Farrell, 2017-10-19 In this comprehensive and detailed analysis of recent research on encouraging reflective practices in TESOL Farrell demonstrates how this practice has been embraced within TESOL and how it continues to impact the field Examining a vast array of studies through his own framework for reflecting on practice Farrell s analysis comprises not only the intellectual and cognitive but also the spiritual moral and emotional aspects of reflection Reflection questions at the end of each chapter provide a jumping off point for researchers scholars and teachers to further consider and reflect on the future of the field Providing a holistic picture of reflection this book is an original compendium of essential research on philosophy and principles instruments used in studies and theory and practice      **Reflections of the Moon on Water** Xiaolan Zhao, 2010-08-20 One of Canada s most trusted and beloved health practitioners introduces Western women to the wisdom of traditional Chinese medicine and the time tested practices that have helped optimize physical and emotional health for centuries Since establishing her practice in Canada twelve years ago Dr Xiaolan Zhao has treated thousands of women suffering from fatigue PMS infertility depression menopausal symptoms and other gynecological disorders health problems that are all too common in the West but less so in China where traditional Chinese medicine TCM has been an integral part of women s lives for thousands of years As a physician originally trained in Western medicine who later took up the practice of TCM Dr Zhao has seen how effective the Chinese approach is for her patients and she d like to see more Canadian women incorporating its wisdom and practices in their own lives as a complement to their regular health care In Reflections of the Moon on Water she explains the unique philosophy behind the healing tradition a way of thinking that is liberating and empowering for women Sharing stories from her own life and the lives of her patients Dr Zhao shows that we have nothing to reject about our feminine selves and explains how we can develop new relationships with our bodies and our emotions There is so much every woman can do in terms of ongoing and preventative self care to improve her health and vitality and prevent illness By making simple changes in diet exercise routine sex life and the way we deal with stress and our

emotions we can profoundly improve our health now and into the future Many Westerners think Chinese medicine sounds too complicated or too esoteric They find discussions of yin and yang or the life energy known as qi intimidating In fact Chinese medicine is very simple and accessible Many of the herbs we use are ordinary ones Sometimes I might treat a patient's sinus condition with eucalyptus or other familiar herbs and she'll say Oh that smells just like what my grandmother used to give me So much of Chinese medicine is based on intuition and common sense Although the history behind TCM is 5 000 years old 4 500 years older than our scientific traditions it is knowledge open to anyone excerpt from *Reflections of the Moon on Water*
