The Show and the Gaze of Theatre Erika Fischer-Lichte, Jo Riley, 1997 Theatre in some respects resembles a market Stories rituals ideas perceptive modes conversations rules techniques behavior patterns actions language and objects constantly circulate back and forth between theatre and the other cultural institutions that make up everyday life in the twentieth century These exchanges which challenge the established concept of theatre in a way that demands to be understood form the core of Erika Fischer Lichte s dynamic book Each eclectic essay investigates the boundaries that separate theatre from other cultural domains Every encounter between theatre and other art forms and institutions renegotiates and redefines these boundaries as part of an ongoing process Drawing on a wealth of fascinating examples both

Etienne Decroux and his Theatre Laboratory Marco de Marinis, 2023-05-31 Etienne Decroux and His Theatre Laboratory is based on the long awaited translation of Marco De Marinis monumental work on mime in the twentieth century *Mimo e teatro nel Novecento* 1993 Now revised and updated the volume focuses specifically on the seminal role played by French mime artist and pedagogue Etienne Decroux Mime is a theatrical form of ancient tradition In the nineteenth century it saw both apogee and crisis in the west with the realistic and gesticulating white pantomime In the twentieth century it underwent a radical overhaul transforming into an abstract corporeal art that shunned imitation and narrative and which instead tended towards the plastic elliptic allusive and symbolic transposition of actions and situations This book is the result of detailed investigations based on contemporary accounts and obscure or unpublished materials Through the examination of the creative pedagogical and theoretical work of the inventor of the new mime art Etienne Decroux De Marinis focuses on the different assumptions underlying the various modes of the problematic presence of mime in the theatre of the twentieth century from the utopia of a pure theatre attributed to the sole essence of the actor to its decline into a closed poetic genre often nostalgically stuck in the past from mime as a pedagogical tool for the actor to mime as an expressive and virtuosic means in the hands of the director

Sex, Symbolists and the Greek Body Richard Warren, 2019-11-14 This book explores Symbolist artists' fascination with ancient Greek art and myth and how the erotic played a major role in this For a brief period at the end of the 19th century the Symbolist movement inspired artists to turn inwards to the unconscious mind endeavouring to unveil the secrets of human nature through their symbolic art But above all their greatest interest and fear was man and woman's sexuality Building upon the traditions of Academic neoclassicism but fired with a new zeal they turned back to Greek art and myth for inspiration That classical legacy was once again a vehicle for artists to express their dreams ideas and revelries And so too their anxieties For at times the frightening spectre of the sexual unconscious drove them to a new and innovative engagement with antiquity including in ways never before tried in the history of the classical tradition The unnerving sirens of Gustave Moreau unearthly heroines of Odilon Redon or leering fauns of Felicien Rops all played their role among others in this novel and unprecedented chapter in that tradition This book shows how in their painting drawing and sculpture the Symbolists re-invented Greek statuary and transposed it to new and unwonted contexts as the imaginary inner worlds of artists were mapped onto the landscapes of Greek myth It shows how they made of the Greek body whether female male androgyne or sexual other at once an object of beauty desire fear and at times of horror

The Metaphysics of Night Matthew Del Nevo, 2014-04-18 *The Metaphysics of Night* acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract

intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture
