American Bungalow, 2006 *The Spanish Craze* Richard L. Kagan, 2019-03-01 The Spanish Craze is the compelling story of the centuries long U S fascination with the history literature art culture and architecture of Spain Richard L Kagan offers a stunningly revisionist understanding of the origins of hispanidad in America tracing its origins from the early republic to the New Deal As Spanish power and influence waned in the Atlantic World by the eighteenth century her rivals created the Black Legend which promoted an image of Spain as a dead and lost civilization rife with innate cruelty and cultural and religious backwardness The Black Legend and its ambivalences influenced Americans throughout the nineteenth century reaching a high pitch in the Spanish American War of 1898 However the Black Legend retreated soon thereafter and Spanish culture and heritage became attractive to Americans for its perceived authenticity and antimodernism Although the Spanish craze infected regions where the Spanish New World presence was most felt California the American Southwest Texas and Florida there were also early quite serious flare ups of the craze in Chicago New York and New England Kagan revisits early interest

in Hispanism among elites such as the Boston book dealer Obadiah Rich a specialist in the early history of the Americas and the writers Washington Irving and Henry Wadsworth Longfellow He also considers later enthusiasts such as Angeleno Charles Lummis and the many writers artists and architects of the modern Spanish Colonial Revival in the United States in the late nineteenth and early twentieth centuries Spain's political and cultural elites understood that the promotion of Spanish culture in the United States and the Western Hemisphere in general would help overcome imperial defeats while uniting Spaniards and those of Spanish descent into a singular raza whose shared characteristics and interests transcended national boundaries With elegant prose and verve *The Spanish Craze* spans centuries and provides a captivating glimpse into distinct facets of Hispanism in monuments buildings and private homes the visual performing and cinematic arts and the literature travel journals and letters of its enthusiasts in the United States

California Mediterranean Marc Appleton, 2007 In the early 20th century architects designing houses for the balmy climate of Southern California were influenced by the style of the villas and palaces that dominated the architecture of Italy France Spain Greece and Morocco and a few other North African locales The resulting style noted for its pleasing combination of simplicity and dignity for its often asymmetrical undecorated facades reflected romantic European forms and yet distinguished itself by adding American ingenuity Prime examples of this include Villa Narcissa widely celebrated for its unimposing grandeur and Casa Leon with its stunning hillside location and ocean views Included here are residences by noted architects such as Julia Morgan Bertram Goodhue Addison Mizner George Washington Smith Wallace Neff and others While some of the houses are lavishly decorated villas with lush landscaping others are more spare creations what all these interpretations of the California Mediterranean style have in common is an indoor outdoor approach to living
