Pref. *The Organization of Information* Daniel N. Joudrey, Arlene G. Taylor, 2017-11-27. This fourth edition provides an updated look at information organization featuring coverage of the Semantic Web, linked data and EAC/CPF new metadata models such as IFLA LRM and RiC and new perspectives on RDA and its implementation. This latest edition of *The Organization of Information* is a key resource for anyone in the beginning stages of their LIS career as well as longstanding professionals and paraprofessionals seeking accurate, clear and up to date guidance on information organization activities across the discipline. The book begins with a historical look at information organization methods covering libraries, archives, museums and online settings. It then addresses the types of retrieval tools used throughout the discipline: catalogs, finding aids, indexes, bibliographies and search engines, before describing the functionality of systems, explaining the basic principles of system design and defining how they affect information organization. The principles and functionality of metadata is next with coverage of the types, functions, tools and models, particularly FRBR, IFLA LRM, RDF and how encoding works for use and sharing, for example MARC XML schemas and linked data approaches. The latter portion of the resource describes specific activities related to the creation of metadata for resources. These chapters offer an overview of the major issues, challenges and standards used in the information professions, addressing topics such as resource description including standards found in RDA, DACS and CCO, access points, authority control, subject analysis, controlled vocabularies, notably LCSH, MeSH, Sears and AAT and categorization systems such as DDC and LCC.

The School Library Manager Blanche Woolls, Sharon Coatney, 2017-11-27. This sixth edition of *Library Unlimited's* classic school library management text describes new approaches to management and addresses the realities that school librarians face in today's quickly evolving information based world. In recent years, nearly all school libraries and school librarians have been targeted for having their funding or staffing cut as a result of reductions in school budgets. How does a newly graduated LIS professional prepare for a career in this volatile environment? How do established librarians and administrators prove their value and necessity to decision makers? This freshly updated edition of *The School Library Manager* is an invaluable textbook that leads readers through the many essential management tasks and skills required to administer the successful school library program and beyond. It promotes the leadership role of the school librarian in the school and addresses the need for school librarians to provide students with equal access to information. The information presented will not only enable librarians to keep their jobs but also supply specific guidance and inspiration that gives

readers the ability to make their positions and libraries undeniably relevant and valuable and to ensure a path of upward mobility in their LIS careers
