shortal unwillingness to compromise almost tore the fledgling British American Alliance apart in 1942 Drawing on international archival material from governmental sources Shortal offers an in depth analysis of the reasoning and rationale of the United States and Great Britain during the first year of the British American Alliance *A Search for Strategy* gives readers a month by month breakdown of diplomatic and military policies to fully appreciate the relationship forged between the allied chieftains to ensure national war aims while cooperating in World War II

Humanities , 1991 **The Papers of Dwight David Eisenhower** Louis Galambos, Daun Van Ee, 2003-04-30 The final set of volumes Vol 18 21 sold separately of *The Papers of Dwight David Eisenhower* contain 1 783 documents drawn from Eisenhower's second term as president from 20 January 1957 to 20 January 1961 Completing a monumental project that began with publication of *The War Years* in 1970 this final set of volumes of *The Papers of Dwight David Eisenhower* contains 1 783 documents drawn from Eisenhower's second term as president from 20 January 1957 to 20 January 1961 In these years

Eisenhower worked hard to hold the focus of American national politics on the two major objectives he had set for his presidency in 1952 to sustain the policy of containment without precipitating a war with the Soviet Union and to reduce the role of the federal government in U S domestic affairs In both cases events at home and abroad intruded diverting attention to immediate problems endangering the peace and forcing the White House to devote most of its leadership to the crises of the day As president during this tense period Eisenhower maintained an extensive and revealing correspondence with prominent individuals as well as with personal friends These letters together with the occasional entries made in his diary shed considerable light upon the major national concerns of the 1950s The volumes also include private and secret correspondence previously unavailable to scholars Some of these items have been only recently declassified and many appear here in print for the first time Taken as a whole the Eisenhower papers from 1957-61 provide firm documentary evidence of the manner in which Eisenhower dealt with the complex internal and external problems faced by all of our modern political leaders

Annotation, 1994 **The Papers of Dwight David Eisenhower** Dwight David Eisenhower, 1970 The Making of an Alliance David Tal, 2022-01-06 Laying the foundation for an understanding of US Israeli relations this lively and accessible book provides critical background on the origins and development of the special relations between Israel and the United States Questioning the usual neo realist approach to understanding this relationship David Tal instead suggests that the relations between the two nations were constructed on idealism political culture and strategic ties Based on a diverse range of primary sources collected in archives in both Israel and the United States The Making of an Alliance discusses the development of relations built through constant contact between people and ideas showing how presidents and Prime Ministers state officials and ordinary people from both countries impacted one another It was this constancy of religion values and history serving the bedrock of the relations between the two countries and peoples over which the ephemeral was negotiated

Planning A Tragedy: The Americanization of the War in Vietnam Larry Berman, 1983-08-17 Takes an historically important decision places it in its immediate stream of policy development perceptions and events and adds what was missing from the Pentagon Papers Richard E Neustadt Harvard University A thoroughly researched and highly perceptive study of the decisions that turned the tribal struggle in Vietnam into an American war Berman's book fully documents the role of domestic policy in our tragic involvement As one who watched the process at firsthand I commend Professor Berman's book for its fairness and insight

George W Ball **Eisenhower** Pam Parry, 2014-10-30 In the 1950s public relations practitioners tried to garner respectability for their fledgling profession and one international figure helped in that endeavor President Dwight D Eisenhower embraced public relations as a necessary component of American democracy advancing the profession at a key moment in its history But he did more than believe in public relations he practiced it Eisenhower changed how America campaigns by leveraging television and Madison Avenue advertising Once in the Oval Office he maximized the potential of a new medium as the first U S president to seek training for television and to

broadcast news conferences on television Additionally Eisenhower managed the news through his press office molding the role of the modern presidential press secretary The first president to adopt a policy of full disclosure on health issues Eisenhower survived politically as well as medically three serious illnesses while in office The Eisenhower Administration was the most forthcoming on the president's health at the time even though it did not always live up to its own policy In short Eisenhower deserves credit as this nation's most innovative public relations president because he revolutionized America's political communication process forever changing the president's relationship with the Fourth Estate Madison Avenue public relations and ultimately the American people *Annual Report* United States. National Historical Publications and Records Commission,1994 **Fighting Traffic** Peter D. Norton,2011-01-21 The fight for the future of the city street between pedestrians street railways and promoters of the automobile between 1915 and 1930 Before the advent of the automobile users of city streets were diverse and included children at play and pedestrians at large By 1930 most streets were primarily a motor thoroughfares where children did not belong and where pedestrians were condemned as jaywalkers In *Fighting Traffic* Peter Norton argues that to accommodate automobiles the American city required not only a physical change but also a social one before the city could be reconstructed for the sake of motorists its streets had to be socially reconstructed as places where motorists belonged It was not an evolution he writes but a bloody and sometimes violent revolution Norton describes how street users struggled to define and redefine what streets were for He examines developments in the crucial transitional years from the 1910s to the 1930s uncovering a broad anti automobile campaign that reviled motorists as road hogs or speed demons and cars as juggernauts or death cars He considers the perspectives of all users pedestrians police who had to become traffic cops street railways downtown businesses traffic engineers who often saw cars as the problem not the solution and automobile promoters He finds that pedestrians and parents campaigned in moral terms fighting for justice Cities and downtown businesses tried to regulate traffic in the name of efficiency Automotive interest groups meanwhile legitimized their claim to the streets by invoking freedom a rhetorical stance of particular power in the United States *Fighting Traffic* offers a new look at both the origins of the automotive city in America and how social groups shape technological change Iron Curtain Twitchers Jennifer M. Hudson,2018-11-23 The Cold War is often viewed in absolutist terminology the United States and the Soviet Union characterized one another in oppositional rhetoric and pejorative propaganda State sanctioned communications stressed the inherent dissimilarity between their own citizens and those of their Cold War foe Such rhetoric exacerbated geopolitical tensions and heightened Cold War paranoia most notably during the Red Scare and brinkmanship incidents Government leaders stressed the reactive defensive foreign policies they implemented to retaliate against their counterparts offensive maneuvers Only brief periods of détente gave glimpses into the possibility of concerted peaceful coexistence Yet such characterizations neglect the complexities and rhetorical nuances that created fissures throughout the long standing ideological conflict Grassroots diplomacy rarely coalesced with official

governmental rhetoric and often contradicted the discourse emanating from the White House and the Kremlin Organizations such as Women Strike for Peace WSP the Committee for Nonviolent Action CNVA and the Moscow Trust Group MTG defied policy directives and sought to establish genuine peaceful coexistence Traveling citizens posited that U S and Soviet citizens possessed more underlying commonalities than their governmental leaders cared to admit phenomena underscored in events such as the San Francisco to Moscow Walk for Peace Spacebridge programs railed against the Strategic Defense Initiative SDI and proclaimed that figurative and literal links between their country and the Other proved more conducive to public opinion than Star Wars Iron Curtain Twitchers examines such juxtaposing rhetorics through three lexical themes contamination containment and coexistence It analyzes the disparate perspectives of public politicians and private citizens throughout the Cold War s duration and its aftermath to better understand the political cultural and geopolitical nuances of U S Russia relations Vacillating rhetoric among politicians journalists and traveling citizens complicated geopolitical relationships sociopolitical disagreements and cultural characterizations These dialogues are contrasted with the cultural mediums of film and political cartoons to underscore fluctuating Cold War identity dynamics Manifestations of one s own country contrasted with propagations of the Other and indicate that the Cold War lasted much longer and remains more virulent than previously conceived

The Media Offensive Alexander G. Lovelace, 2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley s concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media attention and British respect General Mark Clark s hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction Negative media pressure and the fear of V 1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944 British general Bernard Montgomery s remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion By V E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units The Media Offensive offers a new way to understand military media relations during World War II The press and public opinion shaped not only how the conflict was seen but also how it was fought Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it Lovelace recasts World War II in a new and unique fashion by placing media and

public opinion at the center of battlefield decision making Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents The Media Offensive takes the historiography of war reporting in a new direction In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press Unofficial Ambassadors Donna Alvah,2007-04-01 As thousands of wives and children joined American servicemen stationed at overseas bases in the years following World War II the military family represented a friendlier more humane side of the United States campaign for dominance in the Cold War Wives in particular were encouraged to use their feminine influence to forge ties with residents of occupied and host nations In this untold story of Cold War diplomacy Donna Alvah describes how these unofficial ambassadors spread the United States perception of itself and its image of world order in the communities where husbands and fathers were stationed cultivating relationships with both local people and other military families in private homes churches schools women s clubs shops and other places Unofficial Ambassadors reminds us that in addition to soldiers and world leaders ordinary people make vital contributions to a nation s military engagements Alvah broadens the scope of the history of the Cold War by analyzing how ideas about gender family race and culture shaped the U S military presence abroad **Overlord's Eagles** John J. Sullivan,2015-09-18 On June 6 1944 the Allies launched Operation Overlord the largest most hazardous amphibious assault in history The objective establishment of a lodgment area in Normandy from which the Allies could strike at the heart of Germany and destroy the German armed forces Air supremacy over northwest Europe was an absolute prerequisite for the success of the invasion and to achieve it the U S Army Air Forces launched two campaigns aimed at destroying the Germans transportation advantages in the area In the months and days leading up to the assault the Army Air Forces ceaselessly bombed rail centers rendering most of the railways in northern France and Belgium unusable Once the actual invasion was underway the Allies shifted to an interdiction campaign using precise air attacks on critical transportation installations near the battlefield to neutralize Germany s efforts to resupply and reinforce their troops This work makes use of many wartime records that had remained classified until recently
