Redwood Railways:

Redwood Railways Gilbert H. Kneiss, 1956 *Historic Redwood National and State Parks* Gail L. Jenner, 2016-05-01 If redwood trees could share their stories what would they say Some of these giants are thousands of years old but all have witnessed some truly unique moments in history Historic Redwood National and State is a vibrant collection of essays sharing different parts of Redwood National Park s history from the Native Americans and the early explorers to park visitors today Celebrate the 100th anniversary of the National Park Service and learn more about the cultural political and natural history of Redwood National and State Parks **Railway Engineering and Maintenance of Way**, 1920 **Trains**, 1962
Railway Track and Structures, 1920 Logging Railroads of Humboldt and Mendocino Counties Katy M. Tahja, 2013
Locomotive steam whistles echo no more in the forests of the north California coast A century ago Humboldt and Mendocino Counties had more than 40 railroads bringing logs out of the forest to mills at the water s edge Only one single railroad ever connected to the outside world and it too is gone One railroad survives as the Skunk Train in Mendocino County and it carries tourists today instead of lumber Redwood and tan oak bark were the two products moved by rail and very little else was hauled other than lumberjacks and an occasional picnic excursion for loggers families Economic depressions and the advent of trucking saw railroads vanish like a puff of steam from the landscape *Redwood Lumber Industry* Lynwood Carranco, 1982 The Home of the Redwood Redwood Lumber Manufacturers Association, 1897 **Chinese America**, 1991 City of Wood James Michael Buckley, 2024 In City of Wood architectural historian James Buckley explores San Francisco s rapid urban development as a product of the physical and economic transformation of the natural environment of the American West San Francisco is best known as a product of the gold and silver that were mined from California s mountains and streams but as Buckley shows the city s growth was in fact fueled by a wide range of natural resources that could be converted into marketable commodities City of Wood investigates the architecture of a typical Western resource industry redwood lumber to determine how the exploitation of California s natural resources shaped the built environment of both San Francisco and its broader hinterland American Lumberman, 1904 *Railway Review*, 1917 **Railway Maintenance Engineer**, 1920 The Redwoods, 1964 The Redwoods United States. National Park Service, 1964
Redwoods, Iron Horses, and the Pacific Spencer Crump, 1963 The California Western Railroad CWR extends from the Pacific Coast at Fort Bragg to the redwoods to Willits It began as a logging line but is known for the rail buses nicknamed Skunks This book details the history of the CWR and acquisition of the initial Skunk rail bus **The Electric Interurban Railways in America** George Woodman Hilton, John Fitzgerald Due, 1964 One of the most colorful yet neglected eras in American transportation history is re created in this definitive history of the electric interurbans Built with the idea of attracting short distance passenger traffic and light freight the interurbans were largely constructed in the early 1900s The rise of the automobile and motor transport caused the industry to decline after World War I and the depression virtually

annihilated the industry by the middle 1930s Part I describes interurban construction technology passenger and freight traffic financial history and final decline and abandonment Part II presents individual histories with route maps of the more than 300 companies of the interurban industry Reviews A first rate work of such detail and discernment that it might well serve as a model for all corporate biographies A wonderfully capable job of distillation Trains Few economic social and business historians can afford to miss this definitive study Mississippi Valley Historical Review All seekers after nostalgia will be interested in this encyclopedic volume on the days when the clang clang of the trolley was the most exciting travel sound the suburbs knew Harper s Magazine A fascinating and instructive chapter in the history of American transportation Journal of Economic History The hint that behind the grand facade of scholarship lies an expanse of boyish enthusiasm is strengthened by a lovingly amassed and beautifully reproduced collection of 37 photographs The Nation **Building the Redwood Region** James Michael Buckley,2000 Railway and Engineering Review ,1896 **Encyclopedia of Western Railroad History** Donald B. Robertson,1986 Distributed by the University of Nebraska Press for Caxton Press This book includes 368 pages of maps photographs and technical data on the history of railroading in California There are detailed reports on dates of operation mergers miles of track maximum grade gauge and rail weight It also includes the histories of thousands of locomotives
