Gene: Humanity's Reckoning G Minerva,2025-09-20 In a world on the brink one scientist's ambition changes the course of humanity forever Arnav a brilliant geneticist discovers the Haifa Gene a mysterious genetic sequence capable of altering human physiology and enhancing strength beyond imagination What begins as a mission to advance human potential spirals into chaos when ambition and ethical compromise unleash uncontrollable monstrosities GeneCore a powerful corporation weaponizes Arnav's research creating half human half monster beings that terrorize cities from Tokyo to New York Governments scramble armies intervene and the world plunges into panic as civilization faces an unprecedented threat Haunted by guilt Arnav joins forces with Ira a pragmatic scientist and Rohit an investigative journalist to infiltrate GeneCore's hidden Antarctic lab Their mission retrieve the original gene sample and develop a vaccine capable of reversing the monstrous transformations In a deadly race against time Arnav confronts the very creations he helped unleash in a final harrowing battle The vaccine is unleashed saving humanity but not without consequences Some survivors retain fragments of the Haifa Gene sparking a new evolution Humanity begins to rebuild wiser and cautious aware that the line between scientific discovery and ethical responsibility is perilously thin As Arnav reflects a chilling truth emerges Science gives us power but morality lights the path Forget our ethics and we risk plunging into a new catastrophe The Haifa Gene is a thrilling exploration of ambition responsibility and the fragile balance between progress and destruction **Ways & Power**

Of Love Pitirim A. Sorokin,2015-10-22 The Ways and Power of Love was originally published in 1954 when Pitirim Sorokin was in the twilight of his career and leading the Harvard Research Center in Creative Altruism His elaborate scientific analysis of love with regard to its higher and lower forms its causes and effects its human and cosmic significance and its core features constitutes the first study on this topic in world literature to date Sorokin was the one absolutely essential twentieth century pioneer in the study of love at the interface of science and religion Bringing The Ways and Power of Love back into print allows a new generation of readers to appreciate Sorokin's genius and to move forward with his endeavor at a time when civilization itself continues to be threatened by a marked inability to live up to the ideal of love for all humankind It is certainly right to hope with Sorokin that progress in knowledge about love can move humanity forward to a better future Turning the sciences toward the study of love is no easy task but it can and must be done Sorokin & Civilization Joseph Brandon Ford,Michel Paul Richard,Palmer Talbutt,Pitirim Aleksandrovich Sorokin, Sorokin and Civilization is a festschrift to Pitirim Sorokin one of the most famed figures of twentieth century sociology and first president of the International Society

for the Comparative Study of Civilizations ISCSC He was a giant of the twentieth century stage in the larger world as well He debated with Trotsky exchanged ideas with Pavlov and received a personal invitation to meet with President Masaryk of Czechoslovakia His principled dissent from sociological orthodoxy frequently anticipated that of Charles Wright Mills Alfred McClung Lee and Alexander Solzhenitsyn He was to paraphrase Joseph Ford a scholar among statesmen and a statesmen among scholars

Compassionate Love and Ebony Grace Kortright Davis,2012-03-22 Why is the Golden Rule so central in almost every culture and religion What is it that drives human beings to do good to others Are altruism compassion and forgiveness natural forms of human behavior or do they have to be learned and practiced in the neural context of our primal instincts for survival and self defense These are some of the questions that lie behind the study of Compassionate Love amongst people of color Davis explores the patterns and contours of other love which he defines as a selfless regard for the well being of others He also examines the basis for distinctive modes of compassionate behavior enriched by ebony grace a theological attribution for people of African descent This text focuses especially on the historical cultural and religious heritage that inspires and empowers such attitudes in spite of constant encounters with systemic negation social alienation and unrelenting racism How is it that Black families in the home school and church still support sustain and succeed in the practice of unyielding love in compassion That is the magic and mystery within contemporary Black cultural norms and moral values This text is a powerful attempt to contribute to the debate on Christian altruism *Stove Mounters' & Range*

Workers' Journal ,1918 **Theosophy, the Path of the Mystic** Katherine Tingley,1922 *Theosophy* Katherine Augusta Westcott Tingley,1922

The Scriptures of Won Buddhism Bongkil Chung,2003-01-31 Won Buddhism one of the major religions of modern Korea was established in 1916 by Pak Chung bin 1891 1943 later known as Sot aesan In 1943 Sot aesan published a collection of Buddhist writings the Correct Canon of Buddhism Pulgyo chongjon which included the doctrine of his new order Four years later the second patriarch Chongsan 1900 1962 had the order compile a new canon which was published in 1962 This work translated here as The Scriptures of Won Buddhism Wonbulgyo kyojon consists of the Canon a redaction of the first part of the Pulgyo chongjon and the analects and chronicle of the founder known as the Scripture of Sot aesan The present translation incorporates critical tenets from the 1943 Canon that were altered in the redaction process and offers persuasive arguments for their re inclusion

Pitirim A. Sorokin: Rediscovering a Master of Sociology Emiliana Mangone,2023-09-12 Pitirim A Sorokin is a controversial figure in the history of sociology of which he remains one of the masters Those who read Sorokin today must however frame the historical reality experienced by the scholar his Russian and American experiences because the evolution of his thought had several phases that correspond to his personal family and professional lives he founded and directed the Department of Sociology at Harvard University for many years This Russian American sociologist argued that socio cultural phenomena must be studied following their dynamism in space and time since the constituent elements personality society and culture are constantly changing and cannot be studied separately

Reviving his thought is not a form of celebration but a moment to reflect on how some sociology classics still have their relevance and how all too often they are forgotten. This is why this book takes up his main conceptualizations by anchoring them to contemporary society whose transformations are often difficult to read and above all to highlight how the role of sociology as a science has in part lost sight of its ontological foundation as a service to humanity or public service. The theoretical paths taken by Sorokin range from *Social and Cultural Dynamics* to *Social Mobility* and to many other topics such as man and society in calamities or love and altruism, one of Sorokin's latest topics. All these topics can revive the idea of a sociology that holds together the micro, meso, and macro dimensions and allows us to predict changes in society. **Radical Brown** Margaret Beale Spencer, Nancy E. Dowd, 2024-05-07 A rallying cry for equitable education informed by a revolutionary re-reading of *Brown v Board of Education* on the 70th anniversary of the ruling. **Sorokin, Pitirim A.** Rubin Gotesky, 1949

Humanity's Last Stand Mark Schuller, 2021-01-15 Are we as a species headed towards extinction? As our economic system renders our planet increasingly inhospitable to human life, powerful individuals fight over limited resources and racist reaction to migration strains the social fabric of many countries. How can we retain our humanity in the midst of these life and death struggles? *Humanity's Last Stand* dares to ask these big questions, exploring the interconnections between climate change, global capitalism, xenophobia, and white supremacy. As it unearths how capitalism was born from plantation slavery and the slaughter of Indigenous people, it also invites us to imagine life after capitalism. The book teaches its readers how to cultivate an anthropological imagination, a mindset that remains attentive to local differences even as it identifies global patterns of inequality and racism. Surveying the struggles of disenfranchised peoples around the globe, from frontline communities affected by climate change to Black Lives Matter activists to Indigenous water protectors to migrant communities facing increasing hostility, anthropologist Mark Schuller argues that we must develop radical empathy in order to move beyond simply identifying as allies and start acting as accomplices. Bringing together the insights of anthropologists and activists from many cultures, this timely study shows us how to stand together and work toward a more inclusive vision of humanity before it's too late. Theology of Nature Peter Scott, 2003-03-06 This book argues that the modern separation of humanity from nature can be traced to the displacement of the triune God. Locating the source of our current ecological crisis in this separation, Peter Scott argues that it can only be healed within theology through a revival of a Trinitarian doctrine of creation interacting with political philosophies of ecology. Drawing insights from deep ecology, ecofeminism, and social and socialist ecologies, Scott proposes a common realm of God, nature, and humanity. Both Trinitarian and political, the theology of this common realm is worked out by reference to Christ and Spirit. Christ's resurrection is presented as the liberation and renewal of ecological relations in nature and society; the movement of the Holy Spirit is understood as the renewal of fellowship between humanity and nature through ecological democracy, and the Eucharist is proposed as the principal political resource. Christianity offers

for an ecological age **Superhumanity** Nick Axel, Beatriz Colomina, Nikolaus Hirsch, Anton Vidokle, Mark Wigley, 2018-01-01 A wide ranging and challenging exploration of design and how it engages with the self The field of design has radically expanded As a practice design is no longer limited to the world of material objects but rather extends from carefully crafted individual styles and online identities to the surrounding galaxies of personal devices new materials interfaces networks systems infrastructures data chemicals organisms and genetic codes Superhumanity seeks to explore and challenge our understanding of design by engaging with and departing from the concept of the self This volume brings together more than fifty essays by leading scientists artists architects designers philosophers historians archaeologists and anthropologists originally disseminated online via e flux Architecture between September 2016 and February 2017 on the invitation of the Third Istanbul Design Biennial Probing the idea that we are and always have been continuously reshaped by the artifacts we shape this book asks Who designed the lives we live today What are the forms of life we inhabit and what new forms are currently being designed Where are the sites and what are the techniques to design others This vital and far reaching collection of essays and images seeks to explore and reflect on the ways in which both the concept and practice of design are operative well beyond tangible objects expanding into the depths of self and forms of life Contributors Zeynep elik Alexander Lucia Allais Shumon Basar Ruha Benjamin Franco Bifo Berardi Daniel Birnbaum Ina Blom Benjamin H Bratton Giuliana Bruno Tony Chakar Mark Cousins Simon Denny Keller Easterling Hu Fang Rub n Gallo Liam Gillick Boris Groys Rupali Gupte Andrew Herscher Tom Holert Brooke Holmes Francesca Hughes Andr s Jaque Lydia Kallipoliti Thomas Keenan Sylvia Lavin Yongwoo Lee Lesley Lokko MAP Office Chus Mart nez Ingo Niermann Ahmet g t Trevor Paglen Spyros Papapetros Raqs Media Collective Juliane Rebutisch Sophia Roosth Felicity D Scott Jack Self Prasad Shetty Hito Steyerl Kali Stull Pelin Tan Alexander Tarakhovsky Paulo Tavares Stephan Tr by Etienne Turpin Sven Olov Wallenstein Eyal Weizman Mabel O Wilson Brian Kuan Wood Liam Young and Arseny Zhilyaev

Recognizing the showing off ways to acquire this book **Reconstruction Of Humanity** is additionally useful. You have remained in right site to begin getting this info. get the Reconstruction Of Humanity member that we have enough money here and check out the link.

You could purchase guide Reconstruction Of Humanity or acquire it as soon as feasible. You could quickly download this Reconstruction Of Humanity after getting deal. So, following you require the book swiftly, you can straight get it. Its fittingly enormously simple and consequently fats, isnt it? You have to favor to in this declare
