Redeeming The Time Vol 8 A Peoples History Of The 1920s And The New Deal:

de Kooning Mark Stevens, Annalyn Swan, 2006-04-04 Winner of the Pulitzer Prize and National Book Critics Award Circle Award An authoritative and brilliant exploration of the art life and world of an American master Willem de Kooning is one of the most important artists of the twentieth century a true painter's painter whose protean work continues to inspire many artists In the thirties and forties along with Arshile Gorky and Jackson Pollock he became a key figure in the revolutionary American movement of abstract expressionism Of all the painters in that group he worked the longest and was the most prolific creating powerful startling images well into the 1980s The first major biography of de Kooning captures both the life and work of this complex romantic figure in American culture Ten years in the making and based on previously unseen letters and documents as well as on hundreds of interviews this is a fresh richly detailed and masterful portrait The young de Kooning overcame an unstable impoverished and often violent early family life to enter the Academie in Rotterdam where he learned both classic art and guild techniques Arriving in New York as a stowaway from Holland in 1926 he underwent a long struggle to become a painter and an American developing a passionate friendship with his fellow immigrant Arshile Gorky who was both a mentor and an inspiration During the Depression de Kooning emerged as a central figure in the bohemian world of downtown New York surviving by doing commercial work and painting murals for the WPA His first show at the Egan Gallery in 1948 was a revelation Soon the critics Harold Rosenberg and Thomas Hess were championing his work and de Kooning took his place as the charismatic leader of the New York school just as American art began to dominate the international scene Dashing handsome and treated like a movie star on the streets of downtown New York de Kooning had a tumultuous marriage to Elaine de Kooning herself a fascinating character of the period At the height of his fame he spent his days painting powerful abstractions and intense disturbing pictures of the female figure and his nights living on the edge drinking womanizing and talking at the Cedar bar with such friends as Franz Kline and Frank O Hara By the 1960s exhausted by the feverish art world he retreated to the Springs on Long Island where he painted an extraordinary series of lush pastorals In the 1980s as he slowly declined into what was almost certainly Alzheimer's he created a vast body of haunting and ethereal late work

The Depression Dilemmas of Rural Iowa, 1929-1933 Lisa L. Ossian, 2012-01-01 To many rural Iowans the stock market crash on New York's Wall Street in October 1929 seemed an event far removed from their lives even though the effects of the crash became all too real throughout the state From 1929 to 1933 the enthusiastic faith that most Iowans had in Iowan President Herbert Hoover was transformed into bitter disappointment with the federal government As a result Iowans directly questioned their leadership at the state county and community levels with a renewed spirit to salvage family farms demonstrating the uniqueness of Iowa's rural life Beginning with an overview of the state during 1929 Lisa L Ossian describes Iowa's particular rural dilemmas evoking through anecdotes and examples the economic nutritional familial cultural industrial criminal legal and political challenges that engaged the people of the state

The following chapters analyze life during the early Depression new prescriptions for children s health creative housekeeping to stretch resources the use of farm playlets to communicate new information creatively and memorably the demise of the soft coal mining industry increased violence within the landscape and the movement to end Prohibition The challenges faced in the early Great Depression years between 1929 and 1933 encouraged resourcefulness rather than passivity creativity rather than resignation and community rather than hopelessness Of particular interest is the role of women within the rural landscape as much of the increased daily work fell to farm women during this time While the women addressed this work simply as making do Ossian shows that their resourcefulness entailed complex planning essential for families emotional and physical health Ossian s epilogue takes readers into the Iowa of today dominated by industrial agriculture and asks the reader to consider if this model that stemmed from Depression era innovation is sustainable Her rich rural history not only helps readers understand the particular forces at work that shaped the social and physical landscape of the past but also traces how these landscapes have continued in various forms for almost eighty years into this century

The Liberation of Manila John A. Del Gallego,2020-08-06 During the early months of World War II Winston Churchill maneuvered to get the U S involved in the war to save his country from German invasion Roosevelt scheming to lure Hitler into a casus belli ensnared Japan instead resulting in the attack on Pearl Harbor and the Pacific War that followed When the doomed U S garrison in the Philippines soon capitulated to the Japanese the atrocities inflicted on the Filipino and American units that surrendered were portents for the inhabitants of Manila The history chronicles the 1945 recapture of Manila largely from the perspective of the civilian population which suffered horrific brutality from the Japanese followed by destruction and heavy loss of life during the American assault

Individual stories are included of citizens caught in the crossfire between the tenacious Japanese defenders and American troops determined to seize the capital city while minimizing their own casualties regardless of the cost in civilian lives More than 175 photographs document the events described

A Probabilistic Analysis of the Sacco and Vanzetti Evidence Joseph B. Kadane, David A. Schum, 2011-09-26 A Probabilistic Analysis of the Sacco and Vanzetti Evidence is a Bayesian analysis of the trial and post trial evidence in the Sacco and Vanzetti case based on subjectively determined probabilities and assumed relationships among evidential events It applies the ideas of charting evidence and probabilistic assessment to this case which is perhaps the ranking cause celebre in all of American legal history Modern computation methods applied to inference networks are used to show how the inferential force of evidence in a complicated case can be graded The authors employ probabilistic assessment to obtain opinions about how influential each group of evidential items is in reaching a conclusion about the defendants' innocence or guilt A Probabilistic Analysis of the Sacco and Vanzetti Evidence holds particular interest for statisticians and probabilists in academia and legal consulting as well as for the legal community historians and behavioral scientists It combines structural and probabilistic ideas in the analysis of masses of evidence from every recognized logical species of evidence Twenty eight charts show the chains of reasoning in defense of the relevance of evidentiary matters and a listing of trial witnesses who provided the evidence References include nearly 300 items drawn from the fields of probability theory history law artificial intelligence psychology literature and other areas

1920 Eric Burns, 2015-05-15 The Roaring Twenties is the only decade in American history with a widely applied nickname and our fascination with this era continues But how did this surge of innovation and cultural milestones emerge out of the ashes of The Great War No one has yet written a book about the decade's beginning Acclaimed author Eric Burns investigates the year of 1920 not only a crucial twelve month period of its own but one that foretold the future foreshadow the rest of the 20th century and the early years of the 21st Burns sets the record straight about this most misunderstood and iconic of periods Despite being the first full year of armistice 1920 was not in fact a peaceful time it contained the greatest act of terrorism in American history to date And while 1920 is thought of as staring a prosperous era for most people life had never been more unaffordable Meanwhile African Americans were putting their stamp on culture and though people today imagine the frivolous image of the flapper dancing the night away the truth was that a new power had been bestowed on women and it had nothing to do with the dance floor From prohibition to immigration the birth of jazz the rise of expatriate literature and the original Ponzi scheme 1920 was truly a year like no other

Coming Alive from Nine to Five Betty Neville Michelozzi,1999 *Redefining the American Dream* Sally Peltier Harvey,1995 Success is never so interesting as struggle Willa Cather wrote in 1932 but the idea of success apparently interested Willa Cather a good deal during the late nineteenth and early twentieth centuries as it did many of her contemporaries *Redefining the American Dream* examines Cather s interest throughout her life in the version s of success that pervaded American culture and that were and often still are identified as the American Dream Sally Peltier Harvey studies the forces in America that shaped Cather s attitudes about success as Cather was growing up and the forces that reshaped her attitudes during the years that Cather wrote her novels causing her to reassess the relationship between material success personal fulfillment individual autonomy and commitment to community Harvey traces Cather s shifting views and her struggle to redefine the American Dream rather than abandon it as many of her contemporaries did Cather s efforts in this regard involved a repeated confrontation with the concepts of individualism and community Cather in her novels moves away from the traditional pairing of self fulfillment and material success so common in nineteenth century thought a pairing that valorized individualism and viewed competition as a natural law Cather seems to work toward a redefinition of success that sees a fulfilled self grounded in community though still struggling to balance community s demands and the individual s needs What begins for Cather as a troubled ambivalence about the success ethic in America becomes in her later novels an acceptance even a celebration of the tension between individual and community that underlies the struggle toward success **Transformation and Reaction** Glen Jeansonne,2004 **Choice** ,1993 **Paperbound Books in Print** ,1992
